

AISSMS

INSTITUTE OF INFORMATION TECHNOLOGY

ADDING VALUE TO ENGINEERING

An Autonomous Institute Affiliated to Savitribai Phule Pune University
Approved by AICTE, New Delhi and Recognised by Govt. of Maharashtra

Accredited by NAAC with 'A+' Grade

Department of Information Technology

NEWS-LETTER

2021-2022 Semester-I

Vision:

To equip students with core and state of the art Information Technology.

Mission:

Imparting knowledge of Information Technology and teaching its application through innovative practices and to in still high morale, ethics, lifelong learning skills, concern for the society and environment.

About the Department of Information Technology

Welcome to the Department of Information Technology!!!

As we all know, this is an era of Information Technology, and almost every one of us uses gadgets which invariably leverages the benefits of Information Technology. The advent of Information Technology has revolutionized the way we live. Moreover, Internet and mobile wireless technology are the boons of Information Technology. So, the department strives hard to groom our students with this cutting-edge technology, thereby instilling high valued ethics and morals. The department prepares them to take up the challenges of ever-changing dynamic IT industry.

To fulfil the vision and mission of Information Technology Department towards imparting quality education to our students we conduct various activities like expert lectures, seminar and workshop and industrial visit to make teaching process effective. We provide a platform to our students to participate in many extracurricular activities through various technical, non-technical contests for their overall personality development.

Editorial Team

Faculty Coordinator

Mr. Vikas Katakbound

Student Editorial Head

Abhishek Zade

Isha Nadkar

Pratham Pohakar

Programme Educational Objectives

1. To prepare graduates to solve multifaceted and complex problems in IT industries.
2. To inculcate core professional skills with latest information technology to prepare graduates for employment and higher studies.
3. To develop cross domain competences that prepares graduates for lifelong learning in diverse career paths.
4. To make graduates aware of their social responsibilities toward environment and society.

Program Specific Outcomes

5. Graduates will be able to demonstrate database, networking and programming technologies.
6. Graduates will be able to apply core, professional and state of the art Information Technology

Program Outcomes

Graduates will be able to

1. Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems. [Engineering knowledge]
2. Identify, formulate, research literature, and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences. [Problem analysis]
3. Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations. [Design/development of solutions]
4. Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions. [Conduct investigations of complex problems]
5. Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations. [Modern tool usage]

6. Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice. [The engineer and society]
7. Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development. [Environment and sustainability]
8. Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice. [Ethics]
9. Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings. [Individual and team work]
10. Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions. [Communication]
11. Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments. [Project management and finance]
12. Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change. [Life-long learning]

- Mainframe computing:**
 Mainframes which first came into existence in 1951 are highly powerful and reliable computing machines. These are responsible for handling large data such as massive input-output operations. Even today these are used for bulk processing tasks such as online transactions etc. These systems have almost no downtime with high fault tolerance. After distributed computing, these increased the processing capabilities of the system. But these were very expensive. To reduce this cost, cluster computing came as an alternative to mainframe technology.
- Cluster computing:**
 In 1980s, cluster computing came as an alternative to mainframe computing. Each machine in the cluster was connected to each other by a network with high bandwidth. These were way cheaper than those mainframe systems. These were equally capable of high computations. Also, new nodes could easily be added to the cluster if it was required. Thus, the problem of the cost was solved to some extent but the problem related to geographical restrictions still pertained. To solve this, the concept of grid computing was introduced.

Approved by AICTE, New Delhi and Recognised by Govt. of Maharashtra

Accredited by NAAC with 'A+' Grade

Department of Information Technology

NEWS-LETTER

2021-2022 Semester-II

Vision:

To equip students with core and state of the art Information Technology.

Mission:

Imparting knowledge of Information Technology and teaching its application through innovative practices and to in still high morale, ethics, lifelong learning skills, concern for the society and environment.

About the Department of Information Technology

Welcome to the Department of Information Technology!!!

As we all know, this is an era of Information Technology, and almost every one of us uses gadgets which invariably leverages the benefits of Information Technology. The advent of Information Technology has revolutionized the way we live. Moreover, Internet and mobile wireless technology are the boons of Information Technology. So, the department strives hard to groom our students with this cutting-edge technology, thereby instilling high valued ethics and morals. The department prepares them to take up the challenges of ever-changing dynamic IT industry.

To fulfil the vision and mission of Information Technology Department towards imparting quality education to our students we conduct various activities like expert lectures, seminar and workshop and industrial visit to make teaching process effective. We provide a platform to our students to participate in many extracurricular activities through various technical, non-technical contests for their overall personality development.

Editorial Team

Faculty Coordinator

Mr. Vikas Katakbound

Student Editorial Head

Abhishek Zade

Isha Nadkar

Pratham Pohakar

Programme Educational Objectives

1. To prepare graduates to solve multifaceted and complex problems in IT industries.
2. To inculcate core professional skills with latest information technology to prepare graduates for employment and higher studies.
3. To develop cross domain competences that prepares graduates for lifelong learning in diverse career paths.
4. To make graduates aware of their social responsibilities toward environment and society.

Program Specific Outcomes

5. Graduates will be able to demonstrate database, networking and programming technologies.
6. Graduates will be able to apply core, professional and state of the art Information Technology

Program Outcomes

Graduates will be able to

1. Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems. [Engineering knowledge]
2. Identify, formulate, research literature, and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences. [Problem analysis]
3. Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations. [Design/development of solutions]
4. Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions. [Conduct investigations of complex problems]

5. Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations. [Modern tool usage]
6. Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice. [The engineer and society]
7. Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development. [Environment and sustainability]
8. Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice. [Ethics]
9. Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings. [Individual and team work]
10. Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions. [Communication]
11. Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments. [Project management and finance]
12. Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change. [Life-long learning]

Professional Society Activities

Sr. No	Date	Activity Details with class & students' count	Topic	Resource Person/Judge
01	13/12/2021 to 18/12/2021	Workshop	One Week workshop on Machine Learning with Cloud Deployment (AICTE SPICES)	Mr. Yogesh Murumkar
02	14/03/2022	Workshop	Workshop on “Big Data Processing” (IEEE)	Mr. Yogesh Murumkar

Faculty Participation in FDP/STTP/Online course

Sr. No.	Name of Staff	Event	Organized by	Date of Event
1.	Ms. Jayashree Pasalkar	FOP on Internship	Amrutvahini College Of Engineering, Sangamner	27/01/2022
2.	Mrs. Anuja Phapale	FOP on Internship	Amrutvahini College Of Engineering, Sangamner	27/01/2022
3.	Mrs. Pragati Mahale	FOP on Web Application development and LP-2	PVG COET,Pune	28/01/2022
4.	Ms. Jayashree Pasalkar	FOP on Cloud Computing And Lab. Practices-II	MVP's K.B.T.College of Engineering, Nashik	02/2/2022

Department of Information Technology

5.	Mr. Vikas Katakbound	FDP on Project Based Learning	AISSMS COE	21/02/2022- 26/02/2022
6.	Mrs.Reshma Totare	STTP on Thesis and Research Paper Writing	National Institute of Technical Teacher's Traingin and Reasearch(NITTTR) Kolkatta	21/02/2022- 25/02/2022
7.	Ms.Madhuri Thorat	FDP on Computational statistics and data science	AISSMS IOIT	07/03/2022- 11/03/2022
8.	Mrs. Anuja Phapale	FDP on Computational statistics and data science	AISSMS IOIT	07/03/2022- 11/03/2022
9.	Ms.Madhuri Thorat	FDP on Research tool for data science	Marathwada Mitra Mandal Institute of technology	29/03/2022- 31/03/2022
10.	Ms. Jayashree Pasalkar	FDP on Research tool for data science	Marathwada Mitra Mandal Institute of technology	29/03/2022- 31/03/2022
11.	Mrs. Anuja Phapale	FDP on Research tool for data science	Marathwada Mitra Mandal Institute of technology	29/03/2022- 31/03/2022
12.	Dr. Mrunal Pathak	FDP on Awareness in web technology	Marathwada Mitra Mandal Institute of technology	07/04/2022- 11/04/2022
13.	Mr. Riyaz Jamadar	FDP on Inculcating Universal Human Values in Technical education	AICTE	11/04/2022- 15/04/2022

Department of Information Technology

14.	Dr. Mrunal Pathak	IP awareness training Program	National IP property office, India	March 2022
15.	Dr. Mrunal Pathak	Certificate Course in “Machine Learning Fundamentals	MET Institute of Software Development and Research	7/04/2022 - 9/04/2022

Photo Gallery- Technical Events

Techno-social visit organized at Dharmveer Shamhaje Raje Ashram on 18/02/2022

MOU signed with datametica on 24/02/2022

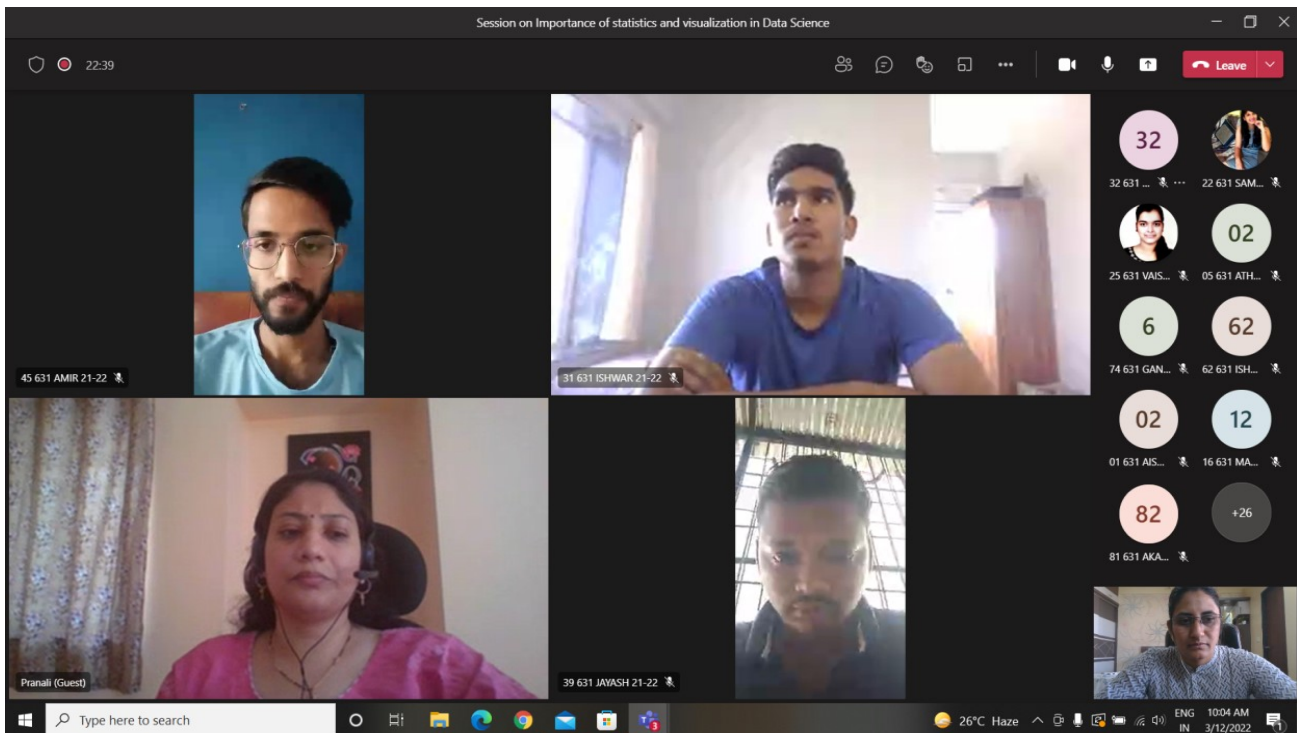

Techno social visit Organised for SEIT students at Bal Kalyan Sasstha, Pune on 28/2/2022

Industrial Visit at Police Wireless Department, Pune for Third Year IT Students Organized by MRs.R.Y.Totare with Mrs.P.P.Mahale on 8/4/2022

Industrial Visit at IITM,Pune for Second Year IT Students Organized by Dr. M.A.Thalor along with Mr. Pritesh Patil and Mr. Riyaj Jamadar on 8/4/2022

**Expert Lecture by Mrs.Pranali Chaudhari, Data Scientist, Dimensionless Technologies Pvt. Ltd. for Third Year on Topic : Importance of Statistics and visualization in Data Science
Coordinated By Mrs. Anuja Phapale**

Workshop by Mr. Yogesh Murumkar, Director and CEO, Bharatsoft Solutions for Third Year on Topic: Big Data analytics using python Coordinated By Mrs. Anuja Phapale

Industrial Visit at IMD,Pune for Final Year IT Students Organized by Dr. M.A.Thalor along with Dr. M.K.Pathak and Mrs. J.C.Pasalkar on 22/4/2022

Inauguration of Pitcher's Den Event organized under Microsoft Learn Student Ambassador Club and ACM student chapter on 21/4/2022

Valedictory Ceremony of Pitcher's Den Event organized under Microsoft Learn Student Ambassador Club and ACM student chapter on 21/4/2022

IT department alumni on Alumni Meet day organized on 23/4/2022

Visit of alumni at department during Alumni Meet organized on 23/4/2022
