World No Tobacco Day Report

Duration in days: One day   **Date:** 31/05/2021
Name of the event: World No Tobacco Day
Organized by: NSS   **Venue:** Students home place
Number of participant-   **Male:**   **Female:**   **Total:** 105
**Objective:** Human Health
Details:

Tobacco causes 8 million deaths every year. Quitting can be challenging, especially with the added social and economic stress that have come as a result of the pandemic, but there are a lot of reasons to quit. Worldwide around 780 million people say they want to quit, but only 30% of them have access to the tools that can help them do so. The benefits of quitting tobacco are almost immediate. After just 20 minutes of quitting smoking, your heart rate drops. Within 12 hours, the carbon monoxide level in your blood drops to normal. Within 2-12 weeks, your circulation improves and lung function increases. Within 1-9 months, coughing and shortness of breath decrease. Within 5-15 years, your stroke risk is reduced to that of a non-smoker. Within 10 years, your lung cancer death rate is about half that of a smoker. Within 15 years, your risk of heart disease is that of a non-smoker. GFM of every class taken No Tobacco pledge with students in their online classes.

Outcome of the program: 105 students participated in this activity.

Name of the event: Hand Wash Day

Organized by: NSS   **Venue:** AISSMS IOIT

Number of participant- **Male:** 38   **Female:** 11   **Total:** 49

Objective: To maintain hygiene.

Details: All India Shri Shivaji Memorial Society's Institute of Information Technology, Pune has organized Hand Wash Day activity on 22nd October 2021. Global Handwashing Day highlights the importance of handwashing with soap and water at home, in the community, and around the world. Hand washing with soap and water is one of the best steps we can take to avoid getting sick and spreading germs to others. This activity seeks to raise awareness of making soap and water available globally, especially in public places, schools, and health care facilities to improve hand hygiene efforts in the COVID-19 response that can outlast the pandemic and ensure continued access to clean water and soap. Many germs that can make people sick are spread when we don't wash our hands with soap and clean, running water. That is why handwashing is so important, especially at key times such as after using the bathroom, when preparing food, before eating, and after coughing, sneezing, or blowing your nose. Principal Dr.P.B.Mane motivated and guided for this activity and conducted by Mr.Sachin Kokane and Mr. Chandrakant Bhange.

Details:

HIV remains a major public health issue that affects millions of people worldwide. Although the world has made significant progress in recent decades, important global targets for 2020 were not met.

Division, disparity and disregard for human rights are among the failures that allowed HIV to become and remain a global health crisis. Now, COVID-19 is exacerbating inequities and disruptions to services, making the lives of many people living with HIV more challenging. The theme of World AIDS Day 2021 is "End inequalities. End AIDS". With a special focus on reaching people left behind, WHO and its partners are highlighting the growing inequalities in access to essential HIV services.
