THE NEWS LETTER OF ELECTRICAL ENGINEERING

Program Education Objectives (PEOs)

- Equip students with skills to excel in academic and professional career.
- Inculcate ability in the students to investigate problems in engineering and provide effective solutions.
- Prepare graduates to engage in life-long learning by developing in them professional social and Ethical attitude.

PROGRAM OUTCOMES (POs)

- PO1.** An ability to apply the knowledge of mathematics, science and Engineering in all aspects of Electrical Engineering.
- PO2.** An ability to analyze, simulate, design, investigate complex problems, and/or fabricate/commission complete systems.
- PO3.** An ability to acquire new knowledge to use modern engineering tools, software and equipments to analyse problems necessary for electrical engineering.
- PO4.** An ability to recognize the impact of engineering on society.
- PO5.** An understanding of professional, ethical, legal, security, environment and social issues and responsibilities.
- PO6.** An ability to function effectively individually and in teams, including diverse and multidisciplinary, to accomplish a common goal.
- PO7.** An ability to communicate effectively in both verbal and written form.
- PO8.** An ability to acquire lifelong learning skills and confidence for self education.
- PO9.** An understanding of engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and finance.
