

AISSMS

INSTITUTE OF INFORMATION TECHNOLOGY

ADDING VALUE TO ENGINEERING

Approved by AICTE New Delhi, Recognized by the Government of Maharashtra
and Affiliated to Savitribai Phule Pune University.
Accredited by NAAC with A grade

Institutional Distinctiveness

(2018-2019)

The institute has the vision to uplift common masses by rendering value added education. To achieve this institute is continuously working towards creating engineers receptive to the changing demands of the global market.

iConnect: The institute has started '*iConnect*' (individual-industry-institute Connect) program for enhancing interaction between institute and industry which involves contribution by every teacher. i-connect recognizes the academic and professional value of student engagement outside the traditional classroom. The main aim of i-connect is to motivate the faculty members to enhance their connect with the industry. The faculty members visit industries as well as undergo trainings, undertake projects/consultancy work. This faculty association with industry, helps to obtain student internship, final year sponsored project, industrial visit, MoU and industrial resource persons for expert lecture/workshop and placements. The ultimate goal is to imbue students and faculty members with professionalism and networking capabilities. Internship has provided comprehensive practical experience to the students to enhance their academic and professional skills and making them more employable in today's competitive world.

The students will get this lucrative opportunity to apply the knowledge they acquired all through the academic career in the professional realm. Employers are much more likely to hire someone with internships and work experience rather than someone with a generic resume, lacking experience. In the year 2018-19, third year students were motivated and counseled to do internship after the end semester examination under iConnect program. In this way, by using faculty-industry association, Institute has encouraged students to opt for internship and provided many opportunities to students for attending internship programs offered by renowned companies. In academic year 2018-19, 424 students of our Institute successfully completed internship in companies and government organizations like DRDO, BARC, BSNL, TechMahindra, HP, DigitalMains, L&T, Power Grid, EPITOME Components, Alfa Laval etc. Outcomes of iConnect program are summarized as:

1. 34 faculty members have interacted with different companies
2. 1 faculty member has started consultancy work
3. 194 students have successfully completed internship/summer training programs
4. 62 students have attended hands on training program on ETAP.
5. 41 students got industry sponsored project
6. 28 students got placed
