2nd IEEE International Conference on Emerging Smart Computing and Informatics, ESCI-2020, 12-14 March 2020

IEEE Advancing Technology for Humanity

IEEE Pune Section

Call for Papers

Important Dates:

➢ Last Date of Paper Submission: November 31, Dec 2019

➢ Notification of Acceptance: December 05 Jan, 2020

➢ Registration: January 15, 2020

➢ Camera Ready Copy January 15, 2020

Publication

All accepted and registered papers of this special session will be published in IEEE Explore.

IEEE Xplore Digital Library. IEEE Conference Record Number: #48226

Submission Guidelines
As per IEEE Guidelines

Registration

Session Title: Smart Computing Things for Smart Living

Session Chair: Dr. A.Jayanthiladevi & Dr.DevaBrindha

Abstract:
The theme of this Special Track will focus on the a new phase in the Smart Computing for Smart Living that focuses a new generation of integrated hardware, software, and network technologies that provide IT systems with real-time awareness of the real world and advanced analytics to help people make more intelligent decisions and are taking smart computing to a new dimension and improving our ways of living. "Smart" by connecting it to a computer, computers get "smart" by connecting them to the real world, which ultimately helps us to make better decisions. While every company and organization operating today is different, they all face a common challenge—the need for connectedness and access to real-time insights across processes, partners, products, and people. The technologies of the future will be founded on the availability of data. Its potential is so vast and world-changing that its many separate innovations deserve to be explored separately in greater detail. This Special Track aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of Emerging Technologies for Smart Computing for Smart Living. We would like to invite the authors to submit their research on Emerging Technologies for Smart Computing for Smart Living. The Special Track will focus on a wide range of topics in Smart Computing for Smart Living. Smart computing is a multidisciplinary domain which Applications can be found in different societal domains.

Paper Submission Process: Please submit your paper (in word/pdf format) at email: drjayanthiila@ieee.org, with Name of Special Session mentioned in the subject line.
