Our Heritage

The All India Shri Shivaji Memorial Society was established in 1917 as a broad based educational and social welfare organization by the erstwhile Royal house of Kolhapur, supported by the Royal House of Indore and Gwalior, with a benevolent mission of the welfare of their subject.

The foundation stone of the All India Shri Shivaji Memorial Society was laid at the hand of His Royal Highness, the Prince of Wales, on 19th November, 1921. The equestrian status of Chhatrapati Shivaji Maharaj was executed by the famous Indian Sculptor, Shri Nansaheb Karmarkar and was unveiled by his Excellency Sir Leslie Wilson, Governor of Bombay on 16th June, 1928.

The original plan for the famous heritage building for Shri Shivaji Preparatory Military School was conceived by the Tata construction Co., later redesigned by Rao Bahadur Jagtap and the building was constructed by Rao Bahadur Thube. At the instance of the Chhatrapati Rajaram Maharaj of Kolhapur, the building was inspected by then Commander- in- Chief of the British Army of the India and declared fit to house a Military School. His excellency sir Frederick Sykes Governor of Bombay inaugurated the School on 23 September 1933.

The renowned Engineering Colleges, College of Pharmacy, Polytechnic, Institute of Management and College of Hotel Management and Catering Technology are under the ambit of the society.

Through its various institutions AISSMS has provided the society with exemplary citizens. Some of the most decorated soldiers of the Indian Army have been the alumni of Shri Shivaji Preparatory Military School (SSPMS), the flagship institute of AISSMS. The students are persuaded to maintain strict discipline and regularity. State-of-art infrastructure, facilities of International standard, highly qualified and experienced faculty and dynamic and dynamic and comprehensive teaching learning process are some of the highlights of Institute of AISSMS.

About Institute

About Institute

The All India Shri Shivaji Memorial Society's Institute of Information Technology was established in 1999, is a self-financing Institution and is affiliated to the S. P. Pune University. It is approved by the AICTE, New Delhi and the Director of Technical Education, Government of Maharashtra. The institute is re-accredited with "A+" grade in cycle II by National Assessment and Accreditation Council (NAAC), granted Autonomous status by the UGC and 5 UG programs have been accredited by National Board of Accreditation (NBA).

Our college runs Engineering Degree programs in the branches of Computer Engineering, Information Technology, Artificial Intelligence and Data Science, Electronics and Telecommunication Engineering, Electrical Engineering and Instrumentation leading to the degree of B.E. of Savitribai Phule Pune University. We also have PG courses in Electrical and E&TC Departments and a Ph.D. Research Centre in E&TC.

About Conference

The 6th IEEE International Conference on Emerging Smart Computing and Informatics (ESCI-2024) is the platform where academics and industry researchers present their latest algorithms, models and technologies and explore new trends and ideas on smart computing and informatics. The aim of this conference is to provide an allied platform for emerging trends in smart computing, networking, communication, signal and image processing, cyber security and IOT.

The key intention is to provide opportunity for the global participants to share their ideas and experiences in person with their peers expected to join from different parts of the world. In addition to this, the gathering will help the delegates to establish research environment as well as to find the international linkage for future collaboration in their career path. The conference focuses on various modernization and innovation paradigms that may be applied to present practical and creative solutions to diverse issues in society, industry and environment.

The conference proceeding invites academics and industry researchers for publication of papers explaining literature review, problem statement, methodologies with appropriate results. The selected papers will be sent to the experts for review. Acceptance will be based on significant and innovative content, originality and unpublished quality work. Accepted and presented papers will be published in IEEE Explore digital library. The Conference also invites special topics, tools and applications in multidisciplinary areas with workshops, tutorial sessions by expert academicians and professionals.

Highlights: To imbibe the research culture in undergraduate students, the conference invites the undergraduate students to publish original, innovative and quality research work. The accepted and presented papers will be published in conference proceeding.

The conference invites the papers in the following domains /tracks:

- **Track 1: Smart Computing**
- **Track 2: Image and Signal Processing**
- **Track 3: Internet of Thing and Automation**

MESSAGE

It is of immense pleasure to know that All India Shri Memorial Society's Institute of Information Technology (AISSMS IOIT), Pune; Maharashtra, India is organizing its 6th IEEE International Conference on Emerging Smart Computing & Informatics (ESCI 2024) from 5th to 7th March 2024 at AISSMS IOIT, Pune. The theme of the conference takes an in-depth look at many topics related to Smart Computing, Image, Signal Processing, and IoT.

No doubt, this conference is a step towards fulfilling the vision of Savitribai Phule Pune University to become a world-class Academic and Research University by carving its students with multidimensional skills and knowledge by creating awareness about the latest development in the era of technologies. The University is committed to promoting innovations, and research and imbibing the principles of knowledge generation. I am confident that this conference will surely encourage learning abilities among participants from diverse cultures.

I would like to congratulate the Management of All India Shri Memorial Society's Institute of Information Technology, Pune. I would like to appreciate the efforts taken by the members of the organizing committee to organize this International Conference.

I am sure that this conference will surely provide an allied platform for strengthening the relationship both at the national as well as at the international level in terms of knowledge sharing and provide impetus to increase joint research collaborations. I believe that this conference will play a pivotal role in fostering new ideas for a better tomorrow. My best wishes for the success of this conference!

Prof. Suresh Gosavi

MESSAGE

I am happy to know that All India Shri Shivaji Memorial Society's Institute of Information Technology (AISSMS), Pune is organizing its 6th edition of IEEE International Conference on Emerging Smart Computing and Informatics (ESCI) during 5th to 7th March 2024. ESCI is a reputed conference providing platform for deliberations on advancements and research on futuristic technologies including smart computing, networking, communication, signal and image processing, cyber security and IOI. I am happy to note that the conference has attracted over 600 researchers and practitioners from the academia, industry and government across the world in its previous editions.

With the advancements in Industry 4.0 technologies and their deeper penetration in almost every discipline, the newer and complex systems are continuously evolving. The aerospace systems are no exception to this and are becoming more sophisticated with the integration of technology frontiers including Optical & Quantum systems, Onboard AI, AI ready Data, Smart sensors etc. These systems have h-ansformative implications for the future of aerospace programs as they drive technological innovation and promote sustainable space exploration. Space Applications Centre (ISRO) is leading the Advanced R&D in various technology frontiers and has demonstrated them in various missions.

This requires continuous evolution and upgradation of systems knowledge and research through collaborative-networked learning opportunities with scientists and professors, entrepreneurs, developers, talented young researchers/ students and other thought leaders with common interest. I am confident that the ESCI-2024 would provide the much needed platform for synergetic interactions, knowledge sharing and research deliberations on technology frontiers with end user applications perspective.

I congratulate the organizers and wish Conference a grand success.

 Director

भारतीय अंतरिक्ष अनुसंधान संगठन

INDIAN SPACE RESEARCH ORGANISATION

Message from President

Shrimant Shahu Chhatrapati Maharaj
President
All India Shri Shivaji Memorial Society,
Pune

It is our honour and privilege that AISSM Society's Institute of Information Technology, Pune, is hosting a distinguished gathering of minds by organizing its 6th IEEE International Conference on 'Emerging Smart Computing & Informatics (IEEE-ESCI 2024)' from 5th to 7th March, 2024 at the forefront of this transformational field. The Institute is re-accredited with "A+" Grade in cycle II by the National Assessment and Accreditation Council (NAAC), Bangalore, granted Autonomous status by the University Grants Commission (UGC), New Delhi and 5 UG programs have been accredited by the National Board of Accreditation (NBA), New Delhi. This conference has a vision which is significant for professionals as well as academia. We take a significant step forward in focusing on innovative concepts, best practices, and continuous improvisation. It is absolutely imperative that such conferences provide a vital platform for exchange of views and ideas to foster meaningful connections and ignite passion for technology. It aims to promote and generate multidisciplinary interest in all the areas of Engineering and Technology and will provide a foundation for scholars to explore the potential of smart computing and informatics applications. The enthusiasm, dedication and passion of the organizing team will go above and beyond to meet your expectations and provide an extensive experience to make this conference a success.

Message from Hon. Secretary

Shri Malojiraje Chhatrapati
Hon. Secretary
All India Shri Shivaji Memorial Society,
Pune

I extend a warm welcome to all the research scholars, academicians, students and technology enthusiasts from academia and industry for the 6th IEEE International Conference on Emerging Smart Computing & Informatics (IEEE-ESCI 2024), which is organized by AISSM Society's Institute of Information Technology. AISSMS, which is an umbrella organization, imparts a high quality education, values and one of its example is the staging of international conferences.

I am confident that this conference will provide a great opportunity for a global group of scientists, scholars, researchers and industry experts to come together for stimulating discussions, groundbreaking research contributions and forging ahead with new collaborations in the field of science and technology. Collaborative international initiatives for the exchange of views and ideas will pave the way for generating the finest possible research interest in all the disciplines of engineering and industry.

I congratulate and appreciate all the members of AISSM Society's Institute of Information Technology, Pune team for their relentless hard work and unwavering commitment to organize IEEE-ESCI 2024 thereby shaping a smarter and brighter future for all.

I believe that this conference will fuel all the attendees in your journey of smart computing and informatics. Best wishes for a productive, inspiring and successful conference!

Message from Chair

Dr. Surekha Deshmukh
Chair
IEEE Pune Section,
Pune

It gives me immense pleasure to congratulate to AISSMS's IOIT, Pune for organizing 6th IEEE International Conference on Emerging Smart Computing and Informatics (ESCI-2024), during 5th -7th March 2024.

The international conference aims to provide a technical platform for researchers across the globe to present their innovative ideas and share technical knowledge. This Conference encourages original papers in the diversified domains concerning the field of technological advancement in Smart Computing, IoT, Image and Signal Processing.

I would like to thank all of the participants for their excellent contributions. I sincerely hope that their study will benefit humanity in all aspects of life. I am also optimistic that the talks among attendees at this IEEE conference will help them solidify existing ideas and explore new ones.

I take this opportunity to convey my best wishes and thanks to all the keynote speakers, delegates, research scholars, faculty members and all the members of the organizing committee for making this conference a brand.

I wish the conference all success.

Message from Organizing Chair

Dr. Suresh Limkar
Organizing
Chair IEEE ICESCI-
2024, Pune

It is with great pleasure that we extend a warm welcome to all research scholars, industry experts, faculty members, and students for the 6th IEEE International Conference on Emerging Smart Computing & Informatics (IEEE ESCI 2024). The conference is scheduled to take place from 5th to 7th March 2024 at AISSMS IOIT Pune.

This event offers a unique opportunity for networking, interaction, and collaboration among scholars, providing a platform to meet and learn from world-renowned professionals. The conference will facilitate the exchange of ideas and problem-solving discussions, particularly in the areas of Smart Computing and Informatics.

We are excited to announce that the response to paper submissions has been overwhelming, and we express our gratitude for the enthusiastic participation of researchers. The high-quality contributions underwent a rigorous evaluation process by an esteemed intellectual review panel comprising professionals in their respective disciplines.

The conference program includes world-class keynote speeches, Tutorial talks, and special sessions by scholars and experts from academia, industry, and research organizations. We believe these sessions will contribute significantly to the learning experience of students and young researchers.

The involvement of all presenters at IEEE ESCI 2024 is anticipated to enhance their experience through meaningful interactions with the international technical community. We encourage active participation and engagement in discussions and deliberations, fostering an environment conducive to the exchange of innovative ideas.

We are confident that the conference will serve as a platform for interdisciplinary collaboration, bringing together individuals from similar fields to share their experiences and work on joint projects. The success of IEEE ESCI 2024 relies on the collective enthusiasm and contributions of all participants.

Message from General Chairs

Dr. P. B. Mane
General Chair
IEEE ICESCI-2024,
Pune

Dr. Vivek Deshpande
General Chair
IEEE ICESCI-2024
Pune

We extend a warm welcome to all invitees, delegates, academia, industry professionals, and exhibitors from around the world for 6th IEEE International Conference on Emerging Smart Computing & Informatics (IEEE ESCI 2024) will be held from March 05–07, 2024, at AISSMS's Institute of Information Technology, Pune, IEEE Pune Section, and IEEE Signal Processing Chapter, Pune. Through the tremendous efforts of the entire organizing team, this magnificent event has been made available to the academic community. We would like to sincerely thank each and every one of them for their outstanding work.

Research scholars, academic technocrats and industry specialists have all been able to interact, share, and discuss their original research ideas and contributions in this conference. The discussions, brainstorming sessions, and deliberations shed light on the potential benefits, drawbacks, and worries associated with the expanding fields of informatics and smart computing.

We would like to thank the reviewers as well as the entire IEEE-ESCI 2024 team. Without the active involvement, efforts, and support of every stakeholder, a large-scale conference would not be feasible. Last but not least, we would like to thank all of the invited experts, authors and dignitaries for their time and knowledge. For enabling us to host such a successful conference, we are extremely grateful to the IEEE and the AISSM Society.

Message from Technical Program Chair

Dr. Meenakshi Thalor
Technical Program Chair
IEEE ESCI-2024

On behalf of the Technical Programme Chair Committee, we thank you for participating in the IEEE International Conference on Emerging Smart Computing and Informatics (ESCI-2024).

ESCI-2024 brings together researchers, academics, industry experts, and education leaders from all over the world to discuss an incredibly wide array of topics including Smart Computing, Artificial Intelligence, Image Processing, Internet of Things (IoT), Industry 4.0, Smart Services, Communication Networks and many more.

The Technical Program of IEEE ESCI-2024 consists of 03-tracks and 14 special sessions, featuring emerging areas of applications. The conference also features with 6 Pre conference tutorials on recent topics like, “Latest trends and Real-world applications of IoT and IoT Security”, “NLP and GenAI”, “Machine Learning’s Role in Revolutionizing the IT Landscape: Applications and Future Prospects”, “Emerging Systems as AI Data Source, “Revolutionizing Electrical Engineering with AI and Machine Learning and Exploring the Potential of Gen AI”, “Industrial valves and new technology innovations”. During the conference 3 keynotes session related to emerging and smart computing field are conducted by distinguished speakers.

We received a total of 1457 paper submissions for the conference, out of which 326 papers have been accepted and 192 papers have been registered for presentation and publication in the conference proceedings, yielding an acceptance rate of 22.37%. The submitting authors originate from various countries from all parts of the world. Every paper went through a rigorous review process, and at the end quality research work is promoted through this conference.

We express our sincere thanks to Organization Committee, Advisory Committee, Track Chairs, Registration Committee, Publication Chairs , Program Chairs, and Paper Reviewers for their valuable work in shaping the Technical Program.

Enjoy conference with your friends and colleagues as well as impromptu discussions with locals!

Chief Guest

Dr. Deepak Dhar
Distinguished Professor Emeritus and
NASI-Senior
Scientist, 2023 Padma
Vibhushan Awardee

Prof. Deepak Dhar (born 1951) obtained his B.Sc (1970) and M.Sc (1972) degrees in Physics from Indian Inst. of Tech., Kanpur and did his Ph.D (1978) in Physics at California Inst. of Tech., Pasadena. He was conferred many honors and awards like E. P. Anthony Fellow, R. P. Feynman Fellow, I.N.S.A. Young Scientist Award in 1983, S. S. Bhatnagar award in Physical Sciences in 1991, J.R. Schrieffer Prize in Condensed Matter Physics in 1993, S. N. Bose medal of I.N.S.A. (2001), Third World Academy of Science Prize in Physics (2002), J. C. Bose Fellowship of Dept. Sci. Tech. (India) (2007-2017), Boltzmann medal of IUPAP (2022), Distinguished Alumnus Award of I.I.T.K., 2022, R. D. Birla Memorial award of the Indian Physics Association, 2022,

Prof Deepak Dhar is a Fellow of the Indian National Science Academy, New Delhi; National Acad. of Sciences, Allahabad; Indian Acad. of Sciences, Bangalore; The World Academy of Sciences, Trieste, Honorary Fellow of T.I.F.R.

In recognition of his noteworthy contributions, Prof Deepak Dhar was conferred the prestigious Padma Bhushan award by Government of India in 2023. Awards received by him in recent time include: Meghnad Saha Centenary Medal by the University of Allahabad, 2023, Ph.D. Honoris Causa by the University of Allahabad, 2023, Champions of Change Maharashtra, Second Edition (2023).

He was also the advisor Editor, Physica A till 2004 and as Member of Editorial Boards of J. of Stat. Phys. His contributions to the field of education include: IUPAP Commission on Statistical Physics (1992-95); Dean of Graduate Studies at TIFR (2010-14); Member, Council of Indian Academy of Sciences, Bengaluru (2015-2018). He was also deputed as Convener of the CSIR-UGC NET examination in Physics (2016-2019) and rendered his service as Member, Sectional Committee of INSA for Physical Sciences (2020-22).

He is presently rendering his service as the Distinguished Emeritus Professor, Department of Physics, Indian Institute of Science Education and Research, Dr. Homi Bhabha Road, Pashan, Pune.

Keynote Speaker

Dr. Aziz Nanthaamornphong Associate Professor, Dean, College of Computing, Thailand

Bio - Aziz Nanthaamornphong is an Associate Professor and serves as the Dean at the College of Computing at Prince of Songkla University's Phuket campus in Thailand. He earned his Ph.D. degree from the University of Alabama, USA. With an extensive academic background, Dr. Nanthaamornphong specializes in empirical software engineering and data science, among other areas. His research significantly contributes to the development of scientific software and leverages data science in the field of tourism. In addition to his core focus, he is also deeply engaged in the study of human-computer interaction, pioneering innovative approaches to foster a beneficial interplay between humans and technology.

Ekkarat Boonchieng
Ph.D (IEEE Senior member) Director, Center of Excellence in Community Health Informatics Deputy Dean of Graduate School, Chiang Mai University

Bio- Ekkarat Boonchieng (Senior member, IEEE) received the B.S. degree in computer science with Khon Kaen University, the M.S. degree in computer science with University of New Haven and the Ph.D. degree in computer science with Illinois Institute of Technology. Now, he is an Associate Professor with Chiang Mai University of computer science, Director of Center of Excellence in Community Health Informatics and Deputy Dean of Graduate School, Chiang Mai University. His current research interests include image processing, IOT, data science and biomedical engineering.

Dr. Fathe Jeribi Associate Professor, Vice Dean for Academic Affairs, College of Computer Science and Information Technology, Jazan University, Saudi Arabia

Bio: Dr. Fathe Jeribi is a Editorial Board Member at the Saudi Journal of Applied Sciences and Technology, Member at Engineering and Technology Research Center, Jazan University, Saudi Arabia. He is also Member at the Standing Committee of Scholarship and Training, Jazan University, Saudi Arabia, Member at Saudi Scientific Society for Information Technology, IBM Data Science Certified Instructor and reviewer at many ISI journals and conferences.

Keynote Speaker

Dr. Sriparna Saha

Associate Professor,
Department of Computer Science and Engineering,
Indian Institute of Technology Patna, India

Bio - Dr. Sriparna Saha is currently serving as an Associate Professor in the Department of Computer Science and Engineering, Indian Institute of Technology Patna, India. She has authored or co-authored more than 400 papers. Her current research interests include machine learning, deep learning, natural language processing, multi objective optimization, and biomedical information extraction. Her h-index is 40 and the total citation count of her papers is 8375 (according to Google Scholar). She is also a senior member of IEEE and a fellow of IETE. She is the recipient of the Lt Rashi Roy Memorial Gold Medal from the Indian Statistical Institute for outstanding performance in MTech (computer science), Google India Women in Engineering Award, 2008, Pattern Recognition Letters Editor Awards 2023, NASI YOUNG SCIENTIST PLATINUM JUBILEE AWARD 2016, BIRD Award 2016, IEI Young Engineers' Award 2016, SERB

WOMEN IN EXCELLENCE AWARD 2018, SERB Early Career Research Award 2018, Humboldt Research Fellowship, Indo-U.S. Fellowship for Women in STEMM (WISTEMM) Women Overseas Fellowship program 2018 and CNRS fellowship. She has visited the University of Heidelberg, Germany, University of Trento, Italy, University of Caen, France, University of Mainz, Germany, University of Kyoto, Japan, Queens' University, UK, University of California San Diego, USA, Monash University, Malaysia campus; King Mongkut's Institute of Technology, Thailand, as a visiting scientist. She won the best paper awards in ICONIP 2023, CLINICAL-NLP workshop of COLING 2016, IEEE-INDICON 2015, ICACCI 2012, Area Chair Award (Information Extraction Track) in IJCNLP-AAACL 2023. She is currently also serving as the Associate Editor of IEEE/ ACM Transactions on Computational Biology and Bioinformatics, IEEE Transactions on Computational Social Systems, IEEE Transactions on AI, ACM Transactions on Asian and Low-Resource Language Information Processing, Expert Systems with Applications, IEEE Internet Computing, Engineering Applications of Artificial Intelligence, Neurocomputing.

Keynote Speech Topic: Multimodal Information Processing: Some recent NLP applications

Abstract: Multimodal information processing deals with the efficient usage of information available in different modalities such as audio, video, text, etc. for solving various task applications of real life. This talk will discuss how the multimodal information extracted from different modalities can help in improving different tasks of dialogue systems, summarization, hate speech detection, and complaint mining. Multimodal information collected from audio tones, facial expressions, and texts is utilized for determining the type of utterance in a multitask setting where emotion recognition and dialogue act classification tasks are solved simultaneously. Multimodal information collected from videos, images, and texts can also be utilized for generating a summary. Images and texts collected from Amazon reviews are utilized for developing some aspect-based multimodal complaint detection systems in a multi-task setting where sentiment and emotional information are utilized as auxiliary tasks. Memes collected from social media are utilized for the detection of hate speech in a multitasking setting where sentiment, emotion, and sarcasm detection are utilized as auxiliary tasks. This talk will highlight the different applications of multimodal information processing in solving different NLP tasks.

International Partnership Committee Chair

Dr. Y. P. Patil
AISSMS IOIT, Pune

Conference Relation Chair

Mr. Prashant Wakhare
AISSMS IOIT, Pune

Website Chair

Mr. G. J. Navale AISSMS IOIT, Pune	Ms. Reshma Owhal AISSMS IOIT, Pune
--	--

MEDIA Chair

Mrs. Neha Patil
AISSMS IOIT, Pune

Conference Committee

Sponsorship Chair

Dr. Mrunal Pathak
AISSMS IOIT, Pune

Mr. V. N. Ghodake
AISSMS IOIT, Pune

Virtual Session Chair

Mr. Pritesh Patil
AISSMS IOIT, Pune

Venue Committee

Dr. Pramod Musrif
AISSMS IOIT, Pune

S. V. Arlikar
AISSMS IOIT, Pune

P. B. Shinde
AISSMS IOIT, Pune

Mr. M. B. Nigade
AISSMS IOIT, Pune

Mr. A. H. Raheja
AISSMS IOIT, Pune

Dr. D. S. Morey
AISSMS IOIT, Pune

Mr. Pankaj Gaur
AISSMS IOIT, Pune

Mr. Ramakant Tope
AISSMS IOIT, Pune

Mr. S. S. Gadadhe
AISSMS IOIT, Pune

Mr. N. P. Bhone
AISSMS IOIT, Pune

Ms. G. N. Mawale
AISSMS IOIT, Pune

Ms. S. S. Raskar
AISSMS IOIT, Pune

Food Committee

Mr. P. S. Sadaphule
AISSMS IOIT, Pune

Mr. Milind Gajare
AISSMS IOIT, Pune

Organizing Committee

Dr. S. S. Nikam

Mrs. Jayashree Pasalkar

Mrs. Archana Randive

Mrs. V. K. Patil

Mr. G. H. Wani

Mr. Sagar Jagtap

Mrs. M. A. Zope

Mrs. M. P. Nerkar

Ms. Veena Bhende

Mr. S. R. Pawar

Mr. Sagar Pokharkar

ESCI 2024 Programme Schedule

Pre Conference Tutorial Session Date : 4 th March 2024, Monday	
<p>Topic: Latest trends and real-world applications of IoT and IoT Security</p> <p>Resource Person : Sudhir Madhukar Gorade , Chief Growth Officer, Sumago Infotech Pvt. Ltd.,Pune</p> <p>Department: Information Technology</p> <p>Room No: 605 Time:10.00 am to 12 noon</p> <p>Coordinator: Dr R. Y. Totare</p>	<p>Topic: “NLP and GenAI”</p> <p>Resource Person Adish Apte, Associate Vice President Canvas-Global Technology Office (GTO),Pune</p> <p>Department AI & DS</p> <p>Room No Multipurpose Hall Time :10 am to 12 noon</p> <p>Coordinator Ms. Swati Kadu</p>
<p>Topic: “Machine Learning’s Role in Revolutionizing the IT Landscape: Applications and Future Prospects”</p> <p>Resource Person Shailaja Bhadgaonkar, Assistant Vice President, Deutsche Bank, Pune</p> <p>Department: Computer Engineering</p> <p>Room 505 Time- 10 am to 12 noon</p> <p>Coordinator Ms. Shilpa Pimpalkar</p>	<p>Topic: “Revolutionizing Electrical Engineering with AI and Machine Learning and Exploring the Potential of Gen AI”</p> <p>Resource Person Mr. Gajanan Bejgamwar Manager Supply Chain Analytics &Optimization-TCS, Pune</p> <p>Department: Electrical Engineering Room 210 Time- 10 am to 12 noon Coordinator Ms. Saba Shaikh</p>
<p>Topic: “Industrial valves and new technology innovations”</p> <p>Resource Person Mr. Satish Pathak ,Founder, Executive Director, Samiep Technology Innovations Pvt. Ltd, Pune</p> <p>Department: Instrumentation</p> <p>Room 704 Time- 10 to 12 noon</p> <p>Coordinator Dr Vandana Kale</p>	<p>Topic: “Engineering Systems as Data Source”</p> <p>Resource Person Mr Kishor Ramdas Ingale, Asst. Gen Manager, Pune</p> <p>Department: E&TC</p> <p>Room 305 Time- 10 to 12 noon</p> <p>Coordinator :Mr. Venkat Ghodke</p>

ESCI 2024 Programme Schedule

DAY - 1 : 5th March 2024, Tuesday

INAUGURAL FUNCTION

Chief Guest: Dr. Deepak Dhar

Padma Bhushan Awardee (2023), Distinguished Professor Emeritus at Indian Institute of Science Education and Research (IISER), Pune

Guest of Honor: Shri Nilesh M. Desai,

Distinguished Scientist, Director of Space Applications Centre (SAC), Ahmedabad, a lead centre of Indian Space Research Organisation (ISRO)

Link: <http://tinyurl.com/ESCI-2024-Day-1-Inaugural>

Time: 11.00 AM TO 12.00 PM (IST)

Keynote Talk-01 | Time :12.00PM-1.00PM(IST)

Speaker :Dr. Aziz Nanthaamornphong,

Associate Professor, Dean at the College of Computing, Prince of Songkla University's Phuket campus, Thailand.

Topic : Exploring 5G, AI, and IoT in Smart Hospitals

Venue : Multipurpose Hall (2nd floor)

Coordinator : Mrs. S. M. Shaikh M: +919881667867

LUNCH BREAK 1.00 PM-2.00PM (IST)

Keynote Talk-02 | Time:2.00PM-

3.00PM(IST) Speaker: Dr. Ekkarat Boonchieng (IEEE Senior member),

Director, Center of Excellence in Community Health Informatics Deputy Dean of Graduate School, Chiang Mai University, Thailand

Topic: Combining Several Classification Models with Outlier Identification to Classify Diseases in Imbalanced Datasets

Venue : Multipurpose Hall (2nd floor)

Coordinator : Mrs. S. M. Shaikh M: +919881667867

Expert Talk-1 | Time:3.00PM-5.00PM(IST)

Speaker: Mr. Dhanu Pattanashetti,

Senior Client Services Manager IEEE, Bangalore, India

Topic : IEEE Authorship

Room No : 407 (4th floor)

Coordinator : Dr. Shobha Nikarm (9860709687)

ESCI 2024 Programme Schedule

Technical Oral Presentation Session 1: Smart Computing

Session Coordinator: Dr. Sarika Nitin Zaware (9822777903)

Mr. Rahul Namdeo Jadhav (9960622886)

External Session chair: Dr. Ravneet Kaur (7508312011)

Link : <http://tinyurl.com/Day-1-Session-1-SC>

| Time : 3.00 PM TO 5.00 PM

Sr. No.	Paper ID	Title
1.	796	A Machine Learning Enabled Approach for Mental and Physical Health Management Using OpenCV, NLP and IOT
2.	1183	Advancements in Power System Stability: FOPID Control Optimization Using Harris Hawk Algorithms in SMIB Systems
3.	1359	Deep Reinforcement Learning in Stock Trading: Evaluating DDPG and DQN Strategies
4.	1337	Data-Driven Decisions: A Machine Learning Perspective on Loan Authorization
5.	691	A Novel Approach for Congestion and Interference Management through Channel Assignment Optimization in Wireless Networks
6.	1039	Automated Detection of Dysgraphia Symptoms In Primary and Middle School Children

Technical Oral Presentation session 2 : Image & Signal Processing

Session Coordinator: Dr.Kishor Sadashiv Wagh (9890949655)

Ms. Dipali Mahendra Yewale

(9960730911) External Session chair:Dr. Shailesh Hambarde (9730475715)

Link : <http://tinyurl.com/Day-1-Session-2-ISP>

Time : 3.00 PM TO 5.00 PM

Sr. No.	Paper ID	Title
1.	877	Mask Attention-Based Vision Transformer (MA-ViT) for PCB Defect Detection
2.	1132	Hash Based Secure and Efficient Scaling Approach for Detecting the Diabetic Retinopathy Disorder
3.	928	Efficient Feature Extraction and Segmentation Methods used in Tuberculosis Detection
4.	1239	Towards the Development of an Automated Pipeline for Cilia Detection
5.	687	Neuro-Cognitive Pattern Recognition: Advancements in Memory-Related Disorders Identification
6.	675	Localization of Dengue Virus Likelihood Using Image Processing Technique

ESCI 2024 Programme Schedule

Technical Oral Presentation Session 3: Smart Computing

Session Coordinator: Dr.Chetan Nimba Aher(9503443501) Ms. Mamta Sanjay Koban (Wanjre
(9921353812) External Session chair :Ranjeet Vasant Bidwe (9766332822)
Link : <http://tinyurl.com/Day-1-Session-3-SC>
Time : 3.00 PM TO 5.00 PM

Sr. No.	Paper ID	Title
1.	1147	A Meta-Learner-Integrated Stacking Voting Ensemble Network for Cervical Malignancy Classification
2.	1233	Enhancing Stock Price Prediction with MACD and EMA Features Using LSTM Algorithm
3.	1269	Blockchain Revolution: A New Horizon for Supply Chain Management in Hotel Industry
4.	943	Performance Analysis of Velostat, Conductive Fabric and Force Sensing Resistor for Incorporating Safety in Women's Jacket
5.	1068	A Deep Residual Neural Network for Potato and Pepper Leaf Disease Detection
6.	1023	Applying Transformer-Based Neural Networks to Corpus Linguistic Data for Predictive Text Generation in Multilingual Environments

Technical Oral Presentation Session 4 : Internet of Things

Session Coordinator: Dr.Rakesh Bapu Dhumale(9763463366) Ms.Shradha Bhanudasrao Toney(9730408533)
External Session chair: Dr. Sheetal Kulkarni (9850831737)
Link: <http://tinyurl.com/Day-1-Session-4-IOT>
Time : 3.00 AM to5:00PM

Sr. No.	Paper ID	Title
1.	1346	LoRa-Based Wireless Sensor Network Testbed for Precision Agriculture Application
2.	1203	Prediction of Human Emotions based on Speech Recognition System
3.	1246	Analyzing the Impact of Fuzzy Logic on Service Composition in Smart Agriculture
4.	1014	Soil-Borne Pathogens Management in Cloud-Connected Agriculture: An IoT and Decision Tree Algorithmic Approach
5.	1131	Modelling and Simulation-based Design Approach to Assisted and Automated Driving System Development
6.	1146	CNN and ANN Based Tool Condition Monitoring in Gear Machining Using Audio and Vibration Signals Via Cost Effective Sensors

ESCI 2024 Programme Schedule

Technical Oral Presentation Session 5 : Internet of Things

Session Coordinator: Dr.Mayura Vishal Shelke (7722039352) Ms. Rajshri Nagnath Malage (7020029723)

External Session chair:Dr. Vani Hiremani (9545881166)

Link: <http://tinyurl.com/Day-1-Session-5-IOT>

Time : 3.00 AM to5:00PM

Sr. No.	Paper ID	Title
1.	865	AI LipReader-Transcribing Speech from Lip Movements
2.	611	With You - Indian Sign Language Detection and Alert System
3.	399	Distributed MQTT Broker: A Load-Balanced Redis-based Architecture
4.	684	Game Theory-Based Fastest Route Plan Method for Transportation Network Applications
5.	821	Adaptable System for Protecting Inhabitants
6.	867	Water Resource Optimization By Using A Hyper Parameter Tuned Lstm Of A Smart Agriculture

Technical Oral Presentation Session 6 : Image & Signal Processing

Session Coordinator: Dr. Meenakshi Anurag Thalor(9923602929) Mr.Satish Dnyaneshwarrao Kale(8007756043)

External Session chair Dr. Yogini Borole (9689925823)

Link: <http://tinyurl.com/Day-1-Session-6-ISP>

Time : 3.00 AM to5:00PM

Sr. No.	Paper ID	Title
1.	620	VGG16-PotatoGuard: A Deep Learning Approach to Detecting Leaf Diseases in Potatoess
2.	534	Deep transfer Learning Based Diagnosis of Multiple Neurodegenerative Disorders
3.	535	Multi-Modal Visual Features Perception Technology for Internet of Vehicles (IoV)
4.	576	Bidirectional Sign Language Assistant with MediaPipe Integration
5.	424	Number Plate Recognition using OpenCV
6.	578	Recognition of Critical Built-up Areas Located on High Hill-slope Regions using Spatial Data Mining Technique

ESCI 2024 Programme Schedule

Technical Oral Presentation Session 7 : Image & Signal Processing

Session Coordinator: Dr. Dnyandeo Krishna Shedge(9850122194) Ms. Pradnya Dattatraya Bormane(9763722263)

External Session chair:Dr. Rahul Pol

(9657799066) Link : [http://tinyurl.com/Day-1-](http://tinyurl.com/Day-1-Session-7-ISP)

Session-7-ISP Time : 3.00 AM to5:00PM

Sr. No.	Paper ID	Title
1.	463	A Video Steganography approach with randomization algorithm using image and audio steganography
2.	473	Human Pose Estimation Techniques for Yoga and Kavayat(drill): A Yardstick Analysis
3.	557	Smart Survival Lance System for visually impaired person
4.	449	Image Enhancement Using Tri-histogram Equalization Technique
5.	403	MDLGO: Integrated Multimodal Deep Learning Framework for Enhanced Precision in Glaucoma Diagnosis Using OCT A-scans
6.	231	A Comparative Study On Emotion Analysis Using Transfer Learning

DAY -2 : 6th March 2024, Wednesday

Technical Oral Presentation Session 8: Image & Signal Processing

Session Coordinator: Dr.Veena Suhas Bhende(9970974045) Mr.Vikas Janardan Desai(9421676837)

External Session chair: Dr. Sarika Patil (9552554857)

Link : <http://tinyurl.com/Day-2-Session-8-ISP>

Time: 10.00 AM to 12.00 PM (IST)

Sr. No.	Paper ID	Title
1.	379	Wildfire smoke detection using deep learning
2.	1343	True Feature Distillation For Compression of Gans
3.	1188	Accurate Semantic Segmentation of Aerial Imagery Using Attention U-Net Architecture
4.	1165	Optimisation Of Anomaly Detection In Video Processing Using Efficient Feature Engineering
5.	1182	Partitions of Liver Cancer by Enhanced Feature Extraction and Mapping with Improved Transfer Developing Methods
6.	1099	Synergizing SVM Classifier with Hybrid CNN Architecture for Handwritten Recognition

ESCI 2024 Programme Schedule

Technical Oral Presentation Session 9: Smart Computing (offline)

Session Coordinator: Dr.Pritam Santosh Saha (9209217431) Ms.Jayashree Chandrakant Pasalkar (8408856344)

External Session chair:Dr. Shashank Joshi ()

Room No 111 Time: 10.00 AM to 12.00 PM (IST)

Sr. No.	Paper ID	Title
1.	1187	Efficiency comparison of dataset generated by LLMs using Machine Learning Algorithms
2.	1279	Revolutionizing Medical Diagnosis with Novel Teaching-Learning-Based Optimization
3.	1266	Minutes of Meetings Generation for online meets Using NLP & ML Techniques
4.	1201	Facial Video Analytics : An Intelligent Approach to Heart Rate Estimation using AI Framework
5.	1054	FashionVLM - Fashion Captioning using Pretrained Vision Transformer and Large Language Model
6.	205	ICode - An unified competitive coding profile platform

Technical Oral Presentation Session 10: Smart Computing (offline)

Session Coordinator: Dr.Dilip Shravan Shelar(9829937046)

Mr.Girish Jaysing Navale(7758990466)

External Session chair: Dr. Kalyan Bamane (9822116453)

Room No 117 Time: 10.00 AM to 12.00 PM (IST)

Sr. No.	Paper ID	Title
1.	1352	Advancing Manufacturing Energy Efficiency: The Role of AI and Web-Based Tools
2.	488	Human Disease Prediction Using Machine Learning
3.	409	Fake Review Detector
4.	312	ANN Based Approach for Electricity Theft Detection in Single Phase Energy Meters
5.	155	Sky strokes:Bridging Artistic Expression And Communication Barriers Through Aerial Digital Canvas
6.	149	Decentralized Storage Security A Blockchain-Driven Solution

ESCI 2024 Programme Schedule

Technical Oral Presentation Session 11: Smart Computing

Session Coordinator: Dr.Amrapali Shivaji Chavan (9822795994) Ms.Supriya Vikas Lohar (9420132597)

External Session chair:Dr S K Hiremath (9765069841)

Link: <http://tinyurl.com/Day-2-Session-11-SC>

Time: 10.00 AM to 12.00 PM (IST)

Sr. No.	Paper ID	Title
1.	480	An innovative way to increase the speed and efficiency of reverse mapping of Elliptic Curve Points
2.	705	CTC-CNN-Bidirectional LSTM based Lip Reading System
3.	827	CDBO_DenseNet: CAViaR Dung Beetle optimization enabled deep learning for Diabetic retinopathy classification
4.	722	Machine Learning based water requirement prediction for agriculture before a rainfall
5.	631	An Investigation on the Level of Customer Satisfaction with E-Banking Services with a special focus
6.	848	A Novel Natural Language Processing Based Model for Plagiarism Detection

Technical Oral Presentation Session 12 : Internet of Things

Session Coordinator: Dr. Sarika Amitraj Panwar (9923318187) Mr.Prashant Shivling Sadaphule
(7588684770) External Session Coordinator :Dr.Navaneth Bhaskar (9847022011) , Nirmal K ()

Link : <http://tinyurl.com/Day-2-Session-12-IOT>

Time: 10.00 AM to 12.00 PM (IST)

Sr. No.	Paper ID	Title
1.	900	A Paradigm Shift in Ethereum Network Analysis through Google BigQuery, Portation, and Visualization
2.	1340	Safe and secure communication using SSL/TLS
3.	1224	Agrobot for Inter-row and Intra-row Weeding
4.	970	Classification Of Malware Families Using Transformers And Auto Formers In Deep Learning
5.	1071	Graph based analysis technique for identification of key functionalities in malicious IoT binaries

ESCI 2024 Programme Schedule

Technical Oral Presentation Session 13 : Internet of Things

Session Coordinator: Dr. Shagufta Mohammad Sayeed Sheikh (9689993993) Ms. Archana Ganesh
 Said(9767747898) External Session chair: Dr. Milind Bongulawar (9370322479)
 Link : <http://tinyurl.com/Day-2-Session-13-IOT>
 Time: 10.00 AM to 12.00 PM (IST)

Sr. No.	Paper ID	Title
1.	1336	Aqua Watch: A Nitrate Sensor with Color Intelligence
2.	873	Development of Code-Mixed Marathi-English Dataset for Hate Speech Detection
3.	1286	UAV Assisted Next Generation Wireless Communication Network
4.	1006	Smart Agriculture System Using Internet of Things (IoT) and Machine Learning
5.	482	A Study of Weed Management in Agricultural Plants using IoT and Machine Learning
6.	1275	Adaptive DoS Attack Detection in SDN

Technical Oral Presentation Session 14 : Smart Computing

Session Coordinator: Dr. Riyazahmed Abdulgani Jamadar (9823289109) Ms. Anuradha Shivajirao Varal (9561609068)
 External Session chair: Dr. Deepali Gore (9822532954)
 Link : <http://tinyurl.com/Day-2-Session-14-SC>
 Time: 10.00 AM to 12.00 PM (IST)

Sr. No.	Paper ID	Title
1.	629	Ingenious Waste Management: Implementing Machine Learning in Waste Segregation
2.	671	Machine Learning Based IPL Fantasy Cricket Dream11 Best Team Prediction
3.	972	Advancements in Quantum Error Mitigation Strategies for Reliable Quantum Computing on IBM Simulators
4.	519	AI-Powered Automated Wheelchair based on Lane Detection with Gesture, Voice, and Face Recognition
5.	676	Role of Non Fungible Tokens in Transforming Academic Credentials for Trust and Transparency
6.	516	Evolution of methodologies and comparative analysis of different development paradigms

ESCI 2024 Programme Schedule

Technical Oral Presentation Session 15: Smart Computing

Session Coordinator: Dr. Manisha Rakesh Raghuvanshi (8989872278) Ms. Punashri Mahadev Patil(7387838462)

External Session chair: Dr. Ram Joshi

(9921945347) Link: [http://tinyurl.com/Day-2-](http://tinyurl.com/Day-2-Session-15-SC)

Session-15-SC Time: 10.00 AM to 12.00 PM
(IST)

Sr. No.	Paper ID	Title
1.	500	Unmasking Disinformation: Detection of Fake News Online using Learning Techniques
2.	268	Long Short-Term Memory-Based Next Keyword Prediction
3.	551	AI-Optimized Eco-Charge Regeneration Technology in EV
4.	384	Utilizing Bayesian Networks to Augment Decision-Making for Dengue Outbreak Response in Public Health Systems
5.	361	Comprehensive Exploration of the Role of Graph Databases like Neo4j in Cyber Security
6.	305	Analysis of Hyper-Threading using on die Performance Monitoring Counters

Technical Oral Presentation Session 16 : Special session

Session Coordinator: Dr. Mohini Pramod Sardey(9881409100) Ms. Poonam Swapnil Jadhav(8888148293)

External Session chair: Dr. P. A. Harshavardhini (9000376651)

Link: <http://tinyurl.com/Day-2-Session-16-SPS>

Time: 10.00 AM to 12.00 PM (IST)

Sr. No.	Paper ID	Title
1.	PA_05	Power Efficient High Gain/CMRR and Low Noise ElectroOculogram For Human-Computer Interaction
2.	PA_08	Transformative Advancements: Sign Language Conversion to Text and Speech
3.	PA_09	Ultra-Low Energy Consumed GDIBased Hamming Code High Speed Signal Processing Communication System
4.	PA_11	Kernel Based FCM for Spinal Cord Segmentation on Computed Tomography Images
5.	PA_25	Analysis of Carrier to Noise Density Ratio, Satellite Visibility and Skyplot of Multiple GNSS
6.	PA-18	A Novel Probabilistic Access Scheme for NB-IOT in 5G Network
7.	PA_32	Gender Identification From The Shortest Telugu Speech Using Hybrid And Optimised Spectral Features By Applying Machine Learning Models

ESCI 2024 Programme Schedule

Keynote Talk -3 Time:12.00PM – 1.00PM(IST)		
Speaker: Dr. Jazal Ujjwal, Associate Professor, Vice Dean for Academic Affairs, College of Computer Science and Information Technology, Jazal University, Assam, India Topic: “The AI Revolution: Keynote Insights on Machine Learning and Beyond” Link: http://tinyurl.com/ESCI-2024-Day-2-Keynote-03 Coordinator: Mrs. S. M. Shaikh M: +919881667867		
LUNCH BREAK 1.00 PM-2.00PM		
Keynote Talk -4 Time:2.00 PM – 3.00 PM		
(IST) Speaker: Dr. Sriparna Saha, Associate Professor at IIT Patna, India. Topic: Multimodal Information Processing: Recent NLP applications Link: http://tinyurl.com/ESCI-2024-Day-2-Keynote-04 Coordinator: Mrs. S. M. Shaikh M: +919881667867		
Technical Oral Presentation Session 17: Smart Computing		
Session Coordinator: Dr.Mrunal Kishor Phathak(9421705871) Mrs. Farhana Sarvar Fatima Kazi Sayed(9158985458) External Session chair: Snehal Rathi (9890969897) Link : http://tinyurl.com/Day-2-Session-17-SC Time : 3pm to 5pm		
Sr. No.	Paper ID	Title
1.	923	Utilizing Deep Belief Networks for Consumer Behavior Analysis in Retail Management
2.	321	Prediction of Diabetes Mellitus Disease using Supervised Machine Learning Models
3.	1349	A Xgboost Optimized Ensemble Model For Remaining Useful Life Prediction Of Aircraft Turbofan Engines
4.	912	Advancements in Healthcare: Predictive Modeling for Early Disease Diagnosis and Patient Record Management
5.	1353	Envisioning India’s Energy Future: Predictive Models For Power Generation Trends
6.	1354	Crop Yield Forecasting For A Resilient Food System The Role Of Ai And Green Principles

ESCI 2024 Programme Schedule

Technical Oral Presentation Session 18: Internet of Things

Session Coordinator: Dr.Nilima Satish Warade(9960257810)

Ms. Neha Sangram Patil (9561508345)

External Session chair:Dr. Vaishali Upadhye(9975152759)

Link : <http://tinyurl.com/Day-2-Session-18-IOT>

| Time : 3pm to 5pm

Sr. No.	Paper ID	Title
1.	858	Vision-Based Humanoid Robotic Palm For Amputee Person Using Deep Learning
2.	916	Enhancement of Network Security in MANET using Refined Adaptive Harris Hawks Optimization Algorithm
3.	915	Sign Language to Text Translation Using Convolutional Neural Network
4.	756	Optimized multiplier in nanosheet technology with Vedic approach
5.	1278	Smart Energy Power Consumption
6.	98	Intelligent override adaptive traffic signal controller

Technical Oral Presentation Session 19: Internet of Things

Session Coordinator: Dr.Nidhi Sharma (9168351100)

Ms.Anuja Sandeep Phapale(9730299992)

External Session chairDr. Santosh Rajgade (9762636286)

Link: <http://tinyurl.com/Day-2-Session-19-IOT>

Time : 3pm to 5pm

Sr. No.	Paper ID	Title
1.	587	Efficacy of an Augmented Reality Application for Enhanced learning of 3D Geometric Shapes
2.	528	Machine Learning Based Crop Recommendation Model in Precision Agriculture
3.	389	IoT based Real Time Drainage Monitoring System
4.	452	Firefly-Driven Feature Selection for Enhanced DDoS Detection in IoT Networks
5.	348	Stability and Control of RT-VCM employed for Moving Mirror Control in FTIR Spectroscopy using FOPID Controller
6.	174	Safe Count: A Two Step Verification Based Voting System

ESCI 2024 Programme Schedule

Technical Oral Presentation Session 20: Image & Signal Processing(offline)

Session Coordinator: Mrs.Minal Prashant Nerkar (9850173169) Ms. Archana Amol Randive (9850830634)
 Ms.Swati Dattatray Kadu (9561586490)
 External Session chair:Dr. Megha Wankhade(9975293034)
 Room No 111 | Time : 3pm to 5pm

Sr. No.	Paper ID	Title
1.	1363	Flood Susceptibility Mapping and Accuracy Assesment of a River Floodplain using Bivariate Statistical Methods and AHP Approach
2.	1015	Early Disease Detection in Wildlife by Analysing Behavior and Weather Conditions Using Image Processing and Deep Learning
3.	1198	Real-Time Injury Risk Assessment in Athletes based on Relative Joint Angles
4.	1200	Unusual Human Behavior Analysis Using the Deep Learning
5.	398	Camera and LiDAR Integration for Lane-Following and Obstacle Avoidance in Self-Driving Cars
6.	447	Deep Learning Based Foreign Object Debris (FOD) Detection on Runway
7.	116	Quantum Inspired Image Classification: A Hybrid SVM Framework
8.	ST_03	Feature Extraction of Unprinted Fabric for defect detection using Gabor Filter, HOG and SVM
9.	ST_04	Boosting Wavelet-Based Image Fusion using Equal Weighted Average of DSIHE and CLAHE

Technical Oral Presentation session 21: Image & Signal Processing

Session Coordinator: Dr.Vineeta Philip(7620086020) Ms. Sayali Aditya Belhe (9766937515)
 External Session chair: Dr. Varsha Harpale(9226772743)
 Link : <http://tinyurl.com/Day-2-Session-21-ISP>
 I Time : 3pm to 5pm

Sr. No.	Paper ID	Title
1.	1196	Face Recognition Based On Fusion Feature Extraction Algorithms
2.	1298	Optimizing Respiratory Assessment with Advanced Photoplethysmography Techniques
3.	642	Security Camera with Frame Detection
4.	1192	Identification of Nutrient Deficiency Based on Leaf Image Data Using Machine Learning
5.	1240	Accurate Classification of Tessellated Retinal Disease with Deep Learning Model
6.	932	Ecological Surveillance and Crisis Management: Forest Fire Prediction and Species Identification

ESCI 2024 Programme Schedule

Technical Oral Presentation session 22: Special session

Session Coordinator: Dr. Yogesh Pralhadrao Patil (9421051726) Ms. Madhuri Bhagwanta Thorat (8408899553)
 External Session chair : Dr. Garima Chopra (7780982388) Dr. Suhaib Ahmed (9018807158)
 Link : <http://tinyurl.com/Day-2-Session-22-SPS>
 | Time : 3pm to 5pm

Sr. No.	Paper ID	Title
1.	GC_30	Semantic Text Representation for Improved Machine Learning in Information Retrieval
2.	GC_31	Cross-Domain Text Classification: Transfer Learning Approaches
3.	GC_35	Sentiment Analysis in Social Media: A Machine Learning Perspective
4.	GC_36	Natural Language Processing for Text Mining: Leveraging Linguistic Features for Classification
5.	GC_37	Exploring Machine Learning's Role in Intrusion Detection Systems for Network Security
6.	GC_42	Alzheimer Disease Progression Forecasting: Empowering Models through hybrid of CNN and LSTM with PSO optimization
7.	GC_50	Optimizing breast cancer prediction : a multimodal dataset approach with xgboost
8.	GC_54	Fine-Tuning ResNet50 for Land Use and Land Cover Classification in the Philippines

Day 3 Date :7th March 2024, Thursday

Technical Oral Presentation Session 23: Internet of Things (Offline)

Session Coordinator: Ms. Reshma Yogesh Totare (9860479570) Mrs. Ravina Haribhu Malshikare
 (9767229736) External Session chair: Dr. Pratap S. Vikhe (9226271070)
 Room No 117 Time: Time : 10am to 12 pm

Sr. No.	Paper ID	Title
1.	1213	IoT Image Security Using DNA Technique
2.	789	EcoSprout Machine Learning-Powered Smart Sprinkler System
3.	759	Usability - A Key to Security and Utility: Case of Core Banking System
4.	903	GIS-GNSS Integrated Cost Efficient Static Monitoring System
5.	1108	Investigation of Methods to Improve the Performance of Frequency Reconfigurable Antenna for Future Wireless Communication
6.	870	SensorNet-Cipher: A Lightweight Protocol for Security in Resource-Limited Networks
7.	50	Real-time Data Visualization for the IOT Application using Tableau Platform

ESCI 2024 Programme Schedule

Technical Oral Presentation Session 24: Image & Signal Processing

Session Coordinator: Dr. Shobha Sachin Nikam (9860709687) Ms.Prajwal Sopan Gaikwad (9762023200)

External Session chair: Dr. Monali Choudhary(9867550252)

Link : <http://tinyurl.com/Day-3-Session-24-ISP>

| Time : 10am to 12 pm

Sr. No.	Paper ID	Title
1.	672	Steganography in the Quantum Era
2.	814	Machine Learning in Agriculture: A Land Data Approach to Optimize Crop Choice with the LAGNet Model
3.	54	Exploring Hand Gesture Recognition Techniques for Enhanced Control of Bionic Hands
4.	81	Advancements in Image Caption Bots: A Deep Learning Approach
5.	335	Application of YoloV5 for Brain Tumor Detection from MRI

Technical Oral Presentation Session 25: Image & Signal Processing

Session Coordinator: Dr. Hemangi Deepak Shinde(9822956263) Ms.Sonali Bhimaji Kanawade (9881766222)

External Session chair:Dr. Rupali Patil (9820993651)

Link : [http://tinyurl.com/ESCI-24-Day-3-Session-25-](http://tinyurl.com/ESCI-24-Day-3-Session-25-ISP)

ISP Time : 10am to 12 pm

Sr. No.	Paper ID	Title
1.	249	Brain Tumor Detection Using Deep Learning(CNN)
2.	191	Enhancing Rice Leaf Disease Classification: A CNN-SVM Approach
3.	188	Precision Diagnosis of Wheat Powdery Mildew Using CNN and Random Forest
4.	125	Examine the incorporation of Integration of Imaging Data for Orthodontic Prediction
5.	138	Contactless heart rate detection using Eulerian Video Magnification
6.	109	Comparative Analysis of Machine Learning and Deep Learning Approaches for Multiclass Identification and Classification of Alzheimer's Disease

ESCI 2024 Programme Schedule

Technical Oral Presentation Session 26: Image & Signal Processing

Session Coordinator: Dr. Manisha Rakesh Raghuvanshi (8989872278) Ms. Varsha Kiran Patil (9325643275) External Session chair: Dr. Vandana Hanchate (9860059822)
 Link : <http://tinyurl.com/ESCI-2024-Day-3-Session-26-ISP>
 | Time : 10am to 12 pm

Sr. No.	Paper ID	Title
1.	193(127)	Defect Inspection of Coated CFRP Structural Based on Microwave Split Ring Resonator
2.	136	Innovative Attendance Tracking: Facial Recognition
3.	48	Criminal Recognition System
4.	89	Yoga Pose Recognition using Deep Learning
5.	20	Advanced Driver Assistance System(ADAS)
6.	99	Sign Language Gestures Recognition using CNN and Inception v3

Technical Oral Presentation Session 27 :Special Session

Session Coordinator: Dr. Pramod Ganesh Musrif(Joshi) (9552546729) Ms. Pragati Prashant Mahale (9405371647)
 External Session chair: Prof. Saikumar Tara (9849702404)
 Link : <http://tinyurl.com/ESCI-24-Day-3-Session-27-SPS>
 Time: 10.00 AM to 12.00 PM

Sr. No.	Paper ID	Title
1.	ST_06	Human Activity Recognition: Three Age Groups and Six actions
2.	ST_O2	Code-Mixed Sentiment Corpus of Customer Reviews in Malayalam and English for Enhanced Local Market Analysis in India
3.	VY_16	SipSmart: Elevating Palates with Machine Learning for Wine Quality Prediction
4.	EP12	A Circularly Polarized 2x2 Element MIMO Antenna with Dual Band for V2X Applications
5.	RC_13	Non-invasive Detection of Oral Cancer through a Microfluidic Biosensor using Salivary Interleukin-8 as a Biomarker
6.	SH_01	A Novel Approach using Feature Fusion for Android Malware Detection and Classification

ESCI 2024 Programme Schedule

Technical Oral Presentation Session 28: Internet of Things

Session Coordinator: Dr.Badri Naryan Mohapatra (8956603781) Ms. Minal Abhijeet Zope
(9970098042) External Session chair:Dr. Mukesh Ghogare (9422230089)
Link : | <http://tinyurl.com/ESCI-24-Day-3-Session-28-IOT>
Time: 10.00 AM to 12.00 PM

Sr. No.	Paper ID	Title
1.	1334	Image Encryption and Decryption Based on 3D Chaos Maps and DNA Encoding
2.	1348	Artificial Intelligence Based Deep learning Surrogate Model for Design Optimization of Microstrip Frequency Selective Surface
3.	133	Development of Energy Optimizing Meter for Web monitoring and control of Home Application
4.	147	Development of LiFi System for Communication and Control in Hilly Regions
5.	14	LPG transport tracking and leakage detection with accident prevention alert system
6.	118	Road Surface Data Acquisition and Monitoring System
7.	92	Integrated Healthcare System for Saline Monitoring, Patient Communication, and Heart Disease Prediction using IoT and Machine Learning Algorithms

Technical Oral Presentation Session 29: Smart Computing

Session Coordinator: Dr.Vandana Vishwanathrao Kale (9822623780) Ms. Bhagyashree Dagadu Lambture (8208863705)
External Session chair:Dr. Shrikant Bhopale (9834122750)
Link: <http://tinyurl.com/ESCI-2024-Day-3-Session-29-SC>
Time : 10.00 AM -12.00 PM

Sr. No.	Paper ID	Title
1.	1028	Effect of Monetary Policy on Economic Growth: An Ordinary Least Square Approach
2.	1217	SE-VGG16 MaizeNet: Maize Disease Classification Using Deep Learning and Squeeze and Excitation Attention Networks
3.	1227	Re-cognition I: An Inspection of Learner's Cognitive Well-Being, Pursuant to Contemporary Period, Facilitates the Academic Life Cycle
4.	41	Reducing Gender and Ethnicity Bias In Personality Trait Prediction
5.	38	ONU: A Reinforcement Load Balancing Approach for Resource-Aware Task Allocation in Distributed System

Technical Oral Presentation Session 30: Smart Computing

Session Coordinator: Dr. Ashapana Dilavar Shiralkar (9763793499) Ms. Reshma Rajanand Owhal (8149869323)
 External Session chair: Dr. Bhavana Kanwade (9881410288), Dr. Suhas Patil (8767600568)
 Link: <http://tinyurl.com/ESCI-2024-Day-3-Session-30-SC>
 Time : 10.00 AM -12.00 PM

Sr. No.	Paper ID	Title
1.	493	Software Defect Prediction by Logistic Regression with Gradient Descent Cost Computation
2.	350	Sentiment Analysis from Reviewer's comments from E-Commerce sites Using A Natural Language Processing
3.	239	Identification of Sign Language Alphabets on Static Images Using Deep Learning
4.	346	Enhancing Swipe Typing with Gated Linear Transformer
5.	223	Comparative Analysis of Outlier Elimination Algorithms on Pulsar Stars Dataset
6.	171	Accurate Medicine Recognition and Audio Conversion for Handwritten Prescriptions

Technical Oral Presentation Session 31 : Special Session

Session Coordinator: Dr. Shagufta Mohammad Sayeed Sheikh (9689993993) Ms. Supriya Kumar More (9158769054)
 External Session chair: Dr. Rajesh Kumar Kaushal (9888755130) and Dr. Naveen Kumar (9467377281/7009600929)
 Link : <http://tinyurl.com/ESCI-2024-Day-3-Session-31-SPS>
 Time: 10.00 AM to 12.00 PM

Sr. No.	Paper ID	Title
1.	RK_03	Convergence of Blockchain and Internet of Things Using Hyperledger Fabric
2.	Rk_07	Fraud Detection and Prevention for a Secure Financial Future Using Artificial Intelligence
3.	Rk_08	Artificial Intelligence-Based Forecasting Market Trends and Guiding Investment Decisions
4.	Rk_10	AI Personalizing Training and Reskilling Employees for the Digital Age
5.	Rk_11	Artificial Intelligence with Streamlining Payments and Lending For a Simpler Financial Ecosystem
6.	SR_07	Energy Aware IRS-Aided Wireless Network for Next-Generation IoT
7.	SH_19	Redefining Security: Unveiling the Vulnerabilities of Captcha Mechanisms using Deep Learning

LUNCH BREAK 1.00 PM-2.00PM
 VALEDICTORY 2.00 PM- 3.00PM (IST)
 Link : <http://tinyurl.com/ESCI-2024-Day-3-Valedictory>

Inauguration Function

Inauguration Of ESCI- 2024 : Lamp lightning

ESCI-2024 is the platform where academics and industry researchers present their latest algorithms, models and technologies and explore new trends and ideas on smart computing and informatics. The aim of this conference is to provide an allied platform for emerging trends in smart computing, networking, communication, signal and image processing, cyber security and IoT. The key intention is to provide an opportunity for the global participants to share their ideas and experiences in person with their peers expected to join from different parts of the world. In addition to this, the gathering will help the delegates to establish research environment as well as to find the international linkages for future collaboration in their career path. The conference focuses on various modernization and innovation paradigms that may be applied to present practical and creative solutions to diverse issues in society, industry and environment.

The three-day conference from 05th to 07th March 2024 was inaugurated by the chief guest of the program Padmashri Dr. Deepak Dhar , Distinguished Professor Emeritus and NASI-Senior Scientist, 2023 Padma Vibhushan Awardee. The challenges faced in these areas and data privacy should be addressed. Such a multi-faceted conference makes it possible.” He congratulated ‘AISSMS IOIT’ for organizing such a wonderful conference consecutively for sixth year in a row through hybrid platform and wished the best for it. President of the program, Honorable secretary AISSM Society Shri. Malojiraje Chhatrapati on behalf of AISSM Society sent a greeting message to the guests and attendees and wished the conference a grand success.

Dr.P.B.Mane Principal of AISSMS IOIT highlighted the reasons for organizing the conference and threw light on the proceedings of the conference he said that budding engineers should take the benefit of such conferences to encourage knowledge sharing and be enlightened about innovative ideas. At the time of inauguration Honorable guests and keynote speakers Dr.EKkarat Boochieng, Associate Professor, Chiang Mai University, Thailand, AISSMS Treasurer Mr. Ajay Patil, IEEE Pune Division and IEEE Pune section Vice President Mr.Amar Buchade were present. Technical program chair Dr.Minakshi Thalor shared that the conference has received overall 1457 papers out of which 326 research papers were selected post the scrupulous checking of authenticity of the research. Dr.Suresh Limkar anchored the function while organizing chair Ms. Saba Shaikh presented the vote of thanks.

Technical Summary

ESCI2024 is a three-day conference that was organized to provide a platform for researchers, academicians, and industry professionals to share their research findings and experiences. The conference had three main tracks: Smart Computing, Internet of Things, and Image and Signal Processing. Additionally, 30 special sessions were also conducted in collaboration with renowned universities across India. This report provides an overview of the conference, including paper submissions, review process, acceptance rates, and key statistics.

Paper Submissions:

The conference received an overwhelming response, with 1457 paper submissions from researchers across the globe. Of these, 13 papers were submitted from other countries like USA, UK, UAE, Japan, and many more. The majority of papers, 97 to be precise, were received from Maharashtra, India. The paper submissions were scanned using the IEEE Crosscheck Plagiarism tool, and papers with less than 30% plagiarism and single source similarity of less than 10 were processed for review.

Review Process:

The Technical Program Committee (TPC) members coordinated the overall process of paper submission and resubmission on Microsoft CMT. They also responded to queries from each author during the submission process, coordinated with the Plagiarism checking team and track chairs for the review process, and released the acceptance notifications on time. The review process followed the IEEE policy for plagiarism checking. Papers with plagiarism between 30 to 50% were asked for resubmission, and papers with more than 50% were desk rejected. Papers that passed plagiarism checking were forwarded to the respective track chairs for initial screening. Each paper was assigned two external reviewers, and in case of a tie in the decision of external reviewers, a third external reviewer was assigned to get a clear decision. All authors of rejected papers were notified by the track chair.

Track Acceptance Rates:

The Smart Computing track, handled by Dr. S.N. Zaware and Dr. A.S.Chavan, received 631 paper submissions, of which 109 were finally accepted. The Internet of Things track, handled by Dr. A.A. Shinde and Dr. V.V. Kale, received 285 paper submissions, of which 83 were accepted after the final screening. The Image and Signal Processing track, handled by Dr. M.P. Sardey and Dr. N.S.Warade, received 301 paper submissions, of which 92 were finally accepted. The special sessions, coordinated by Mrs. K.S. Gadgil and Mrs. V.A. Yawale with their team, received 240 paper submissions, of which 40 were finally accepted.

Acceptance Rates:

Out of the 1457 paper submissions, the TPC team released the acceptance notification for 326 papers. A total of 193 papers were registered successfully with the active involvement of the registration team. The acceptance ratio of ESCI2023 is 22.37%.

Post-Conference:

All accepted and presented papers will be forwarded for inclusion in the IEEE Xplore digital library (indexed by Scopus) with the support of the Publication team.

Pre-Conference Tutorials and Keynote Sessions:

The conference had six pre-conference tutorials on 4th march 2024, and five keynote sessions were organized during the three days of the conference.

<i>Paper Summery</i>	
<i>Total Papers submission</i>	1457
<i>Accepted papers</i>	326 (Acceptance ratio:22.37%)
<i>Registered papers</i>	193
<i>Papers from abroad</i>	13
<i>Papers from India</i>	180
<i>Papers outside Maharashtra</i>	97
<i>No. of special sessions</i>	14
<i>Total no. of papers received through special sessions</i>	340
<i>Papers registered through special sessions</i>	30
<i>Session Summery</i>	
<i>No. of paper presentation sessions</i>	31
<i>Keynote sessions</i>	4
<i>Tutorial sessions</i>	6
<i>No of participants for sessions</i>	650

Sponsored By

6th IEEE International Conference on Emerging Smart Computing & Informatics 2024

From 5th to 7th March 2024

PRE-CONFERENCE SCHEDULE

Monday, 4th March 2024

Mr. Gajanan Bejgamwar

Manager Supply Chain Analytics & Optimization-
TCS, Pune
Department: Electrical Engineering

Topic

Revolutionizing Electrical Engineering with AI and Machine Learning & Exploring the Potential of Gen AI

Room No : 210

Time : 10:00 am to 12:00 noon

Coordinator: Mrs. Shubhangi S. Landge

Mr. Satish Pathak

Founder, Executive Director, Samiep Technology
Innovations Pvt. Ltd, Pune
Department: Instrumentation

Topic

Industrial valves and new technology innovations

Room No : 704

Time : 10:00 am to 12:00 noon

Coordinator: Dr. Vandana Kale

Mr. Kishor Ramdas Ingale

Asst. Gen Manager, Pune,
Tata consultancy services, Pune
Department: E&TC

Topic

Engineering Systems as Data Source

Room No : 305

Time : 10:00 am to 12:00 noon

Coordinator: Mr. Venkat Ghodke

Convener

Dr. P. B. Mane

Principal

⊕ aissmsioit.org @ 📧 @ AISSMS_IOIT

Pre-Conference Tutorial		
Topic- Latest trends and real-world applications of IOT & IOT Security	Speaker(With designation)- Mr.Sudhir M. Gorade Chief Growth Officer, Sumago Infotech Pvt. Ltd.,Pune Mr.Amit Saxena, Senior Advisor and Consultant Sumago Infotech Pvt. Ltd.,Pune	
Day- Monday	Date- 04/03/2024	Time- 10.00 am to 12.00 pm
Coordinators- Reshma Y. Totare	Link- Offline	
Abstract of Session/keynote/Special session/tutorial -		
<p>Mr. Amit Saxena's enlightening lecture on IoT provided students with a comprehensive journey through the evolution of industries, from 1.0 to the groundbreaking Industry 4.0. He adeptly traced the transformation of manual labor to the integration of augmented and virtual reality, showcasing the pivotal role played by technologies like M2M, PLC, and SCADA in the realm of IoT and IIOT.</p> <p>Over the span of 5-10 years, sir delved into the dynamic evolution of technologies, elucidating the shifts in data transfer methodologies towards the Cloud, facilitated by the seamless integration of sensors and IoT devices. A key takeaway resonated with the students as speaker emphasized that Industry 4.0 represents a revolutionary phase for the industrial landscape.</p> <p>The lecture continued to unfold the intricacies of the Internet of Everything (IOE), providing real-world insights backed by statistics from reputable sources such as WEF and ORACLE. The practical applications of IoT, ranging from smart cities to Project Management and (PMC) information systems, were elucidated, offering students a tangible understanding of its impact.</p> <p>The discourse didn't shy away from addressing the significance of IoT and its potential future threats. A deep dive into the need for cyber security in the evolving landscape highlighted the critical importance of safeguarding interconnected systems.</p> <p>In conclusion, lecture left students enriched with newfound knowledge, offering them a fresh perspective on IoT and its vast implications on industries and society at large. The integration of historical context, technological advancements, and real-world applications provided a holistic understanding of the subject matter, empowering students to navigate the future with a keen awareness of the transformative power of IoT.</p>

Interaction and Q&A Session

Pre Conference Tutorial Coordinator
Reshma. Y. Totare

Topic- Engineering Systems as AI Data Source		Mr Kishore Ingale Asst GM TCS	
Day- Monday	Date: 04.03.2024	Time : 10:00 to 12:00 Noon	
Coordinators- Prof. Venkat N Ghodke	Link- Offline Class Room 305		
Abstract of Pre conference tutorial talk			
<p>The tutorial session explored the vast potential of data generated by engineering systems as a valuable source for powering AI. The session highlighted the diverse data generated across various engineering domains, including sensor readings, operational logs, and performance metrics. Strategies for extracting relevant data were discussed, emphasizing the importance of data quality. For analyzing data with the help of AI on production processes to identify inefficiencies and suggest adjustments for resource utilization. AI algorithms can identify unusual patterns in sensor data, indicating malfunctions, vast amounts of design data to optimize designs for specific criteria, such as strength, cost-effectiveness.</p> <p>The session concluded with a discussion on the ethical considerations surrounding the use of engineering systems data for AI. The future directions in this field, including facilitating easier data exchange and collaboration between different engineering systems and AI models, ensuring responsible and trustworthy use of AI in development of security. Practical examples of how AI empowered by engineering system data, is revolutionizing various industries, from predictive maintenance and design automation.</p> <p>Engineering systems stands as offering an invaluable source for AI Innovations and shaping the future of various engineering practices. Generation of AI solutions.</p>

Felicitations of Mr. Kishore Ingale from TCS by Dr M.P.Sardey (HOD E&TC)

Pre Conference Tutorial Coordinator
Prof Venkat N Ghodke
Assistant Professor –E&TC Engineering

Session/keynote/Special session/Pre-conferenceTutorial		
Topic- Revolutionizing Electrical Engineering with AI-ML & Exploring Potential of Gen AI		Speaker(With designation)- Gajanan N. Bejgamwar. Manager Supply Chain Analytics & Optimization, TCS, Pune
Day- Monday	Date- 04/03/2024	Time- 10.00 am- 12.15 pm
Coordinators-Mrs. Landge S S	Link- Offline session	
Abstract of tutorial -		
<p>The speaker explained-</p> <ul style="list-style-type: none"> • Machine Learning, the use of AI machine learning in day to day life like it's use in Cross sale, Personalized Experience, Product Recommendation etc. • Types of Data- Supervised – Unsupervised Learning • Regression Modeling • Domain expertise is essential in AI-ML • Helps in understanding the specific domain or industry • Data preparation: They have a better understanding of the data sources • Feature engineering: Domain experts can provide insights into which features are important • Model selection: Help in selecting the appropriate AI-ML algorithm. Provide guidance on how to tune the parameters • Interpretability: Help in providing insights into the underlying reasons for the predictions • Evaluation and validation: Suggest improvements to the model to ensure that it is accurate and reliable. • Data Science Skills- Programming: R, Python, SQL, SAS, MATLAB • Data Wrangling: Cleaning, Manipulating, and Exploring Data • Data Visualization: Creating graphs and charts to visualize data • Data Analysis: Conducting statistical analyses of data • Machine Learning: Building algorithms to learn from data 		
AI-ML use cases relevant to electrical-		
1) Power Systems Data:		
Dataset: Load demand data from power grids, including historical electricity consumption.		
AI-ML Use Case: Time series forecasting to predict future electricity demand, aiding in efficient resource allocation and grid management.		
2) Fault Detection and Diagnosis:		
Dataset: Fault data from electrical systems, including information about anomalies, failures, and sensor readings.		
AI-ML Use Case: Anomaly detection algorithms to identify and diagnose faults in power systems, reducing downtime and improving maintenance strategies.		

3) Energy Efficiency Optimization:

Dataset: Sensor data from electrical devices measuring voltage, current, and power consumption.

AI-ML Use Case: Optimization algorithms to analyze energy usage patterns and suggest strategies for improving energy efficiency in industrial or residential settings.

4) Predictive Maintenance:

Dataset: Sensor data from motors, generators, and other electrical equipment, including temperature, vibration, and current measurements.

AI-ML Use Case: Predictive maintenance models to forecast equipment failures and schedule maintenance activities proactively, minimizing downtime and repair costs.

5) Smart Grid Management:

Dataset: Smart meter data collected from households or commercial buildings, providing detailed electricity consumption patterns.

AI-ML Use Case: Demand forecasting algorithms to predict future energy consumption, enabling utilities to optimize grid operations and plan for peak demand periods.

6) Renewable Energy Integration:

Dataset: Solar and wind power data, including measurements of solar radiation, wind speed, and power output.

AI-ML Use Case: Renewable energy forecasting models to predict solar and wind power generation, facilitating the integration of renewable energy sources into the grid and improving grid stability.

Mr. Gajanan Bejagamwar conducting tutorial session on topic Revolutionizing Electrical Engineering with AI-ML & Exploring Potential of Gen AI

Pre Conference Tutorial Coordinator- Mrs. Landge S. S.

Pre-conference Tutorial		
Topic- Industrial valves and new technology innovations	Speaker(With designation) Mr.Satish Pathak, Founder, Executive Director, Samiep Technology innovations Pvt. Ltd, Pune	
Day- Monday	Date- 04/03/2024	Time: 09:30 to 12:00pm
Coordinator- Dr. Vandana V. Kale	Link/Room No- 704	
Abstract of Session/keynote/Special session/tutorial -		
<p>Industrial valves play a crucial role in regulating the flow of fluids and gases in various industrial processes. This abstract explores different types of industrial valves and the factors involved in their selection process.</p> <p>The types of industrial valves discussed include:</p> <ol style="list-style-type: none"> 1. Gate Valves: These valves control the flow of fluids by raising or lowering a gate or wedge within the valve body. 2. Ball Valves: Featuring a spherical closure unit, ball valves offer quick on/off control with minimal leakage. 3. Butterfly Valves: These valves use a disc mounted on a rotating shaft to control flow, offering compact design and quick operation. 4. Check Valves: Designed to prevent reverse flow, check valves allow fluid to flow in only one direction. 5. Globe Valves: Globe valves regulate flow via a movable plug or disc that seats against a stationary ring. 6. Diaphragm Valves: These valves use a flexible diaphragm to regulate flow, making them suitable for controlling corrosive or abrasive fluids. 7. Plug Valves: Plug valves feature a cylindrical or conical plug that controls flow by rotating within the valve body. <p>The selection process for industrial valves involves considering several factors such as:</p> <ul style="list-style-type: none"> - Application Requirements: Understanding the specific requirements of the industrial process, including pressure, temperature, and flow rate. - Fluid Characteristics: Analyzing the properties of the fluid being controlled, including corrosiveness, viscosity, and particulate content. - Valve Material: Selecting appropriate materials compatible with the fluid and environmental conditions to ensure longevity and reliability. - Operational Conditions: Considering factors like frequency of operation, maintenance requirements, and safety considerations. - Cost and Lifecycle Analysis: Evaluating the initial cost, maintenance expenses, and expected lifespan of the valve to determine the most cost-effective solution. <p>In conclusion, the selection of industrial valves involves a comprehensive evaluation of various factors to ensure optimal performance, reliability, and safety in industrial processes. Understanding the characteristics and functionalities of different valve types is essential for making informed decisions in valve selection.</p>

Pre-conferenceTutorial		
Topic- NLP and Gen AI		Speaker: Mr. Adish Apte (AVP – Product Engineering LTIMindtree)
Day-Monday	Date: 04/03/2024	Time: 10.00-12.00 pm
Coordinators-Ms. Swati Kadu	Link- Offline session	
<p>Abstract of tutorial -</p> <ul style="list-style-type: none"> ● Natural Language Processing (NLP) and Generative Artificial Intelligence (Gen AI) are two interconnected fields within artificial intelligence (AI) that have gained significant attention and advancement in recent years. ● Quick overview of the field of AI and then getting into application of AI to sequence data (language, music, video etc). With a more industry specific view and emphasis on how to leverage this radical innovation of Large Language (now multi modal) Models for industry solves. ● Innovations in natural language processing, dialogue systems and the creation of creative material have resulted from the convergence of NLP and generative AI. More complex and contextually aware interactions between machines and humans are now possible thanks to recent developments in models like GPT (Generative Pre-trained Transformer), which have shown amazing abilities in natural language processing and generation. ● These domains are still developing quickly because of increased access to bigger datasets, better algorithms, and continuous study. The combination of natural language processing (NLP) and generative artificial intelligence (AI) has enormous potential for a variety of uses, including improving human-machine communication, producing original content, and expanding the capabilities of AI. <p>Total No. of Participants/Attendees- 180</p>

Expert Talk		
Topic- IEEE Authorship		Speaker(With designation) Mr. Dhanu Pattanashetti, Senior Client Services Manager IEEE, Bangalore, India
Day- Tuesday	Date: 5/03/2024	Time : 1pm to 2pm
Coordinators- Dr. Shobha Nikam	Link-Offline in Room No.: 407	
<p>Abstract of Session/keynote/Special session/tutorial – During session following points covered by the resource person :</p> <p>The expert talk on IEEE authorship provided valuable insights into the guidelines and best practices for publishing in IEEE (Institute of Electrical and Electronics Engineers) journals and conferences. IEEE, as a premier organization in the field of engineering and technology, sets rigorous standards for authorship, ensuring quality and integrity in scholarly publications.</p> <p>Key Points Discussed:</p> <p>Understanding IEEE Authorship Guidelines:</p> <p>The presentation began with an overview of IEEE's authorship guidelines, emphasizing the importance of adherence to ethical standards, including originality, plagiarism avoidance, and proper citation practices.</p> <p>Discussion on the significance of authorship criteria, including substantial contributions to research conception, design, data analysis, and manuscript drafting.</p> <p>Navigating the Publication Process:</p> <p>Detailed explanation of the publication process within IEEE, covering manuscript submission, peer review, revisions, and final publication.</p> <p>Insights into the importance of selecting the appropriate IEEE journal or conference based on the scope of the research and target audience.</p> <p>Ethical Considerations and Copyright Issues:</p> <p>Addressing ethical considerations such as dual submission, conflicts of interest, and proper attribution of sources.</p> <p>Discussion on copyright policies and authors' rights, including understanding the IEEE Copyright Form and options for Open Access publication.</p> <p>Tips for Successful IEEE Authorship:</p> <p>Practical tips for authors to enhance the quality and impact of their submissions, including thorough literature review, clear and concise writing, and adherence to IEEE formatting guidelines.</p> <p>Strategies for effectively responding to reviewer comments and revising manuscripts for publication.</p> <p>Resources and Support for Authors:</p> <p>Highlighting available resources and support mechanisms provided by IEEE, such as author</p>		

guidelines, templates, and online tutorials.

Encouraging engagement with IEEE communities, including networking opportunities and participation in conferences and workshops.

Conclusion:

The expert talk on IEEE authorship provided attendees with a comprehensive understanding of the principles, processes, and best practices for publishing in IEEE journals and conferences. By adhering to ethical guidelines, understanding the publication process, and implementing effective strategies, authors can maximize the impact of their research contributions within the IEEE community and beyond.

Also he felicitated 4 women (Dr. Ashpana Shiralkar, Dr. Meenakshi Thalor, Dr. Sarika Zaware, Mrs. Vaishali Kulkarni) in AISSMS for contribution in IEEE.

 @AISSMS_IOIT

Keynote session- 1 (Physical Mode) Hybrid		
Topic- Exploring 5G, AI, and IoT in Smart Hospitals		Speaker(With designation) Dr. Aziz Nanthaamornphong Associate Professor, Dean at the College of Computing, Prince of Songkla University's Phuket campus, Thailand. aziz.n@phuket.psu.ac.th
Day-Tuesday	Date: 05-03-2024	Time: 12.30 pm to 1.30pm
Coordinators-Ms Saba K M Shaikh	Venue/Link-Multipurpose Hall http://tinyurl.com/ESCI-2024-Day-1-Inaugural	
<p>Abstract of Keynote Talk</p> <p>Dr. Aziz presented a highly informative keynote talk. He discussed the role of smart hospitals in addressing the needs of an aging global population. He also discussed the role of IoT in Smart healthcare. He explained his research in detail highlighting his work done, challenges faced and merits and demerits of the research work done.</p> <p>There were 110 participants attending this session physically whereas there were 400 participants online.</p> <p>Thus a total of 510 participants took advantage of this keynote talk.</p>		
		
Dr. Aziz addressing attendees in the Multipurpose Hall.		Dr. Aziz addressing attendees in the Multipurpose Hall.

Keynote session- 2 (Physical Mode) Hybrid		
Topic- Combining Several Classification Models with outlier Identification to Classify Diseases in Imbalanced Datasets	Speaker(With designation) Dr. Ekkarat Boonchieng ekkarat@ieee.org Associate Professor Department of Computer Science, Chiang Mai University, Chiang Mai, Thailand	
Day-Tuesday	Date: 05-03-2024	Time: 2pm to 3pm
Coordinators-Ms Saba K M Shaikh	Venue/Link-Multipurpose Hall http://tinyurl.com/ESCI-2024-Day-1-Keynote-02	
<p>Abstract of Keynote Talk</p> <p>Dr. Ekkarat presented a highly informative keynote talk. He discussed the different classification approaches applied to the Saraphi hospital centre in Thailand. In his research he has used machine learning and deep learning to classify the data to detect dengue, common flu and cold.</p> <p>There were 112 participants attending this session physically whereas there were 16 participants online.</p> <p>Thus a total of 128 participants took advantage of this keynote talk.</p>		

Mrs. Saba Shaikh introducing Dr. Ekkarat

Dr. Ekkarat presenting the keynote

Faculty and students attending Dr. Ekkarat keynote in offline mode.

Question answer session at the end.

Keynote session – 3 Online Mode

Topic-
Multimodal Information Processing:
Some recent NLP applications

Speaker(With designation)
Dr. Sriparna Saha
Associate Professor
Department of Computer Science and
Engineering,
Indian Institute of Technology Patna
sriparna.saha@gmail.com

Day-Wednesday

Date: 06-03-2024

Time: 12.00 pm to 1.00pm

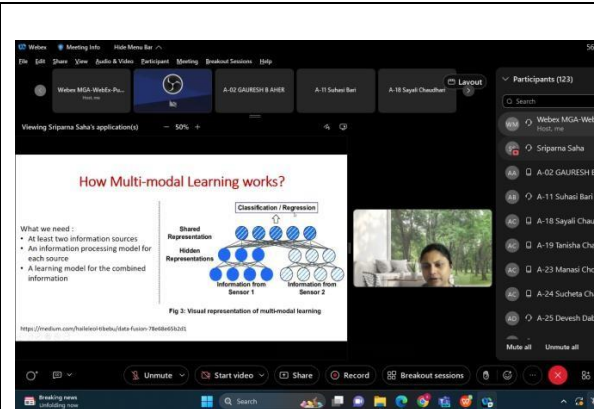

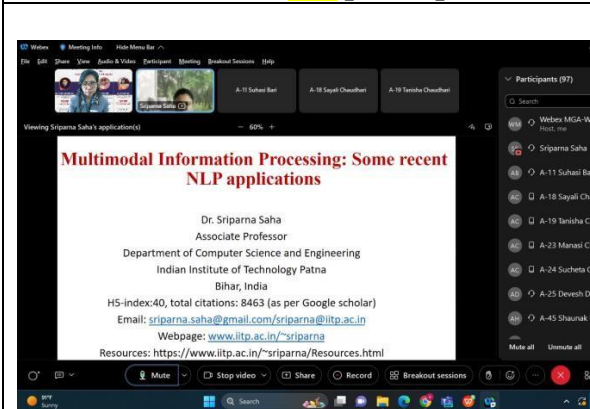

**Coordinators-Ms Saba K M
Shaikh**

Venue/Link- online
<http://tinyurl.com/ESCI-2024-Day-2-Keynote-04>

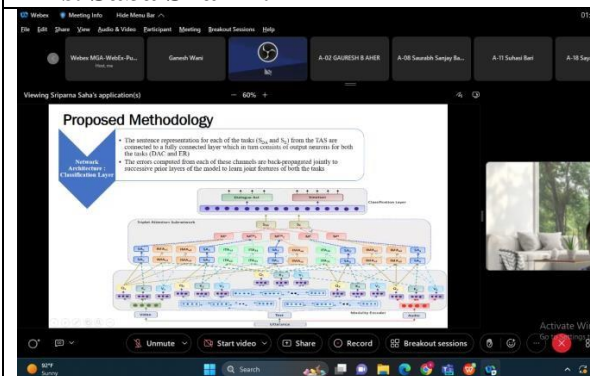

Abstract of Keynote Talk

Dr. Saha discussed how the multimodal information extracted from different modalities can help in improving different tasks of dialogue systems, summarization, hate speech detection, and complaint mining. Multimodal information collected from audio tones, facial expressions, and texts is utilized for determining the type of utterance in a multitask setting where emotion recognition and dialogue act classification tasks are solved simultaneously. Multimodal information collected from videos, images, and texts can also be utilized for generating a summary. Images and texts collected from Amazon reviews are utilized for developing some aspect-based multimodal complaint detection systems in a multi-task setting where sentiment and emotional information are utilized as auxiliary tasks. Memes collected from social media are utilized for the detection of hate speech in a multitasking setting where sentiment, emotion, and sarcasm detection are utilized as auxiliary tasks. This talk highlighted the different applications of multimodal information processing in solving different NLP tasks.

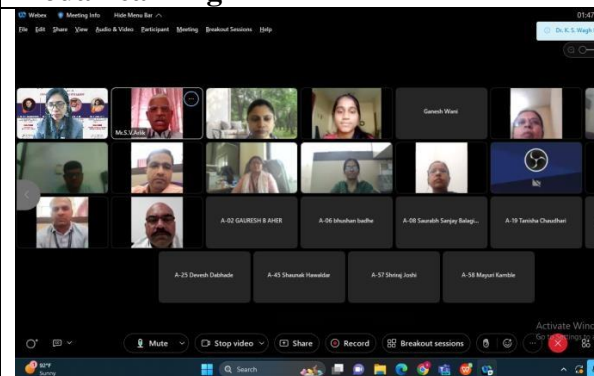

There were around **248** participants online.

Screenshot of introduction of Dr. Saha by Mrs. Saba Shaikh.

Dr. Saha explaining working of Multi modal learning

Dr. Saha proposing her research methodology

Group photo taken after the completion of the session.

Keynote session 4 – Online Mode

Topic- The AI Revolution: Keynote Insights on Machine Learning and Beyond

**Speaker(With designation)
Dr. Fathe Jeribi**

Associate Professor, Vice Dean for Academic Affairs, College of Computer Science and Information Technology, Jazan University, Saudi Arabia

Day-Wednesday

Date: 06-03-2024

Time: 12.00 pm to 1.00pm

Coordinators-Ms Saba K M Shaikh

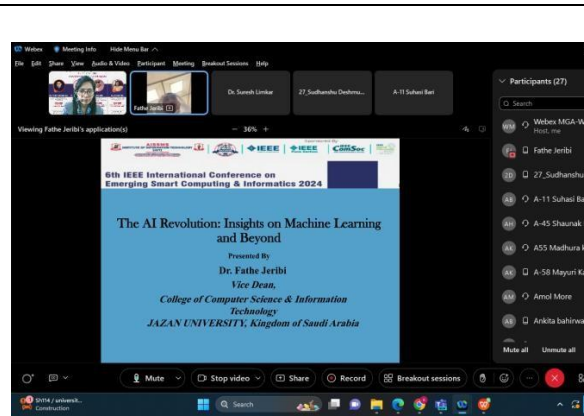

Venue/Link- online

<http://tinyurl.com/ESCI-2024-Day-2-Keynote-03>

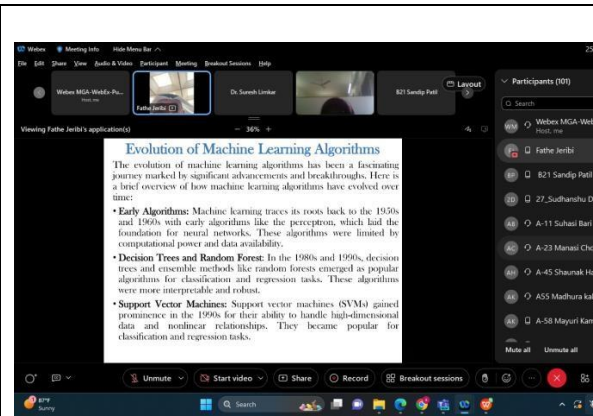

Abstract of Keynote Talk

Dr. Fathe Jeribi presented a highly informative keynote talk. He discussed the evolution of Artificial Intelligence. He also provided key insights into machine learning. This session was conducted in Online mode.

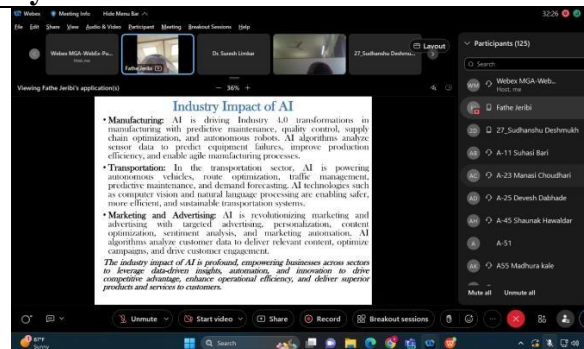

There were around 248 participants online.

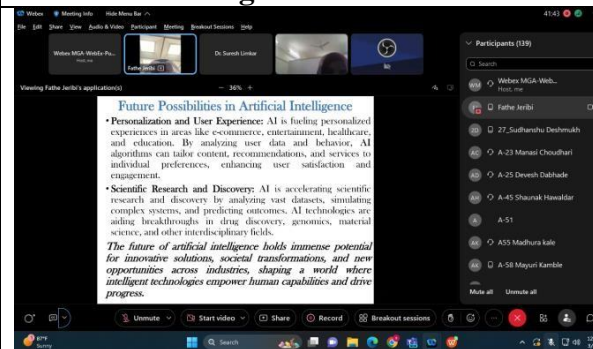

Screenshot of introduction of Dr. Jeribi by Mrs Saba Shaikh.

Dr. Jeribi explaining evolution of Machine learning

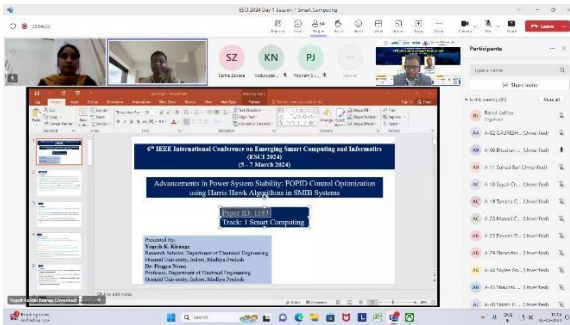

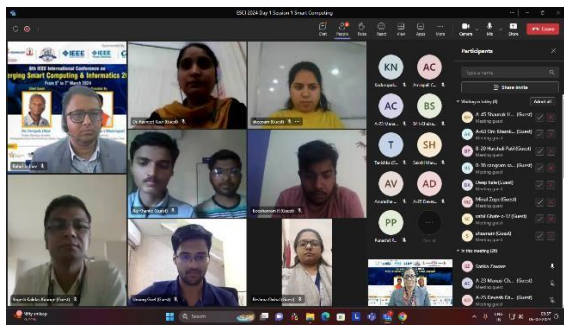

Dr. Jeribi explaining industry impact of AI

Dr. Jeribi explaining future possibilities of AI

Technical Oral Presentation/ Special Session
--

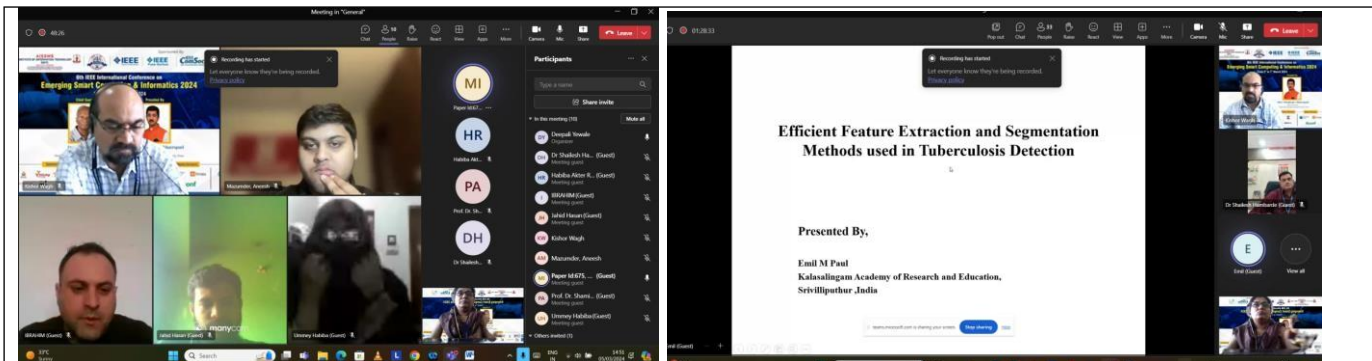

Session-1		
Track - Smart Computing	Session Chair 1 Dr. Ravneet Kaur Assistant Professor, Chitkara University, Punjab Session Chair 2: Dr. S.N Zaware HoD, Computer Engineering AISSMS Institute Of Information Technology, Pune.	
Day: Tuesday	Date: 05/03/2024	Time: 3.00PM-5.00PM
Session Coordinators- 1. Mr. R.N Jadhav	Link- http://tinyurl.com/Day-1-Session-1-SC	
Abstract of Session/keynote/Special session/tutorial – Technical Oral Presentation Session 1 Smart Computing was successfully conducted on the second day of 6 th IEEE International Conference on Emerging Smart Computing and Informatics (ESCI 2024): 5 th March 2024.Total 6 Papers were presented in this session. Paper ID: 691: A Novel Approach for Congestion and Interference Management through Channel Assignment Optimization Paper ID: 796: A Machine Learning Enabled Approach for Mental and Physical Health Management using OpenCV, NLP and IOT. Paper ID: 1183: Advancements in Power System Stability: FOPID Control Optimization using Harris Hawk Algorithms in SMIB Systems Paper ID: 1359: Deep reinforcement learning in stock trading: Evaluating DDPG and DQN strategies Paper ID: 1137: Data-Driven Decisions: A Machine Learning Perspective on Loan Authorization. Paper ID: 1039: Automated Detection of Dysgraphia Symptoms In Primary and Middle School Children Session Chairs Dr. Ravneet Kaur and Dr.S.N Zaware evaluated the papers based on the parameters: Presentation Quality, Research Contents, Depth of Understanding of subject, Effectiveness, Time Management. At the end of session, Session Chair conveyed the Best Paper Title. Total no. of Participants- 65		

Summary of paper presentation

Sr. No	Name of Session/Track	Best Paper Title	Name of Presenter
1	Smart Computing Session-1	Paper ID: 796: A Machine Learning Enabled Approach for Mental and Physical Health Management using OpenCV, NLP and IOT.	Raj Khanke

Session-2		
Track - Image & Signal Processing		Internal Session Chair : Dr.Kishor Sadashiv Wagh Associate Professor, Dept. Computer Engineering AISSMS Institute of Information Technology. External Session Chair : Dr. Shailesh Hambarde Head, Associate Professor JSPM's Jayawantrao Sawant College of Engineering, Pune
Day: Tuesday	Date: 05/03/2024	Time: 3.00-5.00 pm
Session Coordinators- 1. Ms. Deepali Yewale	Link : http://tinyurl.com/Day-1-Session-2-ISP	
Abstract of Session/keynote/Special session/tutorial – <p>Technical Oral Presentation Session 2: Image & Signal Processing was successfully conducted on the First day of 6th IEEE International Conference on Emerging Smart Computing and Informatics (ESCI 2024): 5th March 2024.</p> <p>Total 7 Papers were presented in this session.</p> <p>Paper ID: 877 : Mask Attention-Based Vision Transformer (MA-ViT) for PCB Defect Detection</p> <p>Paper ID: 1132: Hash Based Secure and Efficient Scaling Approach for Detecting the Diabetic Retinopathy Disorder</p> <p>Paper ID: 928: Efficient Feature Extraction and Segmentation Methods used in Tuberculosis Detection</p> <p>Paper ID: 1239: Towards the Development of an Automated Pipeline for Cilia Detection</p> <p>Paper ID: 687: Neuro-Cognitive Pattern Recognition: Advancements in Memory-Related Disorders Identification</p> <p>Paper ID: 675: Localization of Dengue Virus Likelihood Using Image Processing Technique</p> <p>Paper ID: 1196: Face Recognition Based On Fusion Feature Extraction Algorithm</p> <p>Session Chairs Dr. Shailesh Hambarde evaluated the papers based on the parameters: Presentation Quality, Research Contents, Depth of Understanding of subject, Effectiveness, Time Management.</p> <p>Total no. of Participants- 07</p>		

Session -3		
Track -Smart Computing	External Session chair: Mr. Ranjeet Vasant Bidwe Assistant Professor at Symbiosis institute of technology, Pune	
Day: Tuesday	Date: 5/03/2024	Time: 3.00 pm to 5.00 pm
Internal Session chair: Dr. Chetan Nimba Aher Session Coordinator: Mrs. Mamta Sanjay Koban	Link- Venue/Link : http://tinyurl.com/Day-1-Session-3-SC Author Feedback Link: https://forms.gle/6epdv6yQJvaT5Z576	

Abstract of Session/keynote/Special session/tutorial –

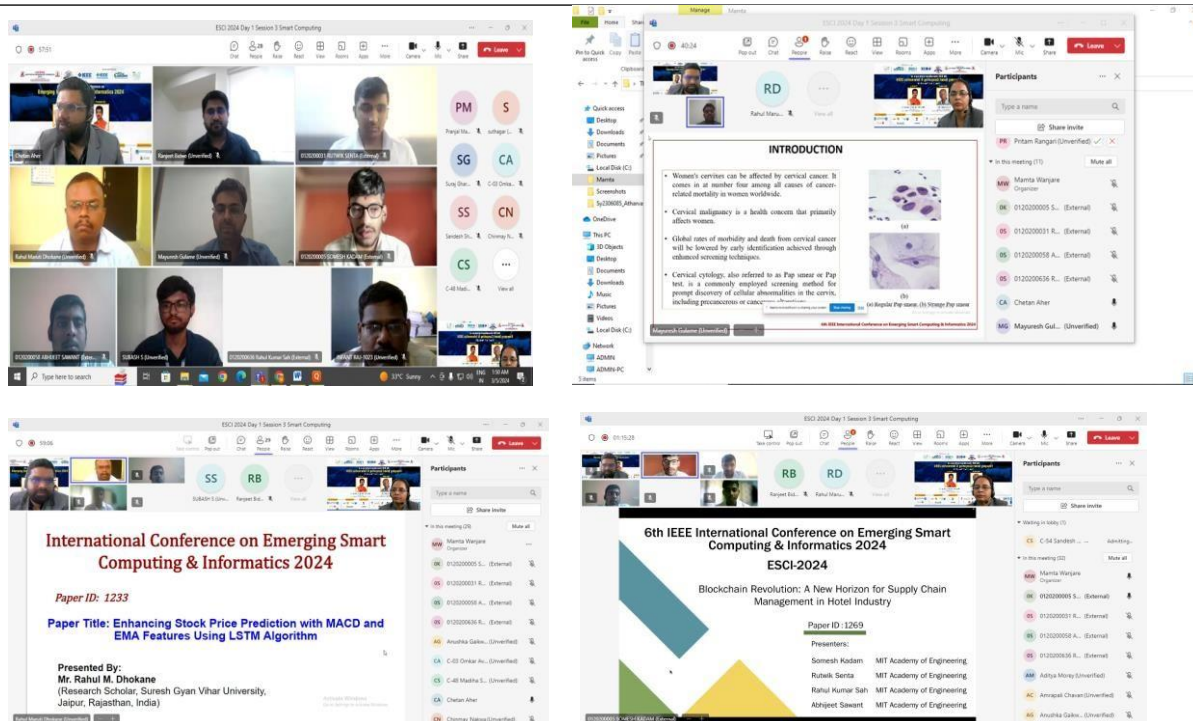

Technical Oral Presentation Session 3: Smart Computing was successfully conducted on the first day of 6th IEEE International Conference on Emerging Smart Computing and Informatics (ESCI 2024): 5th March 2024.

Total 6 Papers were presented in this session.

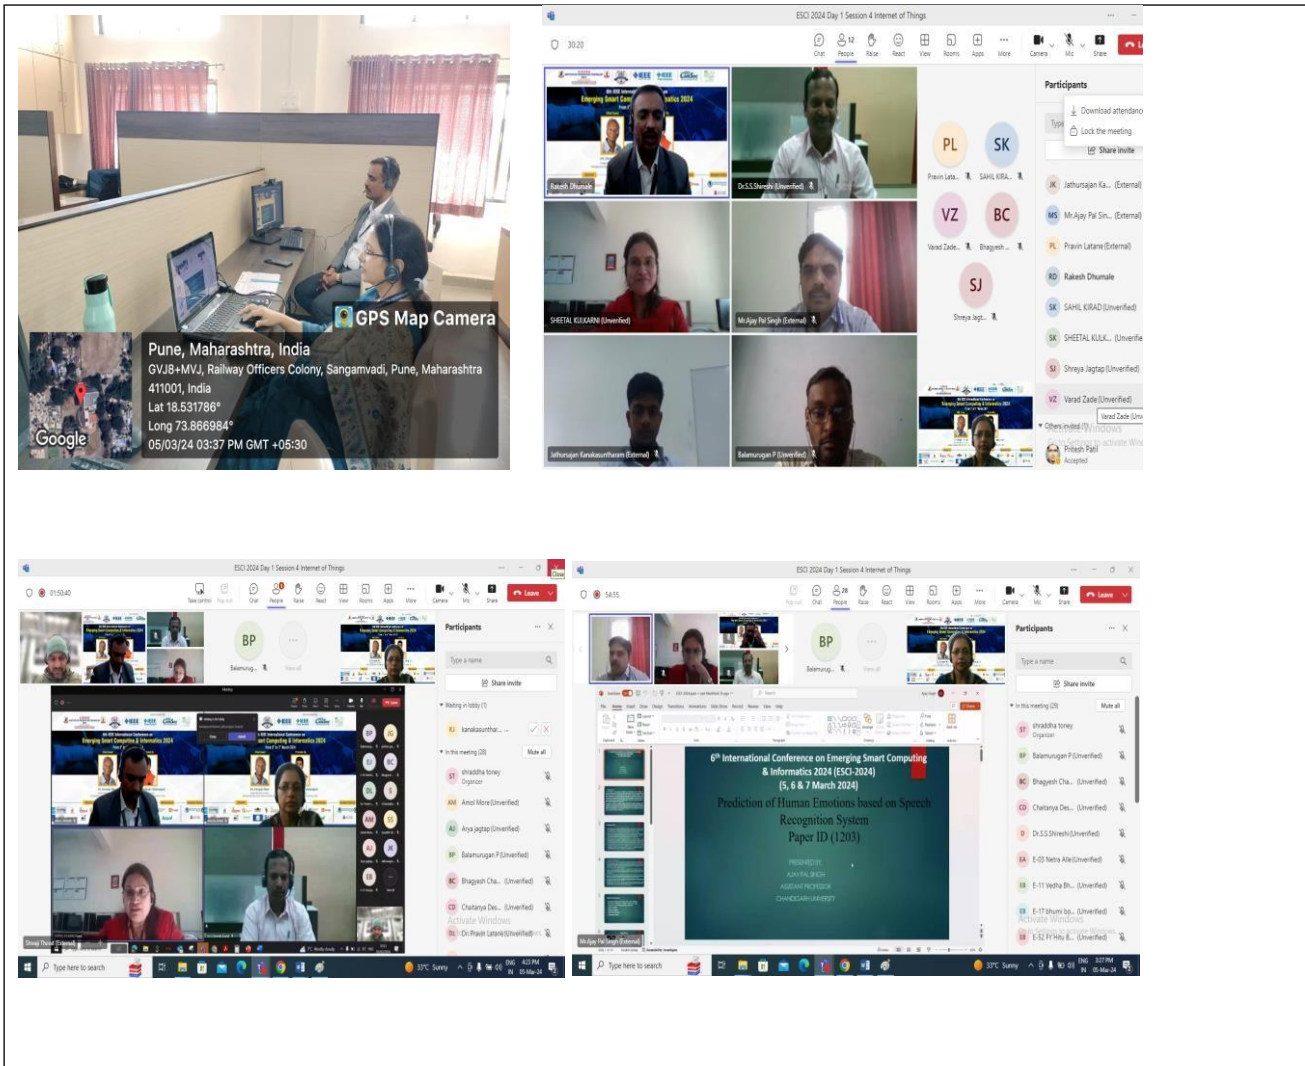

1. Paper ID: 1147: A Meta-Learner-Integrated Stacking Voting Ensemble Network for Cervical Malignancy Classification
2. Paper ID: 1233: Enhancing Stock Price Prediction with MACD and EMA Features Using LSTM Algorithm..
3. Paper ID: 1269: Blockchain Revolution: A New Horizon for Supply Chain Management in Hotel Industry
4. Paper ID: 943: Performance Analysis of Velostat, Conductive Fabric and Force Sensing Resistor for Incorporating Safety in Women's jacket
5. Paper ID: 1068: A Deep Residual Neural Network for Potato and Pepper Leaf Disease Detection
6. Paper ID: 1023: Applying Transformer-Based Neural Networks to Corpus Linguistic Data for Predictive Text Generation in Multilingual Environments

Session Chair, Dr. Ranjeet Vasant Bidwe evaluated the papers based on the parameters: Presentation Quality, Research Contents, Depth of Understanding of subject, Effectiveness, Time Management.

At the end of the session, the Session Chair conveyed the Best Paper Title.

Total no. of Participants- 06

Session- 04		
Track - Internet of Things	Session Chair : Dr. Sheetal Kulkarni Professor, Dept. Computer Engineering Dean Faculty of Engineering and Technology BVCOE, Pune	
Day: Tuesday	Date: 05/03/2024	Time: 3.00-5.00 pm.

Day: Wednesday	Date: 06/03/2024	Time: 10.00 AM -12.00 PM
Session Coordinators- 1. Mrs. Archana G. Said	Link- http://tinyurl.com/Day-2-Session-13-IOT	
Abstract of Session/keynote/Special session/tutorial – Technical Oral Presentation Session 13: Internet of Things was successfully conducted on the second day of 6 th IEEE International Conference on Emerging Smart Computing and Informatics (ESCI 2024): 6 th March 2024. Total 6 Papers were presented in this session. Paper ID: 1336: Next Generation Wireless Communication Network Paper ID: 1006: Smart Agriculture : Aqua Watch: A Nitrate Sensor with Color Intelligence Paper ID: 873: Development of Code-Mixed Marathi-English Dataset for Hate Speech Detection. Paper ID: 1286: UAV Assisted System Using Internet of Things (IoT)and Machine Learning Paper ID: 482: A Study of Weed Management in Agricultural Plants using IoT and Machine Learning Paper ID:1275: Adaptive DoS Attack Detection in SDN Session Chairs Dr. Milind Bogular and Dr. Shagufta Sheikh evaluated the papers based on the parameters: Presentation Quality, Research Contents, Depth of Understanding of subject, Effectiveness, Time Management. AT the end of session, Session Chair conveyed the Best Paper Title. Total no. of Participants- 06		

Session-14

Track - Smart Computing

External Session Chair 1 Dr. Deepali Gore

Associate Professor at P.E.S Modern College of Engineering, Pune

Internal Session Chair 2: Dr. Riyazahmed A. Jamadar

Assistant Professor at AISSMS IOIT, Pune

Day: Wednesday

Date: 06/03/2024

Time: 10.00-12.00

Session Coordinators-

Link- : <http://tinyurl.com/Day-2-Session-14-SC>

1. Ms. Anuradha S. Varal

Abstract of Session/keynote/Special session/tutorial –

Technical Oral Presentation Session 14: Smart Computing was successfully conducted on the second day of 6th IEEE International Conference on Emerging Smart Computing and Informatics (ESCI 2024): 6th March 2024.

Total 7 Papers were presented in this session.

Paper ID: 629: Ingenious Waste Management: Implementing Machine Learning in Waste Segregation

Paper ID: 671: Machine Learning Based IPL Fantasy Cricket Dream11 Best Team Prediction

Paper ID: 972: Advancements in Quantum Error Mitigation Strategies for Reliable Quantum Computing on IBM Simulators

Paper ID: 519: AI-Powered Automated Wheelchair based on Lane Detection with Gesture, Voice, and Face Recognition Paper ID: 676: Role of Non Fungible Tokens in Transforming Academic Credentials for Trust and Transparency

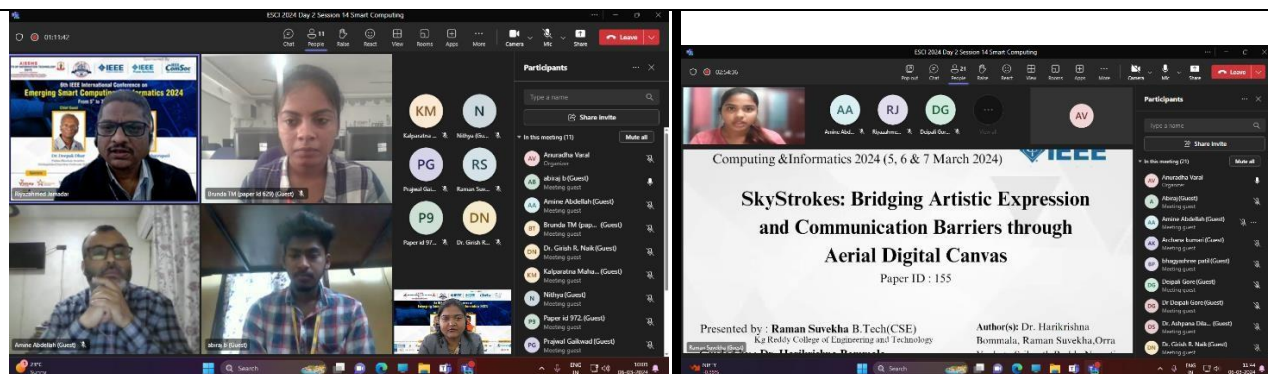

Paper ID: 516: Evolution of methodologies and comparative analysis of different development paradigms

Paper ID: 155: Sky strokes:Bridging Artistic Expression And Communication Barriers Through Aerial Digital Canvas.

External Session Chair Dr. Deepali Gore and Internal Session Chair Dr. Riyazahmed A. Jamadar evaluated the papers based on the parameters: Presentation Quality, Research Contents, Depth of Understanding of subject, Effectiveness, Time Management.

AT the end of session, Session Chair conveyed the Best Paper Title.

Total no. of Participants- 07

Session-15**Track - Smart Computing****External Session Chair**

Dr. Ram Joshi
Dean Academics(Prof.Comp Engg)
JSPM's RSCOE ,Tathawade.Pune

Day: Wednesday**Date: 06/03/2024****Time: 10.00-12.00****Session Coordinators-**

1. Dr. Manisha Rakesh Raghuvanshi
2. Ms.Punashri Mahadev Patil

Link- <http://tinyurl.com/Day-2-Session-15- SC>**Abstract of Session/keynote/Special session/tutorial –**

Technical Oral Presentation Session 15: Smart Computing was successfully conducted on the second day of 6th IEEE International Conference on Emerging Smart Computing and Informatics (ESCI 2024): 6th March 2024.

Total 6 Papers were presented in this session.

Paper ID: 500: Unmasking Disinformation: Detection of Fake News Online using Learning Techniques

Paper ID: 268: Long Short-Term Memory-Based Next Keyword Prediction

Paper ID: 551: AI-Optimized Eco-Charge Regeneration Technology in EV

Paper ID: 384:Utilizing Bayesian Networks to Augment DecisionMaking for Dengue Outbreak Response in Public Health

Paper ID: 361: Comprehensive Exploration of the Role of Graph Databases like Neo4j in Cyber Security

Paper ID: 305:Analysis of Hyper-Threading using on die Performance Monitoring Counters

Session Chairs **Dr. Ram Joshi** evaluated the papers based on the parameters: Presentation Quality, Research Contents, Depth of Understanding of subject, Effectiveness, Time Management.

AT the end of session, Session Chair conveyed the Best Paper Title.

Total no. of Participants- 06

Session-16

Track – Session-16(Special Session)

Session Chair 1

Dr. P. A. Harsha Vardhini

Head of the Department-ECE

Vignan Institute of Technology and Science,
Deshmukhi, Telangana, India

Day: Wednesday

Date: 6/03/2024

Time: 10.00am-12.00 pm

Internal Session Chair:

Dr. Mohini Pramod Sardey

(9881409100)

Head of the Department-E&TC

AISSMS IOIT,Pune-01

Session Coordinator:

Mrs. Poonam Swapnil

Jadhav(8888148293)

Link- <http://tinyurl.com/Dav-2-Session-16-SPS>

Abstract of Session/keynote/Special session/tutorial –

Technical Oral Presentation Session 16(Special Session): Special session (Session 16) was successfully conducted on the second day of 6th IEEE International Conference on Emerging Smart Computing and Informatics (ESCI 2024): 6th March 2024.

Total 7 Papers were presented in this session.

Paper ID: PA_05: Power Efficient High Gain/CMRR and Low Noise ElectroOculogram For Human Computer Interaction and Wearable IoT devices.

Paper ID: PA_08: Transformative Advancements: Sign Language Conversion to Text and Speech

Paper ID: PA_09 : Ultra-Low Energy Consumed GDIBased Hamming Code High Speed Signal Processing Communication System

Paper ID: PA_11 : Kernel Based FCM for Spinal Cord Segmentation on Computed Tomography Images

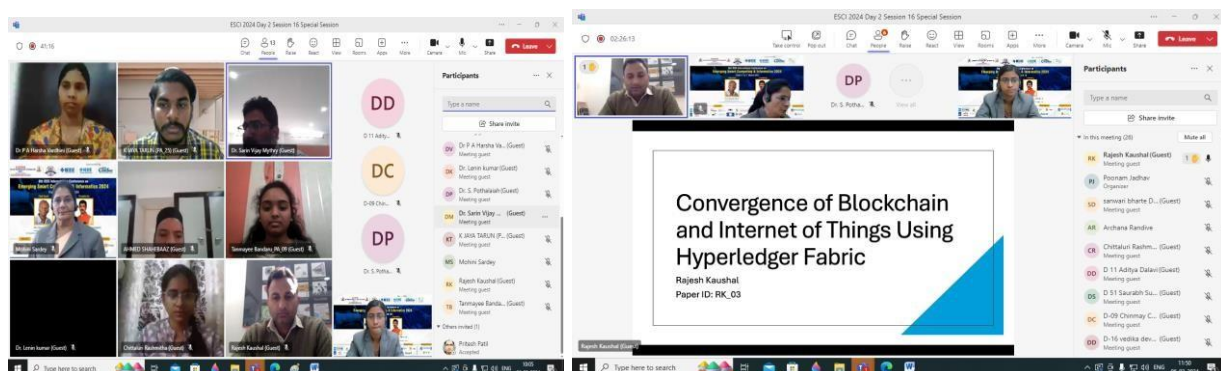

Paper ID: PA_25 : Analysis of Carrier to Noise Density Ratio, Satellite Visibility and Skyplot of Multiple GNSS Constellations using Smart Phone for Relative Positioning Application

Paper ID: PA_18 : A Novel Probabilistic Access Scheme for NB-IOT in 5G Network

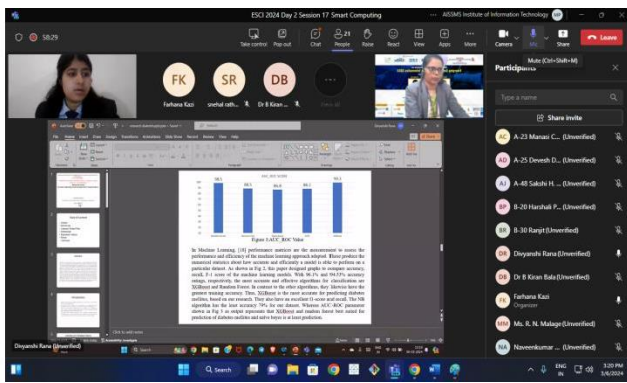

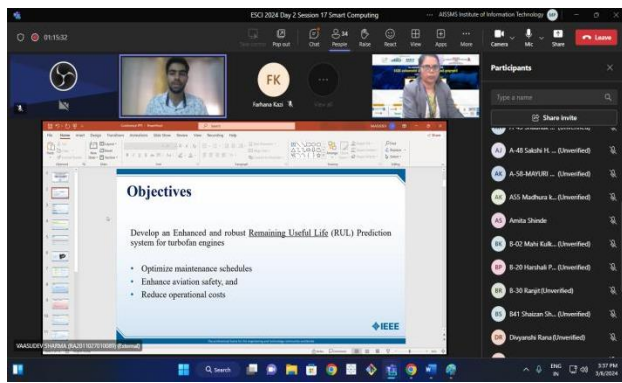

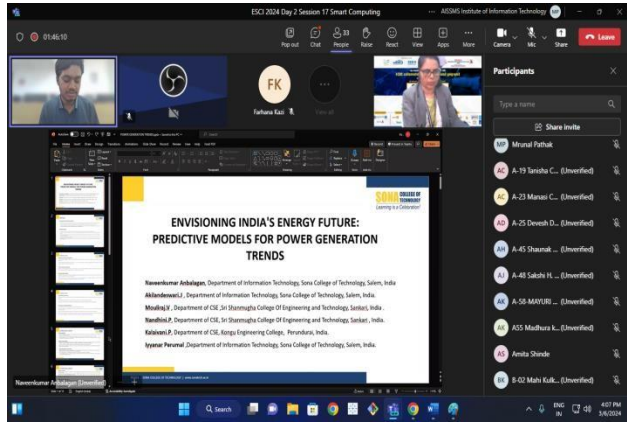

Paper ID: RK_03: Convergence of Blockchain and Internet of Things Using Hyperledger Fabric

Session Dr. P. A. Harsha Vardhini evaluated the papers based on the parameters: Presentation Quality, Research Contents, Depth of Understanding of subject, Effectiveness, Time Management.

AT the end of session, Session Chair conveyed the Best Paper Title.

Total no. of Participants- 07

Session-17		
Track - Smart Computing	Session Chair Dr. Snehal Rathi Assistant Professor Vishwakarma Institute of Information Technology, Pune	
Day: Wednesday	Date: 06/03/2024	Time: 3.00-5.00 p.m

Abstract of Session/keynote/Special session/tutorial –

Technical Oral Presentation Session 20: Image & Signal Processing was successfully conducted on the second day of 6th IEEE International Conference on Emerging Smart Computing and Informatics (ESCI 2024): 6th March 2024.

Total 9 Papers were presented in this session.

Paper ID: 1363: Flood Susceptibility Mapping and Accuracy Assessment of a River Floodplain using Bivariate Statistical.

Paper ID: 1015: Early Disease Detection in Wildlife by Analyzing Behavior and Weather Conditions Using Image Process.

Paper ID: 1198: Real-Time Injury Risk Assessment in Athletes based on Relative Joint Angles.

Paper ID: 1200: Unusual Human Behavior Analysis Using the Deep Learning.

Paper ID: 398: Camera and LiDAR Integration for Lane-Following and Obstacle Avoidance in Self-Driving Cars.

Paper ID: 447: Deep Learning Based Foreign Object Debris (FOD) Detection on Runway.

Paper ID: 116: Quantum Inspired Image Classification: A Hybrid SVM Framework.

Paper ID: ST 03: Feature Extraction of Unprinted Fabric for defect detection using Gabor Filter, HOG and SVM.

Paper ID: ST 04: Boosting Wavelet-Based Image Fusion using Equal Weighted Average of DSIHE and CLAHE.

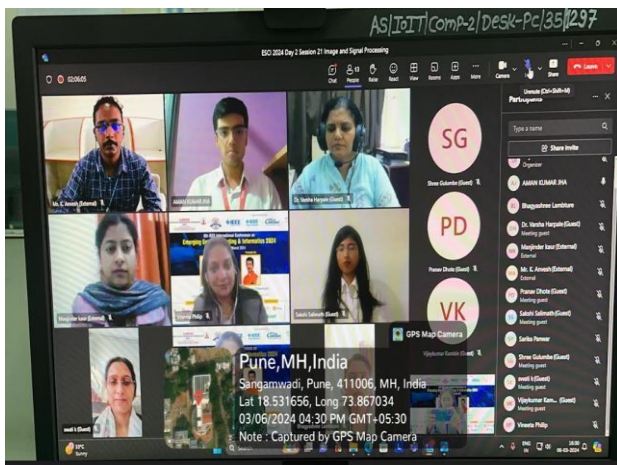

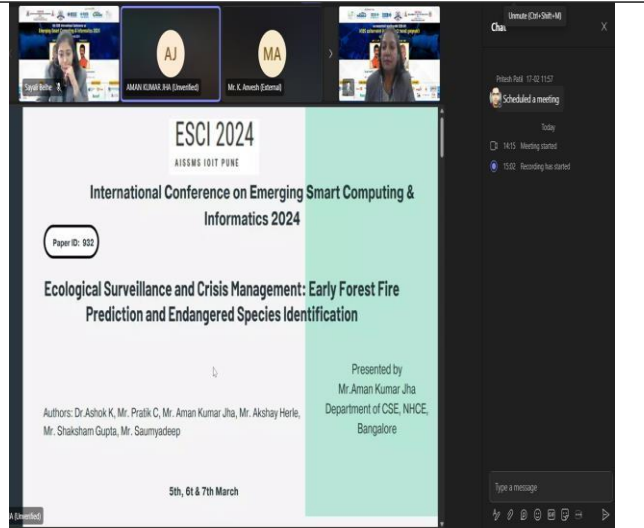

Session Chairs Dr. Megha Wankhade & Mrs. Minal P.Nerkar evaluated the papers based on the parameters: Presentation Quality, Research Contents, Depth of Understanding of subject, Effectiveness, Time Management.

At the end of session, Session Chair conveyed the Best Paper Title.

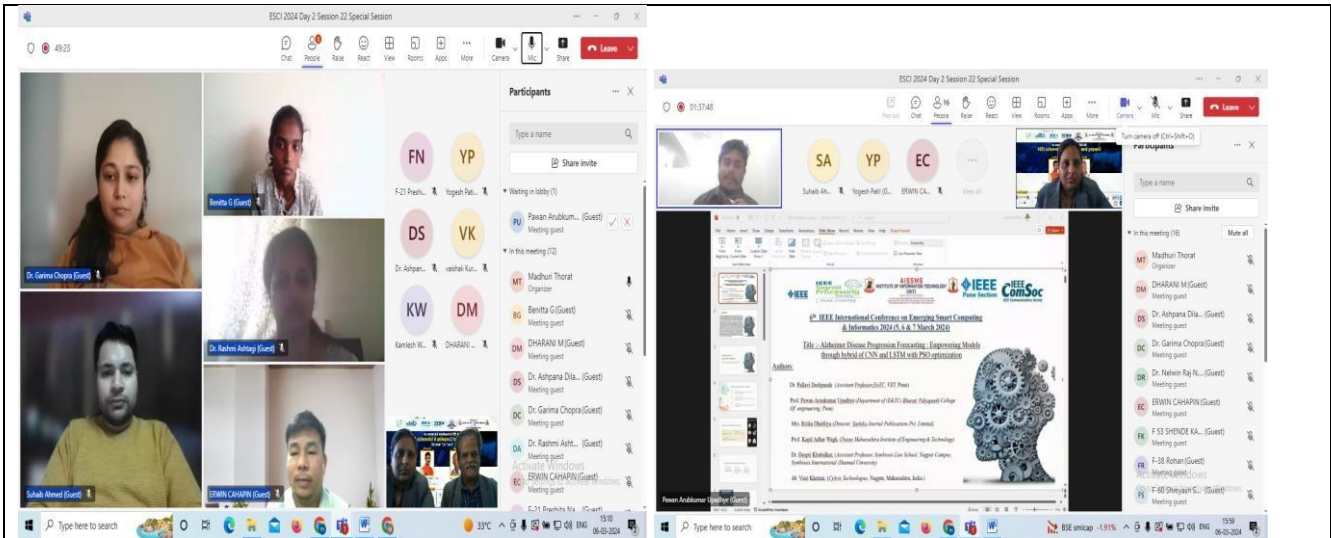

Total no. of Participants- 09

Session-21		
Track – Image and signal Processing		Session Chair 1 Dr. Varsha Harpale Associate Professor PCCOE Session Chair 2: Dr. Vineeta Philip Assistant Professor, ENTC Dept,AISSMS IOIT,Pune
Day: Wednesday	Date: 6/03/2022	Time: 3.00-5.00 PM

Session Chairs Dr. Shrikant Bhopale evaluated the papers based on the parameters: Presentation Quality, Research Contents, Depth of Understanding of subject, Effectiveness, Time Management.

At the end of session, Session Chair conveyed the Best Paper Title.

Total no. of Participants- 07

The screenshot displays a Zoom meeting interface. On the left, a presentation slide is visible with the following text:

International Conference on Emerging Smart Computing & Informatics 2024

Paper Title: Re-cognition I: An inspection of learner's cognitive well-being, pursuant to contemporary period, facilitates the academic life cycle

Paper ID: 1227

Authors:
Sveeth Ganguly, Kailash Patil Mandali, Debasis Guha,
Dr B.C. Roy Engineering College, Durgapur, India,
National Institute of Technology, Durgapur, India,
Dr B.C. Roy Engineering College, Durgapur, India.
Email(s): sveethganguly07@gmail.com, hibi.cse@gmail.com, debasis.guha@bore.ac.in

On the right, a methodology slide is shown with the following content:

Methodology

The study critically examines India's monetary policy in light of the country's macroeconomic performance. We use the Ordinary Least Square (OLS) approach, also known as regression analysis, to examine data obtained from the Central Bank of India and the Ministry of Finance from 2000 to 2020.

Three multiple regression models are used to demonstrate the application of the OLS technique, with the liquidity ratio, money supply, and gold ratio as independent variables in all models and gross domestic product, inflation rate, and balance of payment as dependent variables in models one, two, and three, respectively.

Model 1:

$$GDP = \alpha_0 + \alpha_1 L_1 + \alpha_2 MS + \alpha_3 CR + U_1$$
 Where: GDP=Gross Domestic Product, L_1 =Liquidity Ratio, MS =Money Supply, CR =Cash Ratio, U_1 =Error

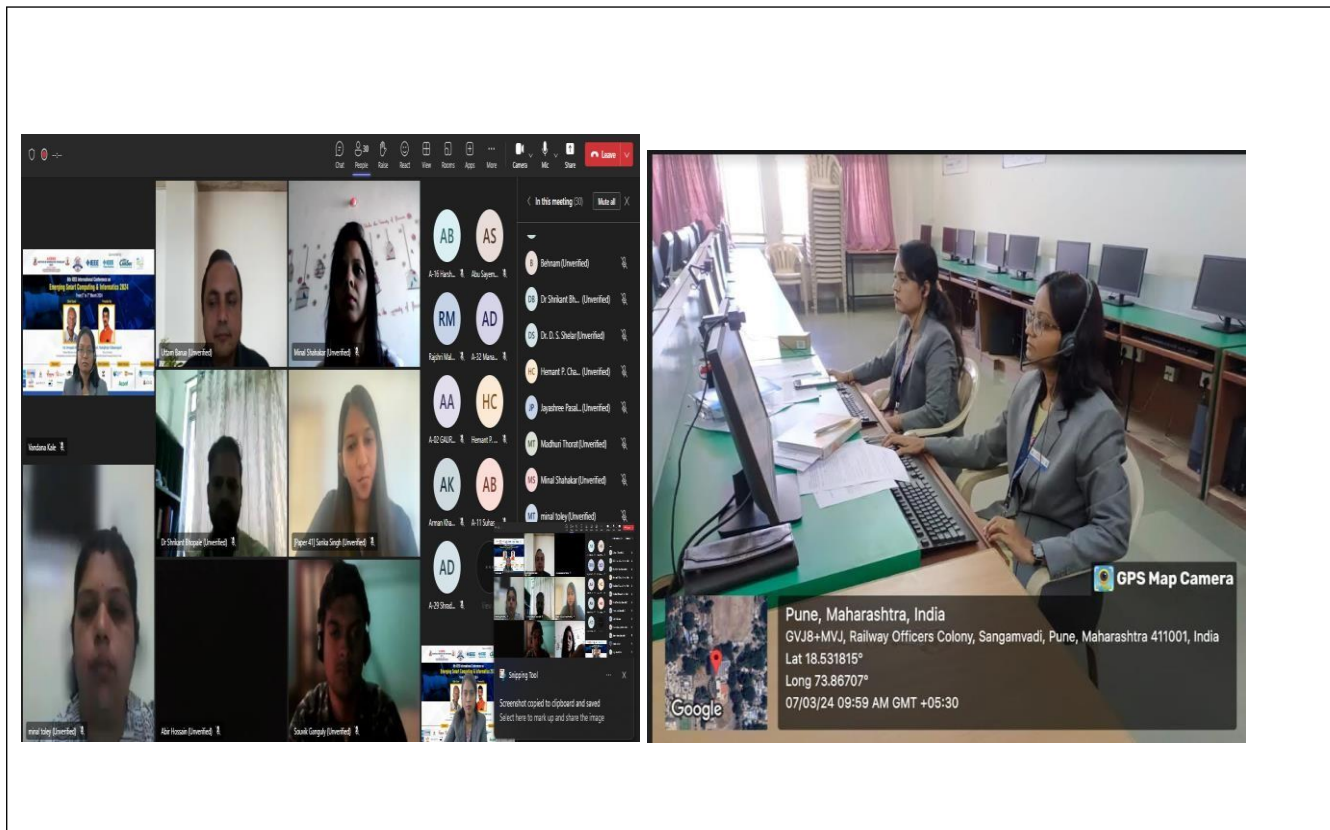

Model 2:

$$IP = \beta_0 + \beta_1 L_1 + \beta_2 MS + \beta_3 CR + U_2$$
 Where: IP =Inflation Rate, L_1 =Liquidity Ratio, MS =Supply of Money, CR =Cash Ratio, U_2 =Error

Model 3:

$$BOP = \gamma_0 + \gamma_1 L_1 + \gamma_2 MS + \gamma_3 CR + U_3$$
 Where: BOP =Balance of Payment, L_1 =Liquidity Ratio, MS =Supply of Money, CR =Cash Ratio, U_3 =Error

The Zoom interface also shows a list of participants on the right side, including Arman Khan, Shrikant Bhopale, Hemant P. Chakraborty, Anshu K. Choudhary, Huzefa Thoral, Anil Shukla, Rajesh Malghe, Souvik Ganguly, Uttam Barua, Vandana Kale, and Yagya.

Session-30

Track - Smart Computing

Session Chair 1 Dr. Bhavana Kanwade

Associate Professor, International Institute of Information Technology Pune

Day: Thursday

Date: 07/03/2024

Time: 10.00-12.00

Session Coordinators-

Abstract of Session/keynote/Special session/tutorial –

Technical Oral Presentation Session 30: Smart Computing was successfully conducted on the second day of 6th IEEE International Conference on Emerging Smart Computing and Informatics (ESCI 2024): 7th March 2024.

Total 7 Papers were presented in this session.

Paper ID: 493: Software Defect Prediction by Logistic Regression with Gradient Descent Cost Computation

Paper ID: 350: Sentiment Analysis from Reviewerâ€™s comments from E-Commerce sites Using A Natural LanguageProcessing

Paper ID: 239: Identification of Sign Language Alphabets on Static Images Using Deep Learning

Paper ID: 346: Enhancing Swipe Typing with Gated Linear Transformer

Paper ID: 223: Comparative Analysis of Outlier Elimination Algorithms on Pulsar Stars Dataset

Session Chairs Dr. Bhavana Kanwade evaluated the papers based on the parameters: Presentation Quality, Research Contents, Depth of Understanding of subject, Effectiveness, Time Management.

AT the end of the session, the Session Chair conveyed the Best Paper Title.

Total no. of Participants- 07

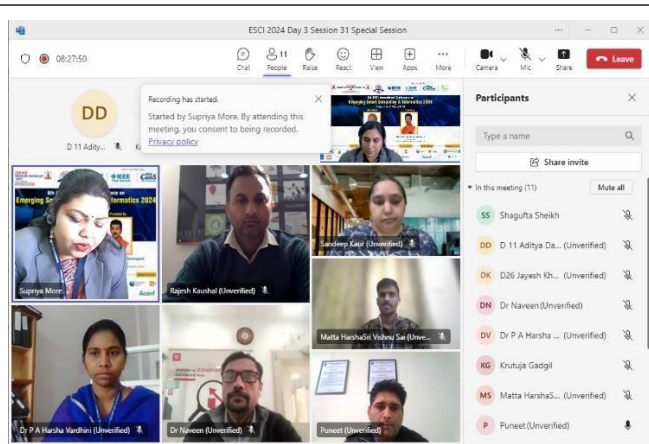

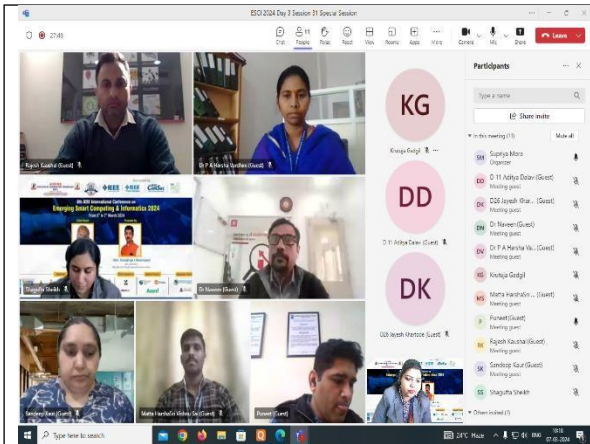

The screenshot shows a Microsoft Teams meeting in progress. The main window displays a slide titled "LITERATURE REVIEW" with the following content:

- Extensive research has been conducted in the field of deep learning and computer vision to recognize sign language.
- Singla and Das focused specifically on recognizing **Indian sign language** in live videos, while Mittal, Manjayan and Gaurav focused on real-time recognition of **Indian sign language** [1, 19].
- Convolutional Neural Networks (CNN) are commonly utilized in image recognition applications due to their ability to effectively understand sign language and extract features from visual signals [24].
- For **Indian Sign Language (ISL)** gestures, the system had an average recognition rate of 83.4% [21, 25].
- Hayani et al. developed an **Arabic sign language** recognition system inspired by the LeNet-5 architecture [2].
- They collected 7389 photos of **Arabic sign language** alphabet and numerical signs.
- When trained on 90% of the dataset, the CNN model achieved an accuracy of 90%.
- Bhatnagar and Xie concentrated on **American sign language** recognition using a mix of CNN, LSTM, and other techniques [5, 18].
- They used RNN to extract temporal information, LSTM to capture longer time relationships, and the Inception CNN model for extracting spatial features.
- Their algorithm had a maximum accuracy of 89% with a dataset of 100 distinct signs made by 5 signers [1].
- Kumar conducted a study where **Linear Discriminant Analysis (LDA)** was employed to develop a system for recognizing 26 hand gestures used in **Indian sign language** [13].
- The preprocessing techniques applied by Kumar included skin segmentation and morphological procedures, followed by feature extraction using LDA [14].

The meeting interface shows several participants in a grid view on the left and a list of names on the right. The top of the screen displays the Microsoft Teams navigation bar and search bar.

The screenshot shows a Microsoft Teams meeting in progress. The main window displays a slide titled "Thank you". The slide content is mostly obscured by a large white rectangle, but the text "Thank you" is visible at the bottom. The meeting interface shows several participants in a grid view on the right and a list of names on the left. The top of the screen displays the Microsoft Teams navigation bar and search bar.

Session-31		
Track – Special Session		External Session Chair Dr. Rajesh Kumar Kaushal and Dr.Naveen Kumar
Day: Thursday	Date: 07/03/2024	Time: 10.00-12.00
Session Coordinators- 1. Dr. Shagufta Mohammad Sayeed Sheikh 2. Ms. Supriya Kumar More	Link- http://tinyurl.com/ESCI-2024-Day-3-Session-31-SPS	
<p>Abstract of Session/keynote/Special session/tutorial – Technical Oral Presentation Session 31: Special Session was successfully conducted on the third day of 6th IEEE International Conference on Emerging Smart Computing and Informatics (ESCI 2024): 7th March 2024. Total 7 Papers were presented in this session. Paper ID:PA_32 : Pioneering Minimalist speech analysis through optimized spectral features by applying machine learning models Paper ID: Rk_07: Fraud Detection and Prevention for a Secure Financial Future Using Artificial Intelligence Paper ID: Rk_08 : Artificial Intelligence-Based Forecasting Market Trends and Guiding Investment Decisions Paper ID: Rk_10 : AI Personalizing Training and Reskilling Employees for the Digital Age Paper ID: Rk_11 : Artificial Intelligence with Streamlining Payments and Lending For a Simpler Financial Ecosystem Paper ID: SR_07 : Energy Aware IRS-Aided Wireless Network for Next-Generation IoT Paper ID: SH_19 : Redefining Security: Unveiling the Vulnerabilities of Captcha Mechanisms using Deep Learning</p> <p>Session Chairs Dr.Rajesh Kumar Kaushal and Dr.Naveen Kumar evaluated the papers based on the parameters: Presentation Quality, Research Contents, Depth of Understanding of subject, Effectiveness, Time Management. AT the end of session, Session Chair conveyed the Best Paper Title.</p> <p>Total no. of Participants- 39</p>		

Valedictory Function

Takeaway from the ESCI -24

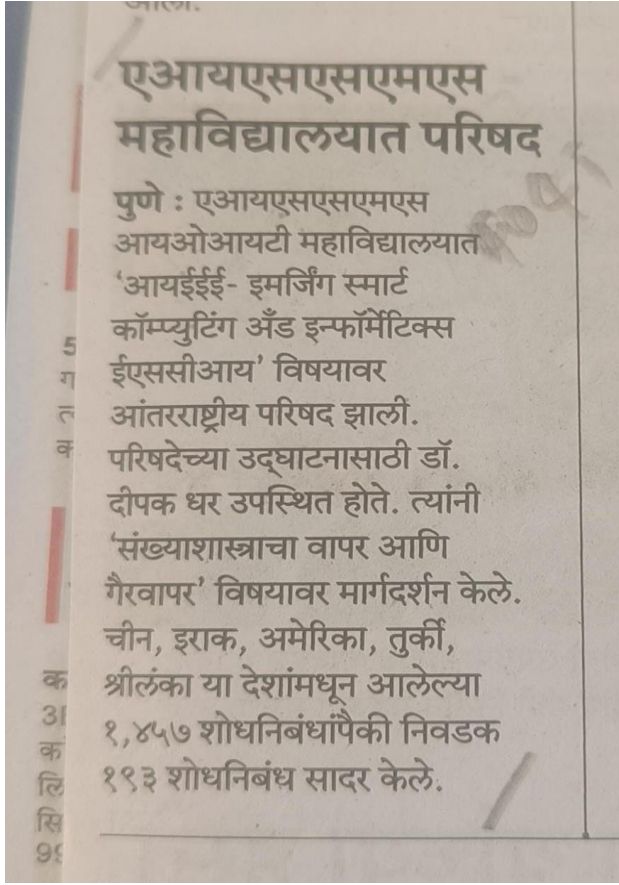

The 6th IEEE International Conference on Emerging Smart Computing and Informatics (ESCI- 2024) offers an exceptional opportunity for academics and industry researchers to showcase their latest algorithms, models, and technologies while exploring new trends and ideas on smart computing and informatics. The conference serves as a common platform for emerging trends in smart computing, networking, communication, signal and image processing, cyber security, and IoT, providing global participants with the chance to share their ideas and experiences with peers from different regions of the world. This gathering is designed to establish a research environment and foster international linkages for future collaboration in their career path.

The conference aims to focus on various modernization and innovation paradigms that can be applied to address practical and creative solutions to diverse issues in society, industry, and the environment. As such, the conference proceedings invite academics and industry researchers to submit papers explaining literature review, problem statement, methodologies, and appropriate results, which are then reviewed by experts. The selection process is based on the significance and innovation of the content, originality, and unpublished quality work. Accepted and presented papers will be published in the IEEE Explore digital library.

Moreover, the conference also invites special topics, tools, and applications in multidisciplinary areas with keynote and tutorial sessions conducted by expert academicians and professionals. The main focus of this conference is on emerging techniques required for smart computing and informatics, providing a unified platform for advanced and multi-disciplinary research towards the design of smart computing and informatics.

The theme of this conference is centered on various innovation paradigms in system knowledge, intelligence, and sustainability, which can be applied to provide realistic solutions to a variety of problems in society, environment, and industries. The scope of the conference is also extended towards the deployment of emerging computational and knowledge transfer approaches, optimizing solutions in various disciplines of science, technology, and healthcare. Overall, the 6th IEEE International Conference on Emerging Smart Computing and Informatics promised to be an exciting and enlightening platform for professionals in this field.

स्मार्ट कम्प्युटिंग, इन्फॉर्मेटिक्स
विषयावर आंतरराष्ट्रीय परिषद

लोकमत न्यूज नेटवर्क
पुणे : ऑल इंडिया श्री शिवाजी
मेमोरियल सोसायटीच्या
आयओआयटी महाविद्यालयात
"धव्या आयईईई आंतरराष्ट्रीय परिषद-
इमर्जिंग स्मार्ट कॉम्प्युटिंग अँड
इन्फॉर्मेटिक्स-ईएससीआय-२०२४ या
विषयावरील ६ वी आंतरराष्ट्रीय परिषद
नुकतीच पार पडली.

पद्मभूषण डॉ. दीपक धर यांच्या हस्ते
उद्घाटन झालेल्या या परिषदेत त्यांनी
'संख्याशास्त्राचा वापर आणि गैरवापर'
या विषयावर उपस्थितांना मार्गदर्शन
केले. याप्रसंगी सोसायटीचे मानद
सहसचिव सुरेश शिंदे, अजय पाटील,
अभिजीत खुरपे, प्राचार्य डॉ. पी.बी. माने,
आयईईईचे डॉ. अमर बुचडे, डॉ. विवेक
देशपांडे, जगदीश चौधरी डॉ. एम. ए.

थलोर आदी उपस्थित होते.
सोसायटीचे मानद सचिव मालोजीराजे
छत्रपती, इस्रोच्या स्पेस ऑप्लिकेशन
सेंटरचे संचालक नीलेश देसाई यांनी
परिषदेला आपला संदेश पाठविला. या
परिषदेमध्ये स्मार्ट कॉम्प्युटिंग, इंटरनेट
ऑफ थिंग्ज आणि इमेज आणि सिग्नल
प्रोसेसिंग या तीन ट्रॅकसह ६ प्री-
कॉन्फरन्स ट्युटोरियल्स आणि १४
विशेष सत्रे होती.

या परिषदेसाठी जगभरातून जसे की
चीन, इराक, यूएसए, तुर्की, श्रीलंका
आदी देशांद्वारे एकूण १४५७ शोधनिबंध
प्राप्त झाले होते. त्यापैकी निवडक १९३
शोधनिबंध सहभागींनी सादर केले.
कार्यक्रमाचे सूत्रसंचालन डॉ. सुरेश
लिमकर यांनी केले तर आभार सबा
शेख यांनी मानले.

ESCI 2024 PLAGIARISM SUMMARY REPORT

Sr. No.	Paper ID	Paper Title	Plagiari sm	Plag. Status
1.	VY_01	Consolidated Cyber security Framework Along With Auxiliary Methods For Information Technology In Healthcare Systems And Operations	29%	OK
2.	VY_02	Big Data Storage Management For Healthcare Facility Administration Usingno-SQL Databases	19%	OK
3.	VY_03	Cloud Computing Advances: Revealing Versatility, Benefits, And Future Trends	16%	OK
4.	VY_04	Secure And Transparent E-Voting: A Blockchain Solution For Digital World	21%	OK
5.	VY_05	Optimizing Vertical Mobility: Harnessing Machine Learning To Reduce Passenger Wait Times In Elevators	20%	OK
6.	VY_06	Block-Chain-Based Decentralized Finance (Defi) Applications	34%	NOT OK
7.	VY_07	Climate Change Impacts Health, Agriculture, Monsoon Patterns, And Prospects Of Carbon Capture Technology	24%	OK
8.	VY_08	Pythonic Secrets Unraveling The Art Of Cryptography	14%	OK
9.	VY_09	Diabetes Prediction Using Machine Learning	17%	OK
10.	VY_10	Digital Filter Design Using Soft Computing Technique	26%	OK
11.	VY_11	Driver Drowsiness Detection System	17%	OK
12.	VY_12	Health Risk Management Using AI	83%	NOT OK

13.	VY_13	Lenet-5 Model For Traffic Signal Classification	46%	NOT OK
14.	VY_14	Optimization Of A Car Rental Business Model To Fulfill The Demand With Better Value For Money From The Market Insights	16%	OK
15.	VY_15	Enhancing Elevator Efficiency Machine Learning For Minimizing Passenger Wait Times	16%	OK
16.	VY_16	Sipsmart Elevating Palates With Machine Learning For Wine Quality Prediction	24%	OK
17.	VY_17	Virtual Reality (VR) In Work Environment For Stress Reduction	28%	OK
18.	VY_18	A Circularly Polarized 2x2 Element MIMO Antenna With Dual Band For V2X Applications	19%	OK
19.	IW 01	Transfer Learning Based Breast Cancer Prediction Using Ultrasound Images	46%	NOT OK
20.	IW 02	Bidirectional Sign Language Assistant With Mediapipe Integration	18%	OK
21.	IW 03	Classification Of Gastrointestinal Diseases From Endoscopic Images Using Convolutional Neural Network With Transfer Learning	42%	NOT OK
22.	IW 04	Context-Aware Ranking Based Restaurant Food Recommendation System	15%	OK
23.	IW 05	Discover Image Restoration: Analysis And Novel Architectural Proposal	34%	NOT OK
24.	IW 06	Emergency Vehicle Classifier: Real-Time Detection And Classification Using Deep Learning.	26%	OK
25.	IW 07	Harnessing Deep Learning For Accurate	37%	NOT OK

		Heart Disease Diagnosis		
26.	IW 08	Exploring Intrusion Detection Approaches In Smart Home Environments: A Comprehensive Review	17%	OK
27.	IW 09	Cached-N-Proxy: An Intelligent Proxy Algorithm For Preventing Insider Email Threats To Mail Servers	6%	OK
28.	IW 10	Publicly Verifiable Boolean Query Over Outsourced Encrypted Data	73%	NOT OK
29.	IW 11	Malware Analysis Using Machine Learning With Semantic Behaviors	8%	OK
30.	IW 12	Real-Time People Counting Using Opencv	11%	OK
31.	IW-13	Machine Learning And AI Tool Predicts Parkinson Disease	64%	NOT OK
32.	SR_01	Revolutionizing Intelligent Reflecting Surfaces: Deep Learning-Driven Channel Estimation	31%	NOT OK
33.	SR_02	Design And Performance Evaluation Of A Pressure Swing Zeolite Oxygen Concentrator	28%	OK
34.	SR_03	Multimodal Sentiment Analysis: Integrating Text And Image-Based Approaches	24%	OK
35.	SR_04	Design And Development Of Bicopter Drone For Surveillance	15%	OK
36.	SR_05	Comprehensive Analysis Of Different Boosting Techniques For Attack Detection In Iot Network	33%	NOT OK
37.	SR_06	Abstractive Summary Generation Of Meeting Audio Files	33%	NOT OK

38.	SR_07	Energy Aware IRS-Aided Wireless Network For Next Generation Iot	28%	OK
39.	SR_08	Advancing IRS-Aided Channel Estimation Through Deep Learning	28%	OK
40.	EP01	Design And Fabrication Of Semi-Automatic Vegetable Peeling Machine	10%	OK
41.	EP02	Semi-Automatic Pest Detector & Pesticide Spraying Bot In Hydroponics & Aeroponics Crops	21%	OK
42.	EP03	Low - Cost Power Generating And Discharge Brick	13%	OK
43.	EP04	Oil Pipeline Risk Estimation Using IOT With Deep Learning Network	19%	OK
44.	EP05	Detection And Characterization Of Thyroid Cancer Nodule Using Deep Neural Networks – A Review	48%	NOT OK
45.	EP06	Detection of control valve diagnosis and pipeline Leakage Using Machine Learning	22%	OK
46.	EP07	Brake Pad Monitoring System	3%	OK
47.	EP08	Online Gui Based Frequency Response Analysis Of First Order Bldc Motor	16%	OK
48.	EP09	Performance Comparision Of Indirect Solar Dryer With Electric Dryer In Drying Red Chilli	18%	OK

49.	EP10	Stratifying Dermatological Illnesses Found In India: Non-Invasive Diagnostics Based On Residual Network And Support Vector Machine Integration	21%	OK
50.	EP11	Enhancing Breast Cancer Image Classification: Minimizing Features With Optimized Feature Extraction And Transfer Learning Techniques	29%	OK
51.	EP12	A Circularly Polarized 2x2 Element MIMO Antenna With Dual Band For V2X Applications	19%	OK
52.	EP13	Enhanced Human Activity Recognition: A Context Based Two-Stream Framework For Learning Temporal And Spatial Features	25%	OK
53.	GC_01	Moving Beyond Serverless Edge Computing: Serverless Fog Computing For The Future Iot	20%	OK
54.	GC_02	Assessing Computational Models Of Automatic Video Generation Apps	9%	OK
55.	GC_03	Emoneuro Textanalyzer: A Novel Computational Emotion Model	14%	OK
56.	GC_04	An Investigation Of Load Balancing Algorithms For Cloud Computing	25%	OK
57.	GC_05	A Comprehensive Review Of AI-ML Synergy In Intelligent Digital Twins	32%	NOT OK
58.	GC_06	Efficient Surveillance Video Summarization With Time-Stamped Object Tracking	12%	OK

59.	GC_07	Tracing Missing Person Through Facial Recognition Using Deep Learning	8%	OK
60.	GC_08	Audio Feedback Through Realtime Object Detection Using Yolov5	19%	OK
61.	GC_09	A Novel Approach To Twins Identification And Classification Using Machine Learning	18%	OK
62.	GC_10	Deep Dive In Identifying Vacant Parking Spaces Using Deep Learning	13%	OK
63.	GC_11	Smart Guard: Unraveling Credit Card Fraud Patterns Using Decision Tree And Xg-Boost Algorithms	25%	OK
64.	GC_12	Orthoai Pro: Integrating Ml And Dl For Precise Bone Fracture Detection	19%	OK
65.	GC_13	Revolutionizing Speech And Text Summaries With Enhanced Transformers And Attention Models	14%	OK
66.	GC_14	Chatbot For Legal Issues Using Natural Language Processing	20%	OK
67.	GC_15	Dna Cryptography For Secure Multilingual Cloud Messaging	22%	OK
68.	GC_16	Enhanced Drug Recommendation Framework: Leveraging Sentiment Analysis In Drug Reviews Through Machine Learning	20%	OK
69.	GC_17	Neural Chirps: A Multi-Modal Approach To Bird Species Identification Via Audio Signal Processing And Deep Learning	21%	OK
70.	GC_18	Hand Gesture Recognition And Text-To-Gesture Generation System Using Vgg-16	19%	OK
71.	GC_19	Relaxify: Stress Detection And Relaxation Assistant Using Machine Learning &	7%	OK

		Image Processing		
72.	GC_20	Automatic E-Challan Generator System For Non Helmet Riders Using Yolov8	16%	OK
73.	GC_21	Smart Rice Qc: Integrating Cnn And Bi-Lstm For Precise Rice Quality Analysis	21%	OK
74.	GC_22	Rnn-Based Wildlife Hazard Detection And Human Warning System	22%	OK
75.	GC_23	Intelligent Driver Monitoring System Using Visual Behavior And Machine Learning For Drowsiness Detection	10%	OK
76.	GC_24	Efficient Detection Of Brain Stroke Using Deep Learning Techniques: A Novel Approach efficient Detection Of Brain Stroke Using Deep Learning Techniques: A Novel Approach	18%	OK
77.	GC_25	A Question Answering System Application Integrated With Chatbot Using Nlp	18%	OK
78.	GC_26	Moving Target Detection Using Deep Learning	32%	NOT OK
79.	GC_27	Lightsee: Remote Street Light Operator Using Iot And Web Technologies	19%	OK
80.	GC_28	Enhancing Modular Construction Safety And Efficiency: An Integrated Approach For Structural Health Monitoring In BIM	27%	OK
81.	GC_29	Intellifog Machine Architecture For Fog Computing Using Machine Learning Models	34%	NOT OK

82.	GC_30	Semantic Text Representation For Improved Machine Learning In Information Retrieval	17%	OK
83.	GC_31	Cross-Domain Text Classification: Transfer Learning Approaches	17%	OK
84.	GC_32	Enhancing Credit Card Fraud Detection: Hybrid ML Techniques And Data Mining Applications	33%	NOT OK
85.	GC_33	Improving MNIST Digit Recognition Through Ensemble Learning	20%	OK
86.	GC_34	Statistical Analysis Of Optimization Techniques Used For Maximizing PV Panel Performance: An Empirical Perspective	24%	OK
87.	GC_35	Sentiment Analysis In Social Media: A Machine Learning Perspective	13%	OK
88.	GC_36	Natural Language Processing For Text Mining: Leveraging Linguistic Features For Classification	13%	OK
89.	GC_37	Exploring Machine Learning's Role In Intrusion Detection Systems For Network Security	28%	OK
90.	GC_38	Investigating Data Augmentation Effects On DL For Plant Disease Detection In Plantvillage Dataset	28%	OK
91.	GC_39	Systematic Analysis Of Machine Learning For Medical Image Diagnosis	28%	OK
92.	GC_40	Detecting Network Anomalies With Machine Learning And Deep Learning	29%	OK
93.	GC_41	ML Methods For Detecting Anomalies In Industrial Control Systems	28%	OK
94.	GC_42	Alzheimer Disease Progression	29%	OK

		Forecasting: Empowering Models Through Hybrid Of CNN And LSTM With PSO Optimization		
95.	GC_43	A Comprehensive Analysis Of The Security Challenges And Opportunities Associated With The Rapidly Growing Iot Ecosystem	14%	OK
96.	GC_44	Addressing The Unique Security Challenges Of Cloud Computing Environments And Developing Strategies To Protect Sensitive Data And Applications In The Cloud	9%	OK
97.	GC_45	Examining The Risks And Vulnerabilities Of Critical Infrastructure Systems In Power Grids And Developing Strategies To Protect Them From Cyberattacks	13%	OK
98.	GC_46	Examining The Risks And Vulnerabilities Of Critical Infrastructure Systems In Healthcare Facilities, And Developing Strategies To Protect Them From Cyberattacks	11%	OK
99.	GC_47	Cybersecurity Challenges In The Agriculture Industry Amidst The Rise Of Smart Farming Technologies	19%	OK
100.	GC_48	Application Of Multi-Criteria Decision-Making In Health Care Towards Various Disease Prediction	19%	OK
101.	GC_49	An Early Detection Of Parkinson's Disease Using Machine Learning And Deep Learning Models	33%	NOT OK
102.	GC_50	Optimizing Breast Cancer Prediction: A Multimodal Dataset Approach With Xgboost	22%	OK

103.	GC_51	5G-LRVN: Latency Reduction Framework For Vehicular Networks Using SDN And Fog Computing	35%	NOT OK

126	286	Ensemble Machine Learning Models to Forecast Sales	25%	3%	OK
127	289	Non-Invasive Glucose Measurement using Machine Learning	26%	1%	OK
128	290	Machine Learning for Non-Invasive Blood Sugar Monitoring	26%	1%	OK
129	291	ENERGY EFFICIENT RESOURCE UTILIZATION IN CLOUD FOR A GREEN ENVIRONMENT	69%	57%	NOT OK
130	295	University Schedule Generator	25%	2%	OK
131	296	Time series forecast with stock's price candlestick patterns and sequence similarities	16%	6%	OK
132	300	A Survey On Indoor Navigation Using Augmented Reality	19%	3%	OK
133	301	Enhanced Pneumonia Detection using ResNet-50 and Fuzzy Logic Integration	19%	2%	OK
134	302	Prediction of Alzheimer's disease using Machine Learning Algorithms: A Comparative Analysis	25%	4%	OK
135	303	A Comparative Analysis of Customer Churn Prediction Models in Python Using Scikit-Learn	16%	5%	OK

136	304	Comparative Study for Performance Analysis of Machine Learning Algorithms for Survival of COPD Patients	43%	11%	NOT OK
137	305	Analysis of Hyper-Threading Technology Using On-die Performance Monitoring Counters	10%	1%	OK
138	307	DOstG Friendship with the Voiceless	14%	6%	OK
139	309	Analysis of Machine Learning Models for Stock Market Prediction	20%	1%	OK
140	310	Annotating Fashion Images and Scraping Similar Products Over Web	11%	1%	OK
141	311	Recommendation for Jobs And Resume Analyzer Using NLP	11%	3%	OK
142	312	ANN Based Approach for Electricity Theft Detection in Single Phase Energy Meters	17%	9%	OK
143	313	Brain-Computer Interfaces in Assistive Technology and Rehabilitation	26%	3%	OK
144	316	Image-Based Oral Disease Detection: A Convolutional Neural Networks Approach	16%	5%	OK
145	318	Augmented Reality based Indoor navigation Using A* Algorithm and Unity	29%	5%	OK
146	319	Business Response Prediction based on Consumer Behaviour Patterns	19%	2%	OK
147	321	Prediction of Diabetes Mellitus Disease Using Supervised Machine Learning Models	24%	4%	OK
148	323	A Fuzzy Trust Model for Ethereum Blockchain	18%	5%	OK
149	325	Enhancing Identity Security With Self-Sovereign Identity And Blockchain: An Implementation Approach	19%	4%	OK
150	326	Deep Learning Classification on Early Detection of Pancreatic Cancer Using CT Scan	19%	6%	OK
151	327	Diet Plan and Home Exercise Recommendation system using Smart Watch	24%	2%	OK

152	328	Predictive Modeling for Custom Motorcycle Pricing: A Machine Learning Approach	24%	3%	OK
153	329	From Text to Treatment: An Overview of Artificial Intelligence Chatbots in Healthcare	34%	9%	OK
154	330	A Dual-Action Approach to Mosquito Control: Harnessing Mosquitoes Affinity for Light with Metofluthrin's Lethality	12%	1%	OK
155	332	A survey on tiered memory architectures and learned memory access strategies to study the feasibility of their intersection	17%	10%	OK
156	336	Advancements in Machine Learning for Sugarcane Yield Prediction: A Comprehensive Review	26%	3%	OK
157	341	Predictive Modeling for Urban Air Quality: A Machine Learning Comparison Study	16%	3%	OK
158	342	Review on Question Paper Generator And Analysis	23%	3%	OK
159	345	Wi-Fi Inter-Network Simulation and Performance Analysis Using QualNet	7%	1%	OK
160	346	Enhancing Swipe Typing with Gated Linear Transformer	20%	2%	OK
161	350	Sentiment Analysis from Reviewer's comments from E-Commerce sites Using A Natural Language Processing	29%	7%	OK
162	351	Anti Keylogger Software: Analysis of cybercrimes using Artificial Intelligence	5%	1%	OK
163	352	An Efficient Method for Predicting Sepsis using Light Gradient Boosting Machine Classifier in Comparison with Multi-Layer Perceptron Classifier	43%	10%	NOT OK
164	353	A Novel AlexNet Stochastic Gradient Descent algorithm for Sign Language Recognition using the Indian language dataset with improved accuracy and comparison over Stochastic Gradient Descent Algorithm	42%	14%	NOT OK

165	354	Performance Analysis of Enhanced XGBoost Algorithm and Decision Tree Regression for Prediction of Mobile Price	39%	5%	NOT OK
166	356	Accuracy Of Fetal Head Examination of an Ultrasound Image Using Level Set and Active Contour	48%	14%	NOT OK
167	357	Efficient Prediction of Email Spam Using Novel Recurrent Neural Network Compared Over Convolutional Neural Network with Improved Accuracy	52%	22%	NOT OK
168	361	Comprehensive Exploration of the Role of Graph Databases like Neo4j in Cyber Security	13%	1%	OK
169	362	Temper Proof Vaccine Distribution Records Using Block Chain Technology	14%	2%	OK
170	364	Automative Feedback System for Descriptive Answers in LMS using Machine Learning Algorithim	20%	2%	OK
171	365	Digital Transformation in B2B Destination Management Companies: An Intuitive Django Web Application	13%	1%	OK
172	366	Applying Several Machine Learning Models to Tuberculosis Dataset and Evaluating the Results Based on Models Accuracy	47%	21%	NOT OK
173	369	ADVANCED MACHINE LEARNING CRYPTO PRICE PREDICTION AND SIMULATION TRADING	17%	2%	OK
174	370	A Survey on Information Retrieval: Candidate Shortlister For Recruitment Process	47%	4%	NOT OK
175	373	An Efficient Irrigation Prediction for Intelligent Farming System	20%	2%	OK
176	377	Obsrvi- Study Of System Observability and Performance Analysis Tool Paper	22%	2%	OK
177	378	A Secure Data Sharing and Authorized Searchable Framework	52%	42%	NOT OK
178	380	Tamper-Proof Vaccine Distribution Records	18%	3%	OK

179	382	Crop disease detection and diagnosis	31%	8%	NOT OK
180	384	Utilizing Bayesian Networks to Augment Decision Making for Dengue Outbreak Response in Public Health Systems	22%	4%	OK
181	387	A Domain-Adapted Machine Learning Technique for Visualizing Robotic Skills	41%	21%	NOT OK
182	388	Deep Learning Approach for Diagnosis of Epilepsy on Electroencephalogram	17%	2%	OK
183	391	Machine Learning Based Decision Trees for Energy Meter Inspection in Power Sector	13%	1%	OK
184	394	To design and implement application for bank customer churning rate prediction and analysis using machine learning Algorithm.	21%	2%	OK
185	396	WorkHub: ML Based System For Client And Worker	19%	5%	OK
186	397	FGSM Variants in White Box Settings: A Comparative Study	40%	6%	NOT OK
187	400	Comparing the Accuracy of Support Vector Machine and Random Forest Algorithms in Predicting Road Accidents	13%	2%	OK
188	402	Hate Speech: A Comprehensive Study on Machine learning Detection Techniques	28%	4%	OK
189	406	Agronomic Algorithms: Decentralizing Jute Disease Detection with Federated CNNs	15%	1%	OK
190	408	Speech Emotion Recognition Using LSTM Model	26%	3%	OK
191	409	Fake Review Detector	22%	4%	OK
192	414	An Extensive Diagnosis System of Early depression symptoms Using Machine Learning Algorithm	24%	2%	OK
193	415	CLASSIFICATION OF HEART DISEASE PREDICTION USING MACHINE LEARNING ALGORITHM	36%	17%	NOT OK
194	416	“Samiksha”- A Book Review System	14%	2%	OK

195	417	Next-Gen Chatbot Experiences: A Cloud-Based Approach with Amazon Lex	15%	3%	OK
196	418	Development of Online Rent Based Web Application.	26%	7%	OK
197	419	A study on the Indian consumers' attitude regarding banking in the metaverse	16%	1%	OK
198	420	Exploring the challenges in implementing blockchain in the supply chain	18%	2%	OK
199	421	Regression-Based Analysis of Multimodal Single-Cell Data Integration Strategies	30%	5%	OK
200	427	Engineering College Admission Predictor Using Bagging Ensemble Modelling	19%	10%	OK
201	439	Real Estate Cost Prediction Through Web Application Using Random Forest Machine Learning Algorithm and Python Flask	34%	13%	NOT OK
202	441	Reinforcement Learning Through Human Feedback	18%	2%	OK
203	442	Enhancing Cloud Security: A Study on Optimized Key Generation for Authentication	11%	1%	OK
204	443	Blockchain-Backed Citizen Feedback Platform	7%	1%	OK
205	444	Minutes of Meeting Generation for Online Meetings Using NLP & ML Techniques	14%	1%	OK
206	448	Transparent Charity Application using Blockchain	12%	2%	OK
207	451	Smart Communication by Speech Processing in Land Armored Vehicles using Node Computer	10%	1%	OK
208	454	Blockchain Based Land Registry System	21%	9%	OK
209	457	Effective and Automatic Summarization of Scientific Papers using Deep Learning Approach	16%	2%	OK
210	460	TrustyTrace: Supply Chain Management Application using Blockchain	8%	2%	OK
211	461	NFT art marketplace using blockchain	10%	5%	OK

212	464	Cached-N-Proxy: An Intelligent Proxy Algorithm for Preventing Insider Email Threats to Mail Servers	6%	1%	OK
213	465	Tender Allocation System Using Blockchain	11%	2%	OK
214	466	Length Controlling Abstractive Text Summarization using Greedy Approach	43%	3%	NOT OK
215	469	Precise customer Targeting using ML	16%	2%	OK
216	476	Harnessing Big Data Analytics for Sustainable E-Waste Management: A Comprehensive Study on Energy Optimization, Waste Reduction, and Environmental Monitoring	12%	1%	OK
217	477	Quick Seva : An Emergency Application	13%	2%	OK
218	478	E-Voting system using Blockchain	26%	3%	OK
219	479	Accelerate Ambulance Routing using Infotainment System	7%	4%	OK
220	480	An innovative way to increase the speed and efficiency of reverse mapping of Elliptic Curve Points	24%	4%	OK
221	485	Personalized Artificial Intelligence Enhanced Learning Platform	10%	1%	OK
222	486	SDN-enabled Smart Building Energy Management for Hybrid Solar-Geothermal Integrated System	16%	1%	OK
223	487	Reliable and Stable Routing in VANET using Multi-Objective Function Aided K-Means Clustering with Advanced Pelican Optimization Algorithm	16%	1%	OK
224	488	Human Disease Prediction Using Machine Learning	30%	4%	OK
225	490	Leveraging Seaborn and XGBoost for Customer Analysis and Early Dissatisfaction Detection	9%	1%	OK
226	493	Software Defect Prediction by Logistic Regression with Gradient Descent Cost Computation	28%	1%	OK
227	495	DataSafeHealth	17%	3%	OK
228	497	Abnormal gesture perception for Cognitive disorder using AI-ML	29%	4%	OK

229	500	Unmasking Disinformation: Fake News Detection using Machine Learning Techniques	30%	1%	OK
230	501	AKSHAR: Text Processing Tool	18%	1%	OK
231	502	Brain Tumour Classification using Machine Learning Algorithms	39%	19%	NOT OK
232	506	Machine Learning Approach To Android Malware Detection	27%	10%	OK
233	507	Blockchain-Based Renewable Energy Certificates (RECs)	12%	2%	OK
234	512	Predicting Employee Productivity using Random Forest an Analysis of the Relationship between Internet Usage and Work Performance	25%	3%	OK
235	513	Forecasting of a University Graduate School Enrolment using Regression Analysis Model	31%	5%	NOT OK
236	514	Identifying At-Risk Students: A K-Means Clustering Approach for Early Detection and Prevention of Possible Undergraduate Dropouts	28%	7%	OK
237	516	Evolution of methodologies and comparative analysis of different development paradigms	29%	11%	OK
238	518	Heritage Identification of Monuments using Deep Learning Techniques	18%	5%	OK
239	519	AI-Powered Automated Wheelchair based on Lane Detection with Gesture, Voice, and Face Recognition	23%	3%	OK
240	522	Detection and Analysis of Criminal Profiles using Artificial Intelligence.	25%	11%	OK
241	524	Android App for People with IDD to Report Abuse	20%	4%	OK
242	526	Be My Eye (Third Eye For Blind People)	13%	1%	OK
243	529	SCSYGPS : Students Course-wise, Semester-wise and Year-wise Grade Prediction System in Education Sector using Supervised Learning	33%	2%	OK
244	530	Recommending the Rules related to Course Grades in Education Sector using SKCAAR Algorithm	23%	5%	OK

245	531	Predictive Modeling of Polymer properties from Polymer Genomic Data using Machine Learning Approaches	22%	2%	OK
246	532	The Future of Crop Health: CNN-Based Smut Disease Detection in Sugarcane	20%	3%	OK
247	538	Predictive Modeling for Student Placement in Educational Institutes	16%	4%	OK
248	540	Title: Cyber-Physical Systems: Bridging the Gap between Computing and the Physical World	2%	1%	OK
249	541	Enhanced Pothole Detection in Road Condition Assessment Using YOLOv8	23%	2%	OK
250	542	Reverse Prompt Engineering in Coding Paradigms	4%	1%	OK
251	543	Enhanced Transformer: Knowledge Tracing with Incorporation of Temporal Features	23%	3%	OK
252	544	Revolutionizing Smart Computing: Trends in Intelligent Data Analytics	7%	1%	OK
253	545	Ethical Considerations in the Era of Smart Computing and Big Data	17%	2%	OK
254	547	Sign Language Detection System With Text to Speech Conversion	17%	5%	OK
255	548	Who is Influencing Research in Deep Learning? A Bibliometric Study of Top 100 Research Papers	27%	3%	OK
256	549	Cross-Dialect Sentence Transformation: A Comparative Analysis of Language Models for Adapting Sentences to British English	96%	93%	NOT OK
257	550	A Novel Outline on Legal Documentation Assistant for General Public using Convolutional Neural Network	25%	2%	OK
258	551	AI-Optimized Eco-Charge Regeneration Technology in EV	16%	2%	OK
259	552	Machine learning algorithms for prediction of stock market: A systematic literature review	25%	7%	OK

260	555	SMART STREET LIGHT SYSTEM USING BLOCKCHAIN	14%	10%	OK
261	556	Deep Learning Based Classification of the Big Four Snake Species Using Visual Features	16%	2%	OK
262	558	Smart Farming: Integrated Federated Learning CNNs for Brinjal Leaf Disease Detection	15%	2%	OK
263	559	Severity Stratification of Brinjal Leaf Diseases: A Federated Learning CNNs Approach	19%	2%	OK
264	560	Transformative Diagnostics: The Rise of Federated Learning CNNs in Papaya Leaf Disease Detection	13%	2%	OK
265	561	A New Age for Agricultural Diagnostics: Federated CNN for Papaya Leaf Diseases	16%	2%	OK
266	565	Analyze Cyber Attack Detection & Prediction Using Machine Learning Algorithms	98%	95%	NOT OK
267	568	HealthVault: A Blockchain-based Patient Health Records Management System	18%	2%	OK
268	573	YOLOv3 Based Deep Learning Model for Weapon Detection	22%	4%	OK
269	574	Enhancing College Engagement: A Multimedia-Enriched Website for IET, Lucknow	13%	2%	OK
270	579	Preventing 51% Attacks in Blockchain Networks: A Deep Dive into Novel Defence Mechanism	21%	9%	OK
271	580	Eye tracking-based wheelchair control and SOS system	17%	6%	OK
272	583	NFTCert: Streamlining Certificate Creation and Verification with Blockchain and NFTs	12%	1%	OK
273	585	Almond Leaf Diagnostics: Federated Learning and CNN for Accurate Disease Prediction	19%	3%	OK
274	586	Innovative Severity Assessment of Almond Leaf Diseases using Federated Learning CNNs	19%	2%	OK

275	588	Sports Match Video to Text Summarization using Neural Network	18%	2%	OK
276	592	Stock Market Prediction Using Machine Learning	22%	9%	OK
277	593	CommuteEZY: Optimized Commute Occupancy Monitoring Platform	8%	2%	OK
278	594	An In-Depth Investigation into Automatic Dubbing leveraging ASR, Machine Translation and Deep Voice 3	20%	4%	OK
279	595	Airline Passenger Satisfaction Prediction Using Machine Learning Techniques	16%	2%	OK
280	597	Machine Learning for Cardiovascular Disease Prediction: A Comparative Analysis of Models	16%	1%	OK
281	603	A Review on Cyberbullying Detection on Twitter	18%	2%	OK
282	604	Elevating Aloe Vera Leaf Disease Detection through Federated Learning CNNs	16%	3%	OK
283	605	Precision Agriculture: Federated Learning CNNs Aloe Vera Leaf Disease Analysis	14%	2%	OK
284	608	Blockchain-Based Document Generation And Verification System	20%	14%	NOT OK
285	627	ChatVerse: Connect through voice, video and text channels	10%	1%	OK
286	629	Ingenious Waste Management: Implementing Machine Learning in Waste Segregation	18%	3%	OK
287	630	DDoS Attack Classification on Cloud Environment Using Machine Learning Techniques	23%	4%	OK
288	631	An Investigation on the level of Customer Satisfaction with E-Banking Services with a special focus on the Delhi - NCR Region.	23%	8%	OK
289	633	An Investigation on the level of Customer Satisfaction with E-Banking Services with a special focus on the Delhi - NCR Region.	30%	19%	NOT OK

290	635	Review of Detection of DDoS attack using Machine Learning Techniques	26%	2%	OK
291	636	A simplistic approach for Movie Recommendation Systems	39%	10%	NOT OK
292	644	Sentiment Analysis of Social Media Comments	25%	3%	OK
293	646	Adaptive Linux OS Theme Selection using Deep Learning for User Mood Enhancement	23%	2%	OK
294	647	Comparative Analysis of TF-IDF and BERT for Resume-Job Description Matching: A Deep Dive into Traditional and Neural Approaches	13%	2%	OK
295	650	SpireMetrics: An Integrated Approach for Student Feedback Analysis and Sentiment Prediction	15%	1%	OK
296	651	CogniVisio: Fusion Image Classifier	10%	2%	OK
297	652	Advancing NLP for Punjabi Language: A Comprehensive Review of Language Processing Challenges and Opportunities	15%	2%	OK
298	653	Semantic Segmentation and Survival Prediction of the Brain Tumor MRI using Deep Learning Technique	19%	2%	OK
299	655	A Bibliometric Analysis of Machine Translation and Different Evaluation Metrics for Indian Languages (1993-2023)	29%	3%	OK
300	656	Two way paging	12%	10%	OK
301	657	Fault-tolerant systems	14%	10%	OK
302	659	Prediction of Heart Disease by using Machine Learning Algorithms	27%	3%	OK
303	660	Machine Learning Technologies for Cardiovascular Diseases Early Identification	25%	8%	OK
304	661	Metabolic Syndrome Prediction using Machine Learning	34%	10%	NOT OK
305	664	The Age and Gender Detection using Deep Convolution Neural Network	28%	2%	OK
306	665	Handwritten Digits Prediction System using Convolution Neural Network for MINIST Dataset	21%	3%	OK

307	667	DIABETES MONITORING SYSTEM USING ML	11%	2%	OK
308	668	An AI –Based Supply Chain Management Optimization	44%	33%	NOT OK
309	671	Machine Learning Based IPL Fantasy Cricket Dream11 Best Team Prediction	15%	1%	OK
310	673	Stock Market Prediction Using Machine Learning	22%	11%	NOT OK
311	676	Role of Non Fungible Tokens in Transforming Academic Credentials for Trust and Transparency	14%	1%	OK
312	677	Enhancing Mobile Roommate Matching with Artificial Intelligence: A Progressive Framework	9%	1%	OK
313	685	Evaluating the Effectiveness of CRM Systems Through Management Information Systems	7%	1%	OK
314	686	Enhanced Footstep power generation system with RFID charging capabilities	22%	5%	OK
315	688	Campus Vehicle Monitoring and Alert System	1%	1%	OK
316	689	Design and Development of GAN Model for Video Frame Interpolation	28%	3%	OK
317	691	A Novel Approach for Congestion and Interference Management through Channel Assignment Optimization in Wireless Networks			
318	692	An Innovative Dynamic Method of Multiple Users Log Analysis	24%	3%	OK
319	693	Computational Paradigm for Advancing Lung Cancer Drug Discovery	15%	3%	OK
320	695	Utilizing Python-based data analytics for drug discovery in the context of Diphtheria – Guinea	12%	7%	OK
321	697	Brain Tumour Image Segmentation Using Deep Networks	56%	34%	NOT OK

322	702	A Systematic Review of Frequent Itemset Mining Algorithms and Their Capabilities	16%	3%	OK
323	705	CTC-CNN-Bidirectional LSTM based Lip Reading System	14%	2%	OK
324	707	Music Recommendations using Facial Emotion Detection	17%	5%	OK
325	710	Cloud-Powered Blockchain: A Survey on Ensuring Data Integrity with Ethereum's Wallet	15%	1%	OK
326	711	Intelli-diet monitoring system using pedometer sensor in android	12%	4%	OK
327	715	Tuna Search-Based Hyperparameter Optimization for Ensemble Classifier in IoT Intrusion Detection	9%	1%	OK
328	717	Electronic Voting System Using Blockchain	33%	27%	NOT OK
329	718	Securing Digital Transactions: Innovation in Online Payment Fraud Detection	48%	40%	NOT OK
330	719	Prediction of Kyphosis Disease Using Random Forest and Gradient Boosting Algorithm	24%	3%	OK
331	721	Temper Proof Vaccine Distribution Record	15%	2%	OK
332	722	Machine Learning based water requirement prediction for agriculture before a rainfall	28%	3%	OK
333	725	ADMISSION PROCESS CHATBOT- ADPRO	29%	7%	OK
334	729	Combating Fake News in the Digital Age: A Review of AI-Based Approaches	18%	1%	OK
335	731	Real time potholes detection and prevention using deep learning techniques	32%	8%	NOT OK
336	734	Revolutionizing Crypto Trading with Web3	14%	2%	OK
337	735	CHATBOT MUSIC RECOMMENDER SYSTEM BY APPLYING AI TECHNIQUES	9%	5%	OK
338	736	Automation of Forensic Artist in Criminal Investigation Using Generative Adversarial Networks (GAN)	96%	96%	NOT OK

339	737	An intellectual virtual assistant system for enhanced independence of blind people	17%	5%	OK
340	739	To improve and design a data augmentation approach to boost the corpus for NMT system	18%	3%	OK
341	740	Integrated Women's Safety Application: A Comprehensive Platform Offering Secure Login, Emergency Panic, News Alerts, Route Navigation with Police Station Proximity, Incident Reporting, and Heatmap Visualization	14%	2%	OK
342	744	High Efficiency Two Port SEPIC Converter For Hybrid Charging Station	27%	2%	OK
343	745	An Elevating Cloud Infrastructure: A Sensor-Driven Approach to Intrusion Detection and Edge Computing	28%	19%	NOT OK
344	746	A Secured Cloud Architecture for Storing Image Data using Steganography	24%	11%	NOT OK
345	747	Fake News Detection using Decision Tree, Gradient Boost and Random Forest Algorithm	41%	4%	NOT OK
346	748	A Comprehensive Overview of Cryptography: From Ancient Techniques to Modern Applications	17%	1%	OK
347	749	From Classrooms to Screens: Understanding and Overcoming Excessive Device Use in Lockdown for Kids	22%	5%	OK
348	750	Question and Assessment Generator: Deep Learning Approach for Customizable and Intelligent Assessment Creation	22%	3%	OK
349	751	An observational Study for Cyber Security Awareness for High School Students and Impact of Cyber Security Risks	16%	2%	OK
350	752	Enhancing Image Segmentation Accuracy Using Deep Learning Techniques	38%	15%	NOT OK

351	755	Fish Feeding Management System: A Sustainable Approach for Aquaculture	13%	1%	OK
352	757	Dynamic resource aware VNF placement with deep inforcement learning for 5G networks	17%	4%	OK
353	758	River Cleaning Robot	21%	5%	OK
354	764	Analysis of the best creational design patterns in software development	Error	Error	Desk Reject
355	770	Synergizing Investment Portfolios: A Technologically Advanced Approach with Integrated Chatbot Capabilities	22%	5%	OK
356	776	Introduction to Artificial Intelligence, Overview and Applications	22%	2%	OK
357	780	Oil Spill Image Classification: Comparative Analysis of Alternative Approaches	15%	1%	OK
358	781	A Comprehensive Analysis of Internet Connectivity in Rural India	30%	27%	NOT OK
359	783	SANKSHIPT			
360	786	The Evolution and Potential of Conversational Agents in Healthcare	33%	5%	NOT OK
361	787	An Analysis of Deep Learning Models For Conversational Agents in Healthcare	30%	7%	OK
362	788	Suppression of Harmonics in Asynchronous Generator fed WES with STATCOM	94%	71%	NOT OK
363	791	Hate Speech Detection using Recurrent Neural Networks (RNN)	31%	3%	NOT OK
364	794	Utilization of Artificial Intelligence in Enhancing Biographical Narratives	27%	2%	OK
365	795	Agrifficient - Synergizing Agro Insights through Advanced Analytics and Imaging Technologies.	22%	7%	OK
366	796	A Machine Learning Enabled Approach for Mental and Physical Health Management Using OpenCV, NLP and IOT	14%	1%	OK
367	797	Intelligent E-Commerce Website	18%	3%	OK

368	798	TASK SCHEDULING ALGORITHM IMPROVEMENT IN CLOUD COMPUTING	25%	5%	OK
369	799	Analysis of Machine Learning Algorithms for Lung Cancer Prediction	18%	2%	OK
370	801	SECURING CLOUD INFORMATION UNDER KEY INTRODUCTION	21%	4%	OK
371	804	PERFORMANCE ANALYSIS OF NEURAL NETWORK IN AUDIO RECOGNITION	25%	6%	OK
372	805	GPS Based Distance Driven Toll Pricing System Using Blockchain Technology	18%	10%	OK
373	806	SECURING CLOUD INFORMATION UNDER KEY INTRODUCTION	21%	4%	OK
374	810	Revolutionizing HealthTech: The Synergy of AI and Cloud Computing for Precision Medicine and Optimal Healthcare	11%	3%	OK
375	812	Personalized Healthcare Recommendations with Q-Learning Reinforcement Learning	18%	2%	OK
376	813	PATIENT CLUSTERING OPTIMIZATION WITH K-MEANS IN HEALTHCARE DATA ANALYSIS	23%	4%	OK
377	818	Ensemble Classification Of Hydrogen Storage Materials Using Its Properties	34%	2%	NOT OK
378	820	Enhancing Student Placement with Cross-Platform Application	14%	3%	OK
379	823	A Prospective Forecast of Brain Stroke Using Machine Learning Techniques	18%	3%	OK
380	825	Skin Cancer Classification using CNN and TL	19%	7%	OK
381	826	Big Data Insights From Quantum Computing Improving E-Commerce Platforms Efficiency	23%	4%	OK
382	827	CDBO_DenseNet: CAViaR Dung Beetle optimization enabled deep learning for Diabetic retinopathy classification	23%	2%	OK

383	828	Air Quality Index Forecasting for Chennai City	33%	4%	NOT OK
384	830	Q-Net Compressor: Deep Learning Model Compression with Quantization	15%	2%	OK
385	833	Bifrost : No-Code ETL Tool	19%	2%	OK
386	834	The U-Net Model and its Variants: A Revolution in Medical Image Segmentation	11%	1%	OK
387	836	Anomaly detection using One-Class Support Vector Machines (OCSVM)	21%	2%	OK
388	840	ChatHub- All In One Chat Application	11%	5%	OK
389	843	REVIEW PAPER ON SPEECH EMOTION RECOGNITION	21%	13%	NOT OK
390	846	A Review on Deep Learning Based Recommendation System for Handling Data Sparsity	45%	2%	NOT OK
391	848	A Novel Natural Language Processing Based Model for Plagiarism Detection	15%	1%	OK
392	849	Gender Detection in Video Streams: A Deep Learning Approach for Ethical and Practical Applications	6%	1%	OK
393	850	A Comprehensive Framework for Evolving Movie Recommendation Systems in the Information-Driven Age	20%	13%	NOT OK
394	851	Image Segmentation Algorithms: A Comparative Analysis and Future Trends	17%	3%	OK
395	854	Privacy preservation techniques for smart contracts in blockchain	41%	6%	NOT OK
396	857	Design and Analysis of Multi-Protocol Conversion Unit for SPI, I2C and UART	17%	2%	OK
397	859	Satellite image dehazing with deep learning Pix-to-Pix with inception blocks	24%	12%	NOT OK
398	861	Future of Generative Artificial Intelligence	22%	4%	OK
399	863	Validation of 3-Phase AC-DC Converter designed on d-q Current Control and Space Vector Modulation Technique	31%	2%	NOT OK

400	869	Tech-Enhanced Parenthood: A Comprehensive Exploration of Arduino-Driven Automatic Baby Cradle	3%	2%	OK
401	872	Design and Development of AI enabled E-Learning Platform Using MERN Stack	27%	3%	OK
402	884	Automatic Query Generation for Passage Retrieval	20%	14%	NOT OK
403	885	Access Control and Anonymous File Sharing using IPFS and Blockchain	18%	2%	OK
404	886	WEB-BASED SECURE VOTING SYSTEM (CLOUD)	9%	2%	OK
405	887	YoZu: A curiosity companion for students	29%	4%	OK
406	889	A scrutinized survey on the accuracy of Sanskrit translation models	10%	1%	OK
407	890	A ML Approach for Predicting The Winner of IPL-24 Using Novel-Hybrid Classifier	20%	11%	NOT OK
408	894	Resnet-50-Based Detection of Diseases in Mango Leaves	29%	17%	NOT OK
409	895	Transconductance enhanced body-driven rail-to-rail non-tailed Class AB OTA	16%	5%	OK
410	897	Dragon Simulator Using Augmented Reality	23%	5%	OK
411	898	Youtube Comment Summarizer And Time Based Analysis	4%	1%	OK
412	902	Face Detection with Blood Pressure and SpO2 Detection: Revolutionizing Healthcare Monitoring and Wellness Management	15%	1%	OK
413	904	RideX-Intelligent Ride Detector	18%	2%	OK
414	909	TradeSense: Harnessing Supervised Learning for Trade Applications	23%	3%	OK
415	911	User Centric Chatbot for Stress Detection	4%	1%	OK
416	912	Advancements in Healthcare: Predictive Modeling for Early Disease Diagnosis and Patient Record Management	12%	2%	OK

417	913	Improved FCM based Segmentation and Self Improved Tuna Swarm Optimized Hybrid Classifier for Skin Cancer Detection	24%	2%	OK
418	914	Sahara: Initiative for Empowering disabled	15%	4%	OK
