TELECOM ENGINEER'S STUDENT ASSOCIATION

# AISSMS

INSTITUTE OF INFORMATION TECHNOLOGY  
ADDING VALUE TO ENGINEERING

TESA committee follows all the Vision, Mission, Program Educational Objectives, Program

Specific Outcomes and Program Outcomes as laid by Electronics and Telecommunication Department. They are as follows

## **VISION**

To provide quality education in Electronics & Telecommunication engineering with professional ethics.

## **MISSION**

To develop technical competency, ethics for professional growth and a sense of social responsibility among students.

## **PROGRAM EDUCATIONAL OBJECTIVE**

1. To provide students with solid foundation in mathematics and fundamentals of Electronics & Telecommunication engineering.
2. To prepare students to analyze and solve real life problems.
3. To inculcate professional and ethical attitude and good communication skills among the students.
4. To develop social awareness among the students.

## **PROGRAM SPECIFIC OUTCOMES**

Graduates will be able to

1. Apply fundamentals and knowledge of electronics, telecommunication and mathematics to analyze, design and develop electronics and telecommunication systems.
2. Select different software tools, test and measure equipment and use them efficiently for system solutions.

## PROGRAM OUTCOMES

1. Apply the knowledge of mathematics, science, engineering fundamentals and an engineering specialization to the solution of complex engineering problems. [Engineering knowledge].
2. Identify, formulate, research literature and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences. [Problem analysis]
3. Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety and the cultural, societal and environmental considerations.[Design/development of solutions]
4. Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data and synthesis of the information to provide valid conclusions.[Conduct investigations of complex problems]
5. Create, select and apply appropriate technique resources and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.[Modern tool usage]
6. Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.[The engineer and society]

# AISSMS

INSTITUTE OF INFORMATION TECHNOLOGY

ADDING VALUE TO ENGINEERING

7. Understand the impact of the professional engineering solutions in societal and environmental contexts and demonstrate the knowledge of and need for sustainable development. [Environment and sustainability]
8. Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practices.[Ethics]
9. Function effectively as an individual and as a member or leader in diverse teams and in multidisciplinary settings. [Individual and team work].
10. Communicate effectively on complex engineering activities with the engineering community and with the society at large such as being able to comprehend and write effective reports and design documentation. Make effective presentations, and give and receive clear instructions. [Communication].
11. Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work as a member and leader in a team, to manage projects and in multidisciplinary environments.  
[Management and Finance].
12. Recognize the need for and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change. [ Life-long Learning].

## PREFACE

Telecom Engineer Students Association (TESA) was first established in the year 2012 under the Electronics and Telecommunication Engineering Department (ENTC), AISSMS IOIT. This committee was established under the guidance of respective Principal sir, department HOD, TESA chairperson(s) and other faculty members for the maximum participation, overall development of students which involved showcasing their talent and providing them a platform to reveal their hidden potentials and skills through various domains like Technical, Cultural and Sports. Like every year students from Electronics and Telecommunication Department and also from other departments and AISSMS Society are enthusiastically participating in these events along with staff members and the TESA committee received an overwhelming support and co-operation from participants overall. TESA Events were generally held for two days under the brand event name “VERITAS” which means “TRUTH” where the committee basically looked after the realistic development of the students in uplifting their talent. Like Last year, this year also we conducted VERITAS in an online mode. The covid pandemic gave a huge example, that change in life opens the door to big opportunities and take us to the greater heights of success. In accordance with this idea is our theme for this year is “Let’s bring the Change”.

This year we had planned various activities related to Technical, Cultural and Sports domains. As an exposure to the placement procedure and an overview of entrance examinations for higher studies, we had also included T&P and Study Circle in the VERITAS events which would help students in their career. Along with this we arranged a Social Event on “Mental Health Awareness”. Wherein we had an interaction with the students of age group of 18-25 years by which we tried to tell them the importance of Mental Health. Our TESA Committee activities are not restricted only up to VERITAS events, but will be held throughout the academic year through various webinars, exciting workshops so that student can develop the ability of concept understanding, analysing and creating their own realistic ideas.

We hope that our legacy which we had dreamt of, created and brought into picture will be carry forwarded by coming ENTC enthusiasts and our ideas and visions will be beneficial to our juniors, batch-mates and everyone.

## **Aim/Objective of Student Association**

TELECOM ENGINEER'S STUDENTS ASSOCIATION (TESA) is a student association run by students of E&TC for students of E&TC. The main objective of the TESA is to provide platform to students to explore their skills and knowledge through curricular and extracurricular activities in the field of E&TC. TESA is committed to the overall development of E&TC students by organizing various such as "VERITAS", it is a department level event in which various technical and non-technical activities are conducted. In addition, through TESA, we celebrate days like "Teachers Day" and "Engineers Day".

## **Outcomes of Student Association**

Joining a student organization presents many opportunities to learn more about them self, their goals, and their strengths. Students can learn from how other students handle certain situations and test their current knowledge. Students can also find out what they're good at, whether that's multitasking, staying organized, generating ideas, or serving others. This self-awareness will be beneficial in student's future career.

Knowing how to work well with a team is an essential skill for any career. Being in a student organization teaches them, how to do this by putting them in situations where they are required to take advice from others, as well as give your own.

16.	Editorial Secretary	Vivek Kolekar(BE)
17.	Joint Editorial Secretary	Pragati Jain(TE)
18.	T & P Secretary	Manasi Takalkar (BE)
19.	Joint T & P Secretary	Madhavi Shinde(TE)
20.	Social Secretary	Ishant Navale (BE)
21.	Joint Social Secretary	Tanishka Bhalekar (TE)
22.	Study Circle Secretary	Shubham Kasture (BE)
23.	Joint Study Circle Secretary	Avantika Shende (TE)

**Mr. D.A. Itole**  
TESA Chairperson

**Dr. M. P. Sardey**  
HOD E&TC Dept.

## ABOUT THE THEME

### “75<sup>th</sup> Independence of India”

SINCE 2012

“Celebrating the 75th Independence of India is a momentous occasion, a time to reflect on the country's rich heritage, remarkable progress, and the spirit of unity that has defined its journey. From the struggles of the freedom fighters to the achievements of a modern, diverse nation, India has come a long way. In the realm of sports, India's story is equally inspiring, showcasing determination, talent, and a passion for excellence.”

## PSEUDOCODE

**Date and time:** 4<sup>th</sup> Sep 2022

**Event Description:** Code-thon is based on computer programming/coding. A story based question will be given to the participants where a problem statement will be embedded in it and they have to write a program according to conditions specified in the problem statement.

**Event Head:** Aushutosh Mishra

**Event Co-ordinators:** Yash Badade  
Aryan Shinde

**Winner:** Sakshi Tikare

**Runner-Up:** Sweena Joseph

## Report of Quiz conducted on National Pollution Control Day

### 1. Topics:

- Session on Nation Pollution Control Day.
- Quiz competition.

2. Day & Date : Friday 02/12/ 2022.

3. Organizer team: Mr. Ankit Sonawane (BE &TC)

4. No.of Participation: 45

5. Name of faculty Coordinator: Mr. D. A. Itole

6. Objective(s) :

**To create awareness about controlling pollution in students, pollution causing factors and how to avoid the use of this factor or the alternatives for this factors.**

7. Brief description of event:

On the occasion of National Pollution Control Day a quiz competition is conducted by TESA. To know the important facts to reduce the pollution caused by various entities in the atmosphere a session is organised by TESA students. Quiz competition is conducted to know that is young generation is aware about the pollution problems nowadays?

## Arduino Workshop

Department of electronics and Telecommunication and TESA had successfully conducted and Organised “Arduino Workshop”.

Date: 24<sup>th</sup> and 25<sup>th</sup> march 2023.

Participants: 2<sup>nd</sup> year E&TC department students.

### Detailed Description of the modules:

**Session 1** was held on 24<sup>th</sup> April 2023. The module 1 started with basics of electronics, Introduction of Arduino, its pin configuration and Architecture, Arduino IDE and Arduino applications. The students were taught using Powerpoint Presentations and 3D images of different components.

**Session 2** was held on 24<sup>th</sup> April 2023. The module 2 included the basic programming needed for Arduino, basic input and output devices and its interfacing with Arduino UNO. For the demonstration purpose we used online simulation software “Tinkercad” and the students were asked to perform the simulations simultaneously.

**Session 3** was held on 25<sup>th</sup> April 2023. The module 3 comprised of basic sensors, its working, display devices and its working and their interfacing with Arduino UNO. Mentors demonstrated the interfacing and programming logic live during the session.

**Session 4** was held on 25<sup>th</sup> April 2023. In the module 4 students were introduced to a new and advanced simulation software “Proteus”. The students were taught about some important day-to-day life sensors and its interfacing with Arduino UNO and its programming logic.

**Outcome:** The main purpose for conducting the workshop was to prepare the students from their first year itself. The students were taught about the basic
