DEPARTMENT OF INFORMATION TECHNOLOGY

NEWSLETTER 2014-15 (SEM- II)

Vision

To equip students with core and state of the art Information technologies.

Mission

Imparting knowledge of Information Technology and teaching its application through innovative practices and to instill high morale, ethics, lifelong learning skills, concern for the society and environment.

Programme Educational Objectives

- I. To prepare students to identify, formulate and solve multifaceted and complex IT problems.
- II. To teach core professional skills with latest Information Technologies that prepare students for immediate employment in Information Technology industry.
- III. To teach students soft skills that prepares them for leadership roles along diverse career paths.
- IV. To make students aware of their social responsibilities in building the nation/ society.

Programme Outcomes

- a. Graduates will be able to demonstrate different computational theories.
- b. Graduates will have knowledge of processor architecture and computer organization.
- c. Graduates will be able to use different methodologies and modern tools for efficient Information management.
- d. Graduates will be able to design and develop computer networks for resource sharing.
- e. Graduates will be able to apply software development process to develop solutions for engineering and real life problems.
- f. Graduates will be able to use latest Information Technologies.
- g. Graduates will be able to identify the area and its scope for higher studies.
- h. Graduates will have interpersonal skills.
- i. Graduates will know self-motivation and how to work in teams.
- j. Graduates will know professional ethics and will have human values.
- k. Graduates as engineers will develop a concern for the society and environment.
- l. Graduates will be able to identify the need for and develop an ability to engage in lifelong learning.
