We have conducted program for students as well as working professional from all engineering streams (mechanical, Production, E&TC, Instrumentation Engineering). The program was found useful for employment and boosting the skill, role and responsibilities of already employed trainees. This is understood from their feedback from alumni which are in regular touch with CNC Skill Development Centre. It is noteworthy that alone CNC internship program and offline CNC, VMC Programming courses could fetch 94000 /--. We have conducted four batches in July, August, and September 2020 and October 2021.
