TESA committee follows all the Vision, Mission, Program Educational Objectives, Program Specific Outcomes and Program Outcomes as laid by Electronics and Telecommunication Department. They are as follows

VISION

To be one of the renowned Electronics & Telecommunication Engineering programmes imparting quality education by promoting professionalism, values, and ethics leading to a progressive career in industry & academia globally.

MISSION

1. To boost employability/entrepreneurship/higher studies through value-added activities.
2. To inculcate research attitude and professional ethics for addressing the needs of industry.

PROGRAM EDUCATIONAL OBJECTIVE

Graduates will

1. Engage in solving problems in the E&TC domain by developing products/offering services to cater to the needs of the society.
2. Work in diverse career fields of information and communication technology.
3. Develop new methodologies and technologies for solving real-life problems.

PROGRAM SPECIFIC OUTCOMES

Graduates will be able to

1. Apply domain-specific knowledge to analyse, design and develop electronics and telecommunication systems/applications in the field of Embedded Systems, Very Large Scale Integration (VLSI), Internet of Things (IoT), and Communication Technology.
2. Select and apply software and hardware tools such as Electronic Design Automation (EDA) and Test/ Measurement equipment to solve engineering problems.

PROGRAM OUTCOMES

1. Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.³
[Engineering knowledge]

AISSMS **INSTITUTE OF INFORMATION TECHNOLOGY** **(IOIT)**

ADDING VALUE TO ENGINEERING
An Autonomous Institute Affiliated to Savitribai Phule Pune University
Approved by AICTE, New Delhi and Recognised by Govt. of Maharashtra
Accredited by NAAC with "A+" Grade | NBA - 5 UG Programmes

- 2. Identify, formulate, research literature, and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences. [Problem analysis]**
- 3. Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations. [Design/development of solutions]**
- 4. Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions. [Conduct investigations of complex problems]**
- 5. Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations. [Modern tool usage]**
- 6. Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice. [The engineer and society]**
- 7. Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development. [Environment and sustainability]**
- 8. Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice. [Ethics]**
- 9. Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings. [Individual and team work]**
- 10. Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions. [Communication]**
- 11. Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments. [Project management and finance]**
- 12. Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change. [Life-long learning]**

PREFACE

Telecom Engineer Students Association (TESA) was first established in the year 2012 under the Electronics and Telecommunication Engineering Department (E&TC), AISSMS IOIT. This committee was established under the guidance of respective Principal sir, department HOD, TESA chairperson(s) and other faculty members for the maximum participation, overall development of students which involved showcasing their talent and providing them a platform to reveal their hidden potentials and skills through various domains like Technical, Cultural and Sports. Like every year students from Electronics and Telecommunication Department and also from other departments and AISSMS Society are enthusiastically participating in these events along with staff members and the TESA committee received an overwhelming support and co-operation from participants overall. TESA Events were generally held for two days under the brand event name

“VERITAS” which means “TRUTH” where the committee basically looked after the realistic development of the students in uplifting their talent. Like Last year, this year also we conducted VERITAS in an online mode. The covid This year we had planned various activities related to Technical, Cultural and Sports domains. As an exposure to the placement procedure and an overview of entrance examinations for higher studies, we had also included T&P and Study Circle in the VERITAS events which would help students in their career

Aim/Objective of Student Association

TELECOM ENGINEER'S STUDENTS ASSOCIATION (TESA) is a student association run by students of E&TC for students of E&TC. The main objective of the TESA is to provide platform to students to explore their skills and knowledge through curricular and extracurricular activities in the field of E&TC. TESA is committed to the overall development of E&TC students by organizing various such as "VERITAS", it is a department level event in which various technical and nontechnical activities are conducted. In addition, through TESA, we celebrate days like "Teachers Day" and "Engineers Day".

Outcomes of Student Association

Joining a student organization presents many opportunities to learn more about them self, their goals, and their strengths. Students can learn from how other students handle certain situations and test their current knowledge. Students can also find out what they're good at, whether that's multitasking, staying organized, generating ideas, or serving others. This self-awareness will be beneficial in student's future career.

Knowing how to work well with a team is an essential skill for any career. Being in a student organization teaches them, how to do this by putting them in situations where they are required to take advice from others, as well as give your own.

ABOUT THE THEME

“A Deep Dive into Semiconductor Technology”

The theme "A Deep Dive into Semiconductor Technology" for Veritas is a reflection of the critical role semiconductors play in shaping the modern world. Semiconductors are at the heart of cutting-edge innovations, powering advancements in AI, IoT, communication systems, and sustainable technologies. By exploring this theme, Veritas aims to educate and inspire students about the transformative impact of semiconductor technology, from its foundational principles to its applications in solving real-world challenges. It aligns with the department's vision to foster a deeper understanding of core technologies while highlighting their significance in driving progress in the electronics and telecommunication domains.

2	Circuitrix	Ankush Singh
3	Roborace	Om Ghode
4	Trace IT	Krushna Varat

Report of TECHNO-HUNT

1. **Day & Date:** September 13th 2024, Friday
2. **No of Participants/Team/Groups:** 19 teams (3 participants each), 2 teams (2 participation each)
3. **Name of Faculty Coordinators:** Prof. V N Ghodke , Prof. S B Pokharkar
4. **Name of Student Coordinators:**, Aniket Satpute, Aishwarya Yande, Sanskruti Wattamwar, Ayush Waghmare, Atharva Bobade, Soham Wanzkhade
5. **Brief description of event:**

Techo-Hunt is a physical scavenger hunt-style game where players decipher clues and puzzles hidden in QR codes to reach the final winning code. Starting with an initial QR code, participants scan and solve challenges to unlock the next location. This process repeats until the final winning QR code is found. Featuring real-world exploration, navigation, and individual or team-based play, Techo-Hunt offers optional time-based challenges. The first player or team to scan the final QR code wins or completes challenges within the set time limit. Ideal for team-building, logistics, technical clues. Techo-Hunt combines physical adventure and mental challenge, providing an engaging experience for participants.

The winners of the competitions are as follows:

Winner (TRIKO-1)	Year and Div
Sakshi Gaikwad	SYBTECH (ENTC) Div-A
Rajvardhan Thakur	SYBTECH (ENTC) Div-B
Arpita Thorat	SYBTECH (ENTC) Div-B

Report of CircuitRix

1. **Day & Date:** Friday & 13 September 2024.
2. **Student Coordinators:** Umesh Sirvi, Harshal Patil, Aniket Satpute, Aishwarya Yande, Sanskruti Wattamwa
3. **Name of faculty Coordinator:** Dr. D. M. Yewale , Dr. S. S. Nikam

Brief description of event:

CircuitRix is a competitive technical event designed to challenge participants' knowledge and skills in electrical circuit design and troubleshooting. Commonly held in engineering festivals, the event consists of multiple rounds that assess both theoretical understanding and practical application of circuit concepts. Participants are required to design, analyze, and solve complex electrical circuits using components like resistors, capacitors, transistors, and more.

The winners of the competitions are as follows:

Report of RoboRace

1. **Day & Date:** 13 Saturday & 14 September 2024.
2. **Student Coordinators:** Sarthak Thipse, Ayush Waghmare, Atharva Bobade, Soham Wanzkhad
3. **No. of Participation:** 33
4. **Name of faculty Coordinator:** Dr. D. M. Yewale , Dr. S. S. Nikam

Brief description of event:

Roborace is a competition where participants design and program robotic cars to autonomously navigate a track. Cars must handle sharp turns, avoid obstacles, and complete the course quickly and accurately. Performance is judged on speed, precision, and obstacle handling, showcasing skills in robotics and autonomous driving.

Report of Real-Time Scribble

- 1. Day & Date:** September 14th, 2024
- 2. No of Participants/Team/Groups:** 28 teams (2 participants each)
- 3. Name of Faculty Coordinators:**
- 4. Name of Student Coordinators:** Vaishnavi Pataskar, Varad Wajage and Rachana Mahanagare.
- 5. Brief description of event:**

Real-Time Scribble is an interactive and fun-filled event that tests creativity under pressure. Participants are given prompts on the spot and must quickly sketch or doodle their interpretation within a limited time frame. The challenge lies in how fast and imaginatively they can turn a simple idea into an engaging and visually appealing drawing. The event encourages spontaneous artistic expression, with participants racing against the clock to create their masterpieces.

The winners of the competitions are as follows:

RANK	Name of Participants	Year/Div
Winner	Shreyas Khot, Waqi Shaikh	Both BE B
Runner- Up	Rajlaxmi Patil, Atharva Jasoriya	Both SY B

3. **Name of Faculty Coordinators:** Prof. C.K. Bhange , Prof. R.N. Jadhav
4. **Name of Student Coordinators:** Ramraje Deshmukh, Pranay Jagdale, Rajwardhan Thakur, Diptanshu Patil
5. **Brief description of event:**

A relay race is a racing competition where members of a team take turns completing parts of the racecourse or performing a certain action. Relay races take the form of professional races and amateur games. Relay races are common in running, orienteering, swimming, cross-country skiing, biathlon, or ice skating (usually with a baton in the fist).

Relay race, also called Relay, a track-and-field sport consisting of a set number of stages (legs), usually four, each leg run by a different member of a team. The runner finishing one leg is usually required to pass the next runner a stick-like object known as a "baton" while both are running in a marked exchange zone.

The winners of the competitions are as follows:

5. Brief description of event:

BGMI (Battlegrounds Mobile India) is a popular online multiplayer battle royale game where players compete to survive on a shrinking battlefield. During our college fest, we organized an exciting 2-day offline BGMI event with the following rules:

- **Team Composition:** Each team consisted of 4 players.
- **Matches:** A total of 3 matches were conducted over 2 days.
- **Scoring:** Points were awarded based on eliminations and placement in each match.
- **Elimination:** The team with the highest cumulative points at the end of the 3 matches was declared the winner.
- **Fair Play:** Standard BGMI rules applied, ensuring fair play and a competitive atmosphere.

The smooth execution of the 3 matches over 2 days, along with the competitive spirit of the teams, made it one of the highlights of the fest. The event's success was a testament to the hard work of the organizers and the dedication of the participants.

The winners of the competitions are as follows:

- **Winner** – Team Tanmay Jangli (Aissms Poly)
- **Runners up** - Fearless ESports. (Pccoe)
- **MVP** -Virendra Daware 22kills Team (Tanmay Jangli)

Report of Carrom

1. **Day & Date:** September 14th, 2024
2. **No of Participants/Team/Groups:**
3. **Name of Faculty Coordinators:** Prof. C.K. Bhange , Prof. R.N. Jadhav
4. **Name of Student Coordinators:** Pruthviraj Chavan, Prajwal Pawar, Harshada Kolhe.
5. **Brief description of event:**

Carrom is a popular indoor board game originating from South Asia. Played on a square wooden board, it involves flicking small discs, called carrom men, into one of four corner pockets using a striker. The game combines elements of skill, strategy, and precision, and can be enjoyed by two to four players. Scoring is achieved by pocketing the carrom men, with the objective of clearing one's own pieces while preventing opponents from scoring.

Report of Arm Wrestling

1. **Day & Date:** September 13th, 2024
2. **No of Participants/Team/Groups:** 32
3. **Name of Faculty Coordinators:** Prof. C.K. Bhange , Prof. R.N. Jadhav
4. **Name of Student Coordinators:** Pruthviraj Chavan, Prajwal Pawar, Harshada Kolhe.
5. **Brief description of event:**

Arm wrestling is a competitive sport in which two participants face off, each with one arm bent at the elbow and resting on a table. The goal is to pin the opponent's hand down to the table, using strength, technique, and leverage. It requires not only physical strength but also strategy, as competitors must leverage their body position and grip to gain an advantage. Popular in various cultures, arm wrestling can be seen in casual settings, as well as organized competitions and championships.

Mr,Rutik Jamdar

EVENT LIST

Sr. No	Event Name	Event Head
1	Search Quest	Aniket Satpute

Report of Search Quest

6. Day & Date: September 14th, 2024

7. No of Participants/Team/Groups: 7 teams (2 participants each), 12 Individual

8. Name of Faculty Coordinators: Prof. V N Ghodke , Prof. S B Pokharkar

9. Name of Student Coordinators: Swarali Gurav, Monesh Borole, Nupur Patil.

10. Brief description of event: Search Quest is an interactive and challenging event designed to test participants' ability to conduct thorough research using Google. Unlike typical quiz competitions, this event emphasizes critical thinking and research. Participants will be required to use Google Forms to submit their answers, making it an engaging online experience. The winners are decided on the basis of their marks. The participant who scored maximum mark was announced as winner. If in case two participants have same marks then the time of submitting the form was considered.

The winners of the competitions are as follows:

RRANK	Name of Participants	Year/Div
Winner 1	Ashlesha Shinde	FY (E&TC)
Winner 2	Kapil Shetkar	SY B(E&TC)
Runner Up	Abhishek Chaudhari	SY B(E&TC)

Report of Mission Unblockable

- 1. Day & Date:** Friday, September 13th 2024
- 2. No of Participants/Team/Groups:** 18 teams (3-4 participants each)
- 3. Name of Faculty Coordinators:** Prof. D. A. Itole, Prof. M. P. Gajare
- 4. Name of Student Coordinators:** Onkar Sapkal, Raunak Khandare, Ketan Patil
- 5. Brief description of event:**

Mission Unblockable under the Study Circle domain offered students an engaging and interactive way to sharpen their problem-solving and critical-thinking abilities. The event revolved around a Jenga game with blocks in three different colors, each representing a unique category such as aptitude, general knowledge, and domain-specific questions. As students pulled a Jenga block, they had to answer a corresponding question, which challenged their quick thinking and domain knowledge. This event not only added a fun twist to learning but also enhanced students' cognitive skills, strategic thinking, and confidence, preparing them for academic and competitive challenges ahead.

The winners of the competitions are as follows:

Happiness doesn't come as a result from what we get , but from what we give . Doing a good deed like donating your old clothes will make you feel good because you're doing something for a worthy cause. There are many people in need of usable clothing

On October 24th, TESA successfully held a Clothes Donation Drive aimed at supporting individuals and families in need within our community. The event gathered generous contributions from students, faculty, and staff, resulting in a substantial collection of gently used clothing.

Through this initiative, we not only provided essential items to those facing hardships but also raised awareness about the importance of compassion and community support. Volunteers worked tirelessly to sort and distribute the clothing to local charities, ensuring that every piece reached those who needed it most.

Report of Study Abroad Guidance Tour

- 1. Day & Date:** December 1st, 2024
- 2. Name of Faculty Coordinators:** Prof. D.A.Itole and Prof. M.P.Gajare
- 3. Name of Student Coordinators:** Riya Shetty, Aashna Mujawar
- 4. Held at:** O Hotel, Koregaon Park, Pune
- 5. Brief description of event:**

The SI-Global/SI-UK University Fair Pune 2024, held on Sunday, 01 December 2024, at O Hotel Pune, Koregaon Park, was a remarkable event designed for students aspiring to study in the UK, Ireland, and Dubai. The event provided a comprehensive platform for students to connect with representatives from prestigious UK universities and gain valuable insights into academic and career opportunities abroad.

Students had the unique opportunity to meet university representatives directly. These interactions offered detailed information about various courses, admission requirements, and scholarship programs tailored to their needs.

The SI-Global/SI-UK University Fair Pune 2024 not only provided essential resources and guidance but also inspired and empowered students to take the next step in their academic journey. By offering a blend of expert advice, practical insights, and networking opportunities, the fair underscored its role as a vital platform for students aspiring to study abroad.

Report of SSB Seminar

1. **Day & Date:** 10th February, 2025
2. **Student Coordinators:** Riya Shetty, Aman Pawar
3. **Name of faculty Coordinator:** Prof. Venkat Ghodke
4. **Held at:** MPH, AISSMS IOIT, PUNE

Brief description of event:

The SSB Seminar for Defense Aspirants was successfully organized by AISSMS Institute of Information Technology on 10th February 2025 at the Multipurpose Hall (MPH) from 1:15 PM to 3:15 PM. The seminar aimed to provide aspiring students with a comprehensive understanding of the Services Selection Board (SSB) interview process, career opportunities in the Indian Armed Forces, and the essential skills required for selection. The event was graced by Col. R. K. Sinha, an esteemed defense expert, as the guest speaker. The seminar was conducted under the guidance of Principal P. B. Mane and coordinated by Prof. Venkat Ghodke, with Parag Magam acting as the liaison between the college and the guest. Additionally, Prof. Rahul Kale, CEO of Gurudev Academy, shared valuable insights on structured preparation strategies for SSB. With an audience of over 180 students, the seminar provided an in-depth understanding of the five-day SSB selection process, including psychological tests, group discussions, physical fitness requirements, and personal interviews. Col. Sinha engaged the students with real-life experiences, providing practical tips on personality development, leadership, and teamwork—key qualities necessary for a career in the armed forces. The session was highly interactive, with students eagerly participating in the Q&A round, where they received expert guidance on mental and physical preparation for SSB. Prof. Rahul Kale further emphasized the importance of self-discipline and motivation, encouraging students to develop a strong mindset to clear the selection process. The event concluded with a vote of thanks by Prof. Venkat Ghodke, who expressed gratitude towards Col. R. K. Sinha, Prof. Rahul Kale, the organizing team, and the enthusiastic student participants. The seminar was a great success, fulfilling its objective of inspiring and equipping students with the knowledge and motivation to pursue a career in the Indian Armed Forces. Students appreciated the session and expressed a keen interest in defense careers.

EVENT GLIMPSES (PHOTO 1)

EVENT GLIMPSES (PHOTO 2)

Report of Arduino Workshop

1. **Day & Date:** Tuesday, March 4, 2025
2. **Name of faculty Coordinator:** Prof.D.A.Itole

Brief description of event:

On March 4, 2025, Department of Electronics and Telecommunication and TESA had successfully conducted and organised an Arduino workshop for third year E&TC students of AISSMS Polytechnic. The workshop was thoughtfully planned and executed, and it provided students with a valuable opportunity to learn about Arduino and its applications.

The workshop was held on the AISSMS Polytechnic campus and was specifically designed for third-year diploma students of E&TC. It was a day filled with both theory and practical sessions, offering students invaluable insights into the world of Arduino.

The morning session began with a theoretical introduction to Arduino, including its features, components, and programming language. In the afternoon, students participated in hands-on activities, where they learned to build and program Arduino circuits.

The workshop received an outstanding response from students. They were enthusiastic about learning about Arduino and its applications, and they appreciated the opportunity to gain hands-on experience. The workshop left students with a deeper understanding of Arduino and its significance, and it prepared them to use Arduino for their future projects.

The AISSMS IOIT TESA committee is grateful to the workshop team for their hard work and dedication. The workshop was a success, and it has inspired students to explore the world of Arduino further. The committee looks forward to organizing more exciting events in the future.

Report of Proteus Workshop

1. **Day & Date:**
2. **Name of faculty Coordinator:** Prof.D.A.Itole

Brief description of event:

Department of Electronics and Telecommunication and TESA successfully organized a Proteus Workshop for polytechnic E&TC students, focusing on simulation and design techniques for embedded systems. This event aimed to provide participants with practical knowledge of Proteus software, widely used for circuit simulation and microcontroller programming.

The workshop was designed to introduce students to Proteus software and its applications in embedded systems design. provide hands-on experience in circuit simulation and debugging and enhance understanding of microcontroller interfacing and programming.

The workshop covered the basics of Proteus software, including its interface and features. Students learned how to simulate circuits, test designs, and debug errors effectively.

Participants worked on various projects involving circuit design and microcontroller programming using Proteus. These sessions emphasized real-world applications of simulation tools in electronics engineering. The workshop provided students with a deeper understanding of simulation techniques, improved skills in circuit design and debugging, confidence in using Proteus for academic and professional projects.

This event reflects TESA's commitment to equipping students with industry-relevant skills through practical learning opportunities.

Report of Arduino Workshop (FY IOIT)

1. **Day & Date:** Saturday to Sunday 5th to 6th April, 2025
2. **Name of faculty Coordinator:** Prof.D.A.Itole

Brief description of event:

The Department of Electronics and Telecommunication and TESA successfully organized a two-day Arduino Workshop for first-year IOIT students on 5th and 6th April, 2025. The workshop aimed to introduce budding engineers to the fundamentals of embedded systems and hands-on programming using Arduino IDE— an open-source electronics platform.

Objectives of the Workshop were to familiarize students with microcontroller-based development, encourage practical learning through hands-on experiments and spark interest in electronics, programming, and IoT applications.

Day 1 focused on understanding the basics of Arduino hardware, IDE installation, pin configuration, and simple coding exercises like LED blinking and digital input/output.

Day 2 involved more advanced modules such as interfacing sensors (temperature, IR), motors, and mini-project building using the knowledge gained.

The workshop was highly appreciated by participants. It boosted their confidence in working with microcontrollers and sparked curiosity toward embedded systems and IoT. The event concluded with the distribution of certificates and group photos, marking a successful and engaging learning experience.

Report of Rubicon Future Skill for Youth-BE

1. **Day & Date:** 18th September 2024 to 4th October 2024
2. **Student Coordinators:** Aashna Mujawar ,Rutik jamdar, Aniket Sapute, Hrishikesh Saindane, Swarali Gaikwad
3. **Name of faculty Coordinator:** Prof.Venkat Ghodke

Brief description of event:

Future Skills for Youth" conducted by Rubicon Skill Development from 18 September 2024 to 4 October 2024 was an incredible learning experience designed to empower young minds with essential skills for the future. The program commenced with a rigorous 50-hour Python training, where participants delved into advanced programming concepts, problem-solving techniques, and real-world applications. This intensive session provided a solid foundation in one of the most sought-after programming languages in the industry.

Following the Python training, participants engaged in 15 hours of soft skills development. This segment focused on enhancing communication, teamwork, and leadership abilities, critical for success in any professional setting. Through interactive sessions and practical exercises, attendees gained valuable insights and tools to navigate the complexities of modern workplaces.

The final phase of the program included 15 hours of aptitude training, sharpening analytical and reasoning skills. This comprehensive approach ensured that participants were well-equipped to tackle competitive exams and job interviews with confidence.

Overall, "Future Skills for Youth" was a holistic development program that combined technical knowledge, soft skills, and aptitude training, preparing young individuals for future challenges and opportunities

Report of Rubicon Future Skill for Youth-TY

1. **Day & Date:** 4th to 6th February, 2025
2. **Student Coordinators:** Aashna Mujawar ,Rutik jamdar, Aniket Sapute, Hrishikesh Saindane, Swarali Gaikwad
3. **Name of faculty Coordinator:** Prof.Venkat Ghodke

Brief description of event:

Rubicon Skill Development Pvt. Ltd. In association with TnP cell of TESA conducted the "Future Skills for Youth" workshop for Third Year students to enhance their soft skills and employability. The sessions focused on communication, public speaking, group discussions, email etiquette, grooming, and mock interviews. Through interactive and practical training, students gained confidence, improved their professional behavior, and became better prepared for placement opportunities. The workshop was well-received and effectively bridged the gap between academic learning and industry expectations.

The "Rubicon Future Skills for Youth" workshop proved to be a valuable addition to the students' academic journey, providing them with practical skills essential for their future careers. The initiative successfully met its objectives, and students expressed appreciation for the opportunity to engage in such a transformative experience.

Report of Arduino Workshop

1. **Day & Date:** May,2025
2. **Name of faculty Coordinator:** Prof.D.A.Itole

Brief description of event:

The Department of Electronics and Telecommunication and TESA successfully organized an Arduino Workshop for ENTC students, focusing on hands-on learning of microcontroller basics, Arduino programming, and sensor interfacing. The session covered topics such as digital/analog I/O, LED and sensor interfacing, and building simple projects like temperature and motion detection systems. Led by an expert speaker, the workshop saw enthusiastic participation from Second and Third Year students. Interactive demonstrations, team activities, and a Q&A session enhanced student engagement. The event received highly positive feedback and encouraged interest in further embedded systems and IoT learning.

Feedback collected from students was overwhelmingly positive. Participants appreciated the practical exposure and expressed interest in attending more advanced sessions on embedded systems, IoT, and robotics in the future.

The Arduino Workshop conducted by TESA proved to be a valuable learning experience for the students. It helped bridge the gap between theoretical knowledge and practical implementation. TESA aims to continue organizing such technical sessions to promote hands-on learning and innovation among budding engineers.
