## REPORT

2024-2025

# AISSMS INSTITUTE OF INFORMATION TECHNOLOGY (IOIT)

ADDING VALUE TO ENGINEERING

An Autonomous Institute Affiliated to Savitribai Phule Pune University  
Approved by AICTE, New Delhi and Recognised by Govt. of Maharashtra  
Accredited by NAAC with "A+" Grade | NBA - 5 UG Programmes

## Program Outcomes (POs)

Graduates will be able to

1. Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems. **[Engineering knowledge]**
2. Identify, formulate, research literature, and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences. **[Problem analysis]**
3. Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations. **[Design/development of solutions]**
4. Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions. **[Conduct investigations of complex problems]**
5. Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations. **[Modern tool usage]**
6. Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice. **[The engineer and society]**
7. Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development. **[Environment and sustainability]**
8. Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice. **[Ethics]**
9. Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings. **[Individual and team work]**

10. Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions. **[Communication]**
11. Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments. **[Project management and finance]**
12. Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change. **[Life-long learning]**

**Event Head :** Atharva Chitambar

**Event Co-ordinators :** Shruti Pitlelu

### **Description :**

The program commenced with a warm welcome to all the teachers, followed by a heartfelt introductory speech honoring the invaluable contributions of our mentors. The students presented a series of engaging performances, including songs, dances, and skits, all dedicated to expressing gratitude to the teachers. Special interactive games and activities were organized, adding fun and vibrancy to the occasion.

A token of appreciation was presented to each teacher as a gesture of respect and gratitude. The event concluded with a vote of thanks, where the organizers expressed their appreciation to everyone who made the day memorable.

The Teacher's Day Celebration was a grand success, filled with moments of joy, learning, and togetherness, leaving both teachers and students with fond memories.

The Teacher's Day Celebration was more than just an event—it was a beautiful blend of joy, learning, and togetherness. It created cherished memories for both teachers and students, reinforcing the spirit of gratitude and the importance of the teacher-student relationship. The day concluded with smiles, laughter, and a renewed sense of appreciation, leaving everyone with fond memories that will be treasured for years to come.

**Event Head:** AISA

**Venue:** Dharamveer Shambhuraje Balak Prathamik Vidyalay .

**No. of Students Participated:**40

### Event Details :

With the aim of engaging with the children, spreading joy, and contributing to their learning experience. The visit was a heartwarming and enriching experience for both the children and us.

During our visit, we conducted various activities to interact with the children. We started with interactive games such as relay races, musical chairs, and team-building exercises, which the children participated in enthusiastically. We also conducted short teaching sessions, helping them with basic subjects like Mathematics, English, and General Knowledge. Through storytelling and creative teaching methods, we made learning enjoyable for them. To encourage artistic expression, we arranged drawing and coloring activities, where many children showcased their creativity and received small gifts as rewards. Additionally, we shared inspiring moral stories, emphasizing the importance of kindness, perseverance, and education. The children also entertained us with their singing and dancing performances, and we joined in, creating a lively and joyful atmosphere.

The visit had a profound impact on us, as we built strong emotional connections with the children. Seeing their smiles and excitement was incredibly fulfilling, reinforcing the importance of kindness, empathy, and community involvement. Our experience at *Dharamveer Shambhuraje Balak Prathamik Vidyalay* was truly memorable. We were able to bring joy and motivation to the children, and in return, we learned valuable lessons about gratitude and resilience. We look forward to organizing similar visits in the future to continue supporting and encouraging these wonderful children.

### Events Details :

A significant event was held at our college—a workshop on LaTeX and Overleaf conducted by Yash Potdar, a highly motivated student and enthusiast in academic typesetting and documentation. This event aimed to familiarize students with the fundamentals of LaTeX, an essential tool for creating professional documents, and Overleaf, a collaborative online platform for LaTeX editing.

The workshop was well-structured and meticulously planned, drawing participation from a diverse group of students across multiple disciplines. It began with an introduction to LaTeX, highlighting its importance in academic and technical documentation. Yash emphasized its superiority over traditional word processors for tasks such as writing research papers, preparing theses, and generating reports.

Overall, the workshop was a resounding success, showcasing the potential of peer-led learning initiatives. Yash Potdar's dedication and expertise served as an inspiration to many, highlighting the importance of knowledge-sharing within our college community.

### Event Details :

A highly engaging workshop on Machine Learning (ML) was conducted at our college under the leadership of Irfan Shaikh. The event aimed to introduce students to the fascinating world of ML, with a focus on practical applications and hands-on learning. The workshop catered to students from various disciplines, all eager to explore this rapidly growing field.

The session started with a detailed introduction to Machine Learning, explaining the basic concepts such as supervised and unsupervised learning. Students were introduced to popular algorithms like decision trees, regression models, and clustering techniques. The workshop then transitioned into real-world examples, highlighting how ML is revolutionizing industries such as healthcare, finance, and technology.

The participants engaged in an interactive discussion, followed by a practical session where they implemented simple ML algorithms using Python. The hands-on experience was particularly valuable in helping students understand how theoretical concepts translate into real-world applications.

The workshop was an immense success, providing students with foundational knowledge and inspiration to dive deeper into the field of ML. Irfan Shaikh's clear explanations and interactive approach made the event both informative and enjoyable. This initiative is a testament to the importance of student-driven workshops in fostering a deeper understanding of cutting-edge technologies.

### Events Details :

An insightful workshop titled "How to Crack Technical Tests for Hackathons and Internships" was organized by Siddhesh Kulthe, a talented and accomplished student of our college. Siddhesh, an active contributor to various hackathons and a LinkedIn professional Siddhesh Kulthe , shared his knowledge and experience with fellow students, empowering them to excel in technical assessments for prestigious opportunities.

Siddhesh shared tips to approach hackathons with confidence, including team collaboration, managing time effectively, and presenting solutions innovatively.

A major focus of the session was on preparing resumes, leveraging LinkedIn effectively, and cracking technical interviews for internships. Siddhesh provided a checklist of skills and resources that are essential for standing out to recruiters.

The workshop was a resounding success, leaving attendees with practical knowledge and boosted confidence to tackle technical challenges in hackathons and internships. Siddhesh's expertise and willingness to share his experiences set a benchmark for peer-led learning initiatives in our college.

**Event Head :** Nayesha Nayak

**Event Co-ordinators :** IOIT ACM Student Chapter in collaboration with IIEDC and AISA

### **Description :**

To commemorate Entrepreneurs Day, the IOIT ACM Student Chapter, in collaboration with the Institution's Innovation & Entrepreneurship Development Centre (IIEDC) and AISA, organized an engaging Startup Expo & Panel Discussion on Monday, 26th August 2024, from 10:30 am to 12:30 pm at the Multipurpose Hall (2nd Floor). The event aimed to inspire students, foster innovation, and provide insights into the entrepreneurial ecosystem.

The Startup Expo featured innovative startups founded by students and alumni, offering a platform for budding entrepreneurs to present their ideas and products. Attendees interacted directly with founders, gaining valuable insights into their entrepreneurial journeys. The highlight of the event was an insightful panel discussion where successful entrepreneurs shared their experiences, challenges, and strategies for building sustainable startups, covering topics such as funding, market strategies, and innovation in the startup ecosystem.

The event witnessed enthusiastic participation from students, faculty members, and aspiring entrepreneurs, with the Q&A session reflecting a high level of engagement. Participants registered through an online form, ensuring smooth coordination and organization. The interactive nature of the event, coupled with networking opportunities, provided a valuable experience for all attendees. Special thanks to Nayesha Nayak for coordinating the event and to all speakers, participants, and organizing committees for their contribution to making this event a grand success.

### Abstract of the lecture:

The recent resume-building event provided participants with valuable insights on creating a compelling and professional resume. The session began by highlighting the essential components of a well-structured resume, emphasizing the importance of clarity, conciseness, and relevance. Key topics included crafting an impactful summary, selecting the right format, and tailoring the resume to specific job roles. The workshop also addressed common mistakes to avoid, such as overloading with unnecessary information, using generic templates, and neglecting keywords. Participants were guided on how to highlight achievements, skills, and experiences effectively while ensuring readability for recruiters. Special attention was given to customizing resumes for different industries and roles, ensuring alignment with job descriptions.

### Outcomes:

#### 1. Knowledge imparted to students:

- i. Students gained a clear understanding of effective resume structure and formatting tailored to specific job roles
2. Students became aware of common resume mistakes and how to avoid them for **Analysis**

#### of Students' Feedback:

- i. Attributes developed/enhanced:
  - i. Students developed the ability to tailor resumes specifically for different job roles and industries.
  - ii. Enhanced skills in showcasing achievements and relevant experiences effectively.
  - iii. Improved attention to detail in avoiding common resume mistakes and formatting errors.
  - iv. Greater confidence in creating resumes that align with industry expectations and job descriptions.

ii. Satisfied COs:

i. Enhanced Resume Crafting Skills: Gained practical skills in tailoring resumes to highlight strengths and align with job descriptions effectively.

ii. Understanding of Professional Standards: Developed an understanding of current professional standards and expectations for resumes in various industries.

iii. Satisfied POs:

i. Critical Thinking and Problem Solving: Improved ability to critically assess personal skills and experiences to construct a compelling resume that stands out to employers.

ii. Communication Skills: Strengthened written communication skills through focused resume writing exercises and peer feedback.

i. Satisfied PSOs:

ii. Industry-Relevant Knowledge: Acquired insights into industry-specific resume formats and content requirements that enhance employability in targeted fields.

iii. Networking Techniques: Learned effective strategies for networking and how to incorporate those experiences into a resume, improving overall job application effectiveness.

# ML Club REPORT 2024-2025

## Department of Artificial Intelligence and Data Science Engineering

### Report of Expert Lecture organized under ML Club

**Title of the topic covered: Machine Learning and Artificial Neural Network**

**Date: 23<sup>rd</sup> September 2024**

**Class: T.Y BTech (AI &DS)**

**No. of students participated/benefitted: 78 students**

#### **Objectives:**

1. To introduce students to the fundamental concepts of Machine Learning (ML) and its applications.
2. To provide a comprehensive understanding of Artificial Neural Networks (ANN) and their role in ML.
3. To showcase real-world examples where ML and ANN are used for solving complex problems.

Details of Industry Expert		Details of Industry/Organization	
Name	Khushal Sharma	Name	Prushal Technology Pvt. Ltd
Designation	Founder	Address	Flat No: 401, Vrindhavan Society, near Samindradevi Market, Baif Road, Wagholi, Pune, MH-412207
Email ID	Khushalsharma76@gmail.com		
Phone No	9762203269	Email ID	info@prushal.com
Experience (yrs.)	10 yrs	Phone No.	9762203269
Area of expertise	Data Science, ML, AI and Web Development

## Department of Artificial Intelligence and Data Science Engineering

### Report of Expert Lecture organized under ML Club

#### **Abstract of the lecture:**

The event "Machine Learning and Artificial Neural Networks" was organized by the ML Club to educate students on two important areas of artificial intelligence. The session began with an introduction to Machine Learning, covering the different types (supervised, unsupervised, and reinforcement learning), followed by a detailed exploration of Artificial Neural Networks. Key topics included the structure of a neural network, activation functions, backpropagation, and how neural networks mimic the human brain to solve complex problems. Real-world applications, such as image recognition and natural language processing, were also discussed. The event aimed to provide a clear foundation for students looking to venture into the field of ML and ANN.

#### **Outcomes:**

##### **1. Knowledge imparted to students:**

- Students gained an understanding of the core principles of Machine Learning and Artificial Neural Network
- Participants learned how to differentiate between different types of ML models and their use cases.

##### **2. Analysis of Students' Feedback:**

###### **i. Attributes developed/enhanced:**

- i. Analytical Thinking
- ii. Technical Proficiency
- iii. Problem-Solving Abilities
- iv. Communication and Collaboration

---

## Department of Artificial Intelligence and Data Science Engineering

### Report of Expert Lecture organized under ML Club

#### ii. Satisfied COs:

- **CO1:** Understanding the basics of Machine Learning and its relevance in AI.
- **CO2:** Gaining knowledge of Artificial Neural Networks and their practical applications.
- **CO3:** Ability to identify real-world problems that can be solved using ML and ANN techniques.

#### iii. Satisfied POs:

- **PO1:** Engineering Knowledge: Students developed a deeper understanding of core AI and ML principles.
- **PO2:** Problem Analysis: They learned how to analyze problems and apply appropriate ML algorithms.
- **PO5:** Modern Tool Usage: Students became familiar with tools and libraries for building ML models.
- **PO12:** Lifelong Learning: The session encouraged students to continue learning and exploring AI technologies.

#### iv. Satisfied PSOs:

- **PSO1:** Application of AI techniques to develop innovative solutions for real-world problems.
- **PSO2:** Ability to work with machine learning frameworks and tools to implement and deploy AI models.

**Date and Time:**

**Event Head:** Irfan Shaikh

**Venue:** Daundaj Gaon, Maharashtra

**No. of Students Participated/Benefitted:** 60

**Event Details :**

A special introductory session on Machine Learning (ML) was organized for a group of younger students with little to no exposure to this advanced topic. The session, led by Irfan Shaikh, aimed to make ML accessible to younger minds by breaking down complex concepts into simple, easy-to-understand ideas.

The session started with an engaging introduction to the concept of "learning from data" using real-world analogies. For example, the concept of teaching a computer to recognize objects in images was explained using a game where the students had to identify objects in pictures. This simple, hands-on approach helped the students connect the theoretical aspects of ML to their everyday experiences.

The event also included interactive activities, where students participated in simple games that demonstrated the process of data classification and decision-making, core components of machine learning. The students were then introduced to basic algorithms in a fun, non-technical manner to stimulate their interest in the subject.

The workshop concluded with a brief Q&A session, where students were encouraged to ask questions and share their thoughts. This session was not only a great learning experience but also sparked curiosity in the students, many of whom expressed interest in exploring ML further.

The event was a significant success, showcasing the importance of early exposure to advanced topics like Machine Learning and highlighting Irfan Shaikh's ability to

#### Event Details:

A significant event was held at our college—an offline tutoring session on "Theory of Computation," conducted by an industry expert. This session aimed to help students understand the core concepts of the Theory of Computation, which is a crucial subject in the PRA curriculum.

The session was meticulously planned and structured to cater to students from multiple disciplines. It began with an introduction to the fundamental concepts of automata theory, formal languages, and computational models. The expert elaborated on the importance of these topics in modern computing, including their applications in compiler design, artificial intelligence, and machine learning.

The interactive nature of the session allowed students to engage in discussions, ask questions, and clarify doubts related to complex computational theories. The expert provided real-world examples to illustrate key concepts, making the learning process more intuitive and effective. The session also included problem-solving exercises, where students were guided through various computational problems, helping them develop a deeper understanding of the subject.

Overall, the tutoring session was a resounding success, emphasizing the importance of industry-oriented learning. The insights provided by the expert enriched students' knowledge and motivated them to explore computational theory further. The initiative highlighted the significance of bridging the gap between academic learning and practical applications, encouraging more such industry-led sessions in the future.

### Event Details :

A highly engaging workshop on Machine Learning (ML) was conducted at our college under the leadership of Irfan Shaikh. The event aimed to introduce students to the fascinating world of ML, with a focus on practical applications and hands-on learning. The workshop catered to students from various disciplines, all eager to explore this rapidly growing field.

The session started with a detailed introduction to Machine Learning, explaining the basic concepts such as supervised and unsupervised learning. Students were introduced to popular algorithms like decision trees, regression models, and clustering techniques. The workshop then transitioned into real-world examples, highlighting how ML is revolutionizing industries such as healthcare, finance, and technology.

The participants engaged in an interactive discussion, followed by a practical session where they implemented simple ML algorithms using Python. The hands-on experience was particularly valuable in helping students understand how theoretical concepts translate into real-world applications.

The workshop was an immense success, providing students with foundational knowledge and inspiration to dive deeper into the field of ML. Irfan Shaikh's clear explanations and interactive approach made the event both informative and enjoyable. This initiative is a testament to the importance of student-driven workshops in fostering a deeper understanding of cutting-edge technologies.
