Plastic Ban Activity: 25/06/2021

Plastic Pollution is currently one of the biggest environmental concerns. The short-term benefits and convenience of plastic and plastic goods have led to a boom in the production and consumption of plastic. Over the past century, excess consumption of plastic has surpassed management of plastic waste and led it to become a scourge to the planet. Plastic is a menace that impacts not only the environment but our health and wellbeing as well. We have all contributed to this problem, knowingly and unknowingly and we must work to reduce and eliminate plastic pollution.

As per circular no.D.O.14-9/2021(CPP-II), dated 07/06/2021, regarding Elimination of Single Use Plastic and dispose off plastic waste to reduce the use of plastic, our Institute students took pledge regarding plastic ban on 25/06/2021 by 354 students and 09 GFM. GFM of every class took pledge with students in the online classes regarding Plastic ban. Principal Dr.P.B.Mane motivated and guide to this activity and coordinated by SDO and Mr.S.R.Kokane.
