

Call for Papers

Important Dates:

- Last Date of Paper Submission:
November 30, 2019
- Notification of Acceptance:
December 30, 2019
- Registration:
January 15, 2020
- Camera Ready Copy
January 15, 2020

Publication

All accepted and registered papers of this special session will be published in IEEE Explore.

IEEE Xplore Digital Library. IEEE
Conference Record Number: #48226

Submission Guidelines

As per IEEE Guidelines

Registration

Session Title: Emerging Trends & Technologies in Computer Science

Session Chair: Dr. Rajesh Kumar Kaushal

Abstract: Improvements in computer science technology is essential for a better world. Some emerging areas of technology are IoT, SDN (Software Defined Networking), AR/VR (Augmented and Virtual reality) and Use of IT and AI in Healthcare sector. The Internet of Things is an emerging topic but at the same time it raises significant challenges that has raised questions on its potential benefits like hacking of Internet connected devices, privacy fears etc. Likewise SDN is a revolutionary idea that simplifies network control and management plane but it also has some issues that can hinder its performance and implementation. Another rising technology is AR/VR and this too suffers with some challenges. The last but not the least is use of AI and IT in healthcare sector and this sector is progressive leaps and bounds. The present session would like to welcome participants to address the above issues and present innovative solutions for the same.

Topics of Interest:

Internet of Things (IoT), Computer Networks, SDN (Software Defined Networking), Cloud Based Solutions, Cyber Security, AR/VR (Augmented Reality/Virtual Reality), AI (Artificial Intelligence) in Healthcare Solutions, Robotics, Disaster management, Security & Privacy.
