ALL INDIA SHRI SHIVAJI MEMORIAL SOCIETY'S INSTITUTE OF INFORMATION TECHNOLOGY

Department of Information Technology

VISION

To be a leader in preparing technically competent and skillful IT Graduates to address the needs of industry and society.

MISSION

1. To prepare students for employment/entrepreneurship/higher studies through curricular, extracurricular and extension activities.
2. To promote research and professional activities through industry involvement and professional bodies
3. To instill professional ethics and lifelong learning skills with concern for the society.

PROGRAM EDUCATIONAL OBJECTIVE

Graduates will

1. Excel in diverse career paths with core professional skills.
2. Engage in multi domain research/professional activities
3. Cater to the needs of society with IT solutions/applications.

PROGRAM SPECIFIC OUTCOMES

Graduates will be able to

1. Use database, networking and programming technologies for solving real life problems
2. Develop applications in the field of computing, networking, security and analytics.

PROGRAM OUTCOMES

Graduates will be able to

1. Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems. **[Engineering knowledge]**
2. Identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences. **[Problem analysis]**
3. Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations. **[Design/development of solutions]**
4. Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions. **[Conduct investigations of complex problems]**
5. Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations. **[Modern tool usage]**

6. Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice. **[The engineer and society]**
7. Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development. **[Environment and sustainability]**
8. Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice. **[Ethics]**
9. Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings. **[Individual and team work]**
10. Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions. **[Communication]**
11. Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments. **[Project management and finance]**
12. Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change. **[Life-long learning]**

RULES:-

Event Phases Overview:

The event will consist of three phases: Aptitude Test, Group Discussion (GD), and the Technical + HR Round.

1. Aptitude Test:

- The test will take place on the college premises, covering topics such as verbal ability,
- reasoning, numerical ability, pseudocode, and basic questions on DSA, DBMS, OOPS.
- The difficulty level of the questions will range from easy to challenging.
- Students will be required to solve 60 questions within 60 minutes.
- The test can be attempted on the college-provided PCs or students may bring their own laptops, but testing is restricted to the college labs.
- Important: Use of mobile phones is strictly prohibited. Any form of cheating will result in immediate disqualification.

2. Group Discussion (GD) Round:

- Students who qualify for the aptitude test will proceed to the GD round, where they will discuss a topic given on the spot.

3. Technical Round:

- The final shortlisted students will participate in a Technical round.

Additional Details:

- The Event is scheduled to be conducted over the course of the entire day.
- Winners will receive an internship opportunity, providing them with industry-based experience to enhance their skill.
